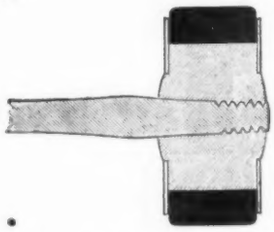
Pressed Wrought Iron Open Turn Buckles.

BEST AND CHEAPEST

The list retail price of this Buckle is less than one-half the wholesale price of inferior goods when we commenced to manufacture, and dealers, even in small towns, find it profitable to carry a stock to sell with iron for tie rods.



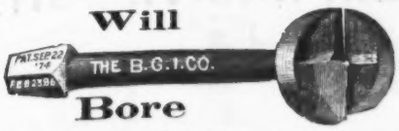
CLEVELAND CITY FORGE & IRON CO.,

CLEVELAND, OHIO.

FIBRE HEAD MALLETS

PATENTED JANUARY 18, 1887.

Wood Body and Handle, thoroughly Kiln-dried. Malleable Bands. Heads easily replaced.



The heads of our Mallets and Chisel Handles are tipped with a layer of Vulcanized Fibre This is a Vegetable Compound, which by means of chemical processes and being subjected to a pressure of 200 tons is changed to a solid. It is tough, elastic and practically indestructible.

We claim that a mallet or handle reinforced with this material will outwear ten ordinary ones.

E. C. Stearns & Co., Syracuse, N. Y.

THE FORSTNER AUGER BIT.

Will

Bore A SQUARE Hole.

But that is not the only reason it is a superior tool for Fine Carpentry, Cabinet and Pattern Work, Car Builders, Carriage Makers, &c., &c.

IT HAS THE FOLLOWING POINTS OF SUPERIORITY:

1. It bores a clean, smooth hole, as polished as a gun barrel.
2. It will bore at an angle or on a curve.
3. It cuts a clean hole through knots or other imperfections.
4. It will bore a small hole larger without plugging.
5. It bores equally well against or with the grain and cannot split the wood.
6. It bores oblong or oval holes.

Send for descriptive circular and price-lists **2**.

TOOL CABINET.

This is a Work Bench and Tool Chest combined, for the use of those who wish to do work in their houses. It is made of solid white ash, with hard maple bench plank, and looks like a nice piece of furniture in a room.

The Cabinet is 18 x 34 x 36 inches. It is furnished with a steel faced vise of a new pattern, and Patent Bench Stop.

It has a detachable back board with racks for tools, as seen in the cut. There are six drawers, of varying depths, for holding Tools, Nails, Screws, Brads, &c, being much more convenient than any Tool Chest now in use.

PRICE, $20.00 EACH.

Hardware Dealers will furnish with these Cabinets such Tools as may be wanted.

MILLERS FALLS CO.,

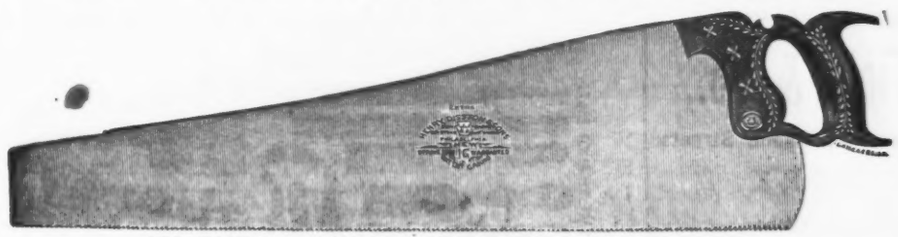
"If you want a Saw it is best to get one with a name on it which has a reputation.
A man who has made a reputation for his goods knows its value as well as its cost and will maintain it."—HENRY DISSTON.

THE SAWS THAT LEAD THEM ALL

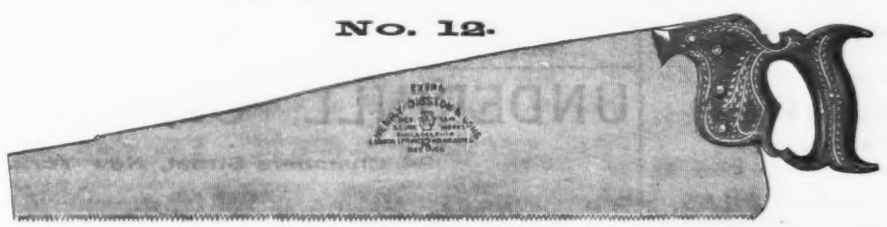
"THE SAW;" HOW TO CHOOSE IT, AND HOW TO KEEP IN ORDER, Sent Free on Receipt of Name and Post Office Address.



DISSTON & SONS' PATENT D-8 HAND SAW.

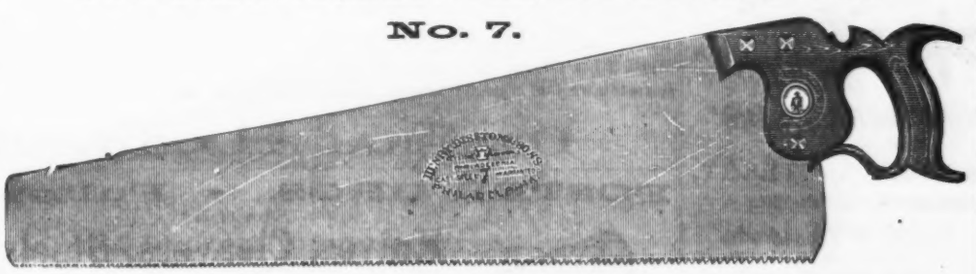
This Saw combines all the valuable improvements in Hand-saws that have been made by us of late. The first and most important is the hollow or skew-back, the success of which can best be attested by the number sold. The peculiar shape of the butt or heel, coupled with the new method of fastening to the handle, give a full stroke of the blade without fear of catching or hooking in the work; and as the handle is put further on the blade you have a full stop on the proper point and a greater command over your Saw, by reason of being two inches nearer the point, which must give more power.

The Saw being let into the handle on a circle, has a perfect bearing, which, with the new screws, makes it stronger and almost impossible to work loose, and avoids the unsightly gap that is seen on the back of the old style handle. All the above features are patented.



Our New No. 16 Premium Saw.

AN EXTRA FINE SAW IN EVERY RESPECT.



Having the Latest Close up Handle, Spring Steel Blade, Extra Thin Back, Finely Grained, with an Apple Handle and Four Brass Centennial Screws.

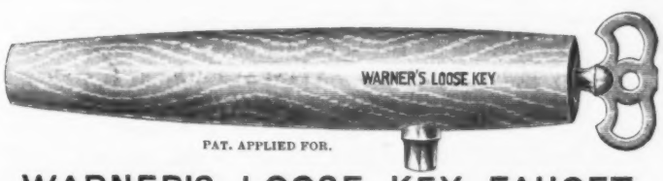
PIKE'S

THE World's Headquarters FOR

BLUE-STONE, SCYTHE-STONE,

WHETSTONES, OIL-STONES, RAZOR HONES,



AND EVERY THING FOR

SHARPENING

EDGE-TOOLS.

If you **want the best Scythe-stones** buy the following celebrated brands:—The **"Indian Pond Red Ends,"** which have been made for about 70 years, and the sale of them extends to-day all over the world, and the demand for this stone exceeds all others. They are quick cutting, strong and do not glaze. The **"Lamoille Scythe-stone"** is also well-known, and has the reputation of being the best stone in the world to give a keen, smooth edge. The **"Black Diamond Scythe-stone"** is of the same grit, but superior finish, and is the handsomest scythe-stone in the market. The **"Ragg," "Willoughby Lake." "Green Mountain," "Diamond Grit," "White Mountain," "Farmer's Choice,"** and **"Extra Quinnebaug"** are all choice stone, coming from the best quarries which have been discovered in long years of effort and experience. These stones are carefully selected and handsomely packed and are sure to sell with satisfaction and profit.

The Wall Torch has been used for several years as a means of illumination in **Mills, Foundries, Machine and Car Shops, Tunnels, Street Stands, Band Stands, Smith Shops,** etc.

While there are many cheap, inferior torches made which injure the sale of a good article, and condemn the **Torch** in general, our "Incandescent" Wall Torches are recognized as the best, and are now in use in the largest manufacturing establishments in the country giving **PERFECT SATISFACTION,** as is evidenced by the **DUPLICATE ORDERS** we receive from year to year.

They burn 150° Coal Oil, or 74° Naphtha, requiring a different burner for each.

In ordering be careful to state which is desired.

Price, for Single Torch, complete, $2 each.

SPECIAL PRICE QUOTED FOR QUANTITIES.

The Leonard Patent Portable Storm Houses.

A long-felt Want Supplied. Comfort and Economy Assured.

The sides and roof are constructed of Corrugated Iron set in a frame of Michigan Pine. The front is a good five panel sash door set in a frame of 2 x 4 pine. The upper panel is set with glass. The whole is neatl painted—two coats and two colors. Has a good latch with porcelain knob, and door spring. It is **Ornamental, Light, Strong, Cheap and Durable.** Anybody can set it up or take it down. Not necessary to have a carpenter. Storm Doors can be taken away in case of removal. The sides of the house are hinged to the front and fold inwards. The gables are hinged to the roof and fold inwards. The whole structure is only six inches thick when folded. To set it up, hook the edges to the door frame and adjust the roof to the top of the door frame. A notch may be sawed in the bottom rail for a projecting step or threshold if necessary. They save their cost in fuel every year, besides the comfort they give. Exclusive agencies given.

ARCTIC ICE DOGS.

These Ice Dogs or Creepers, designed to secure safe-footing on slippery pavements, are the simplest and best ever invented. They consist of a very light, malleable casting of the best quality of iron, fitted for the sole of the shoe and fastened to the foot by means of a toe-strap and an endless elastic band drawn high over the heel, thus holding the dog to its place, and being easy of adjustment, is very quickly put on or taken off.

There are two sizes, for ladies and gentlemen respectively, and the peculiar adjustment attaches them equally well to boots, shoes or rubbers, without difficulty or delay.

Retail at 50c. per pair. Liberal discount to dealers.

For Sale by David Williams 66 & 68 Duane St. New York

SELLING A STOVE

Is an art. Unlike shelf goods, it cannot be quickly handed out for inspection. Is your storeroom dark in any portion where you keep stoves? A "Daisy" never break stove truck will supply the light needed to show the stove off properly and perhaps affect a sale.

These trucks are far superior to the old fashioned platform, as with them every part of the stove may be examined by the customer. "All you've got to do is push the stove out and talk." Remember they fit any stove. Dealers sell stoves in half the usual time when using them. Try a dozen and see how handy they are.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders,

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

Bemis & Call Hardware & Tool Co

PATENT COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PATENT PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

For Circulars and Price List, address

This Wrench can be Furnished with Long Nut or Sleeve.

HUMPHREY'S IMPROVED AWL HAFT.

OUR NEW HANDLE has many points of improvement and beauty over any other Awl Haft now on the market. The metal portions are nickel, making a fine contrast with the fancy wood of the handle. The Awl has a square shank, which prevents turning, and it cannot pull through the cap when used in the hardest wood. The tools, 8 awls, 1 screw driver and 1 point, are held in separate cells under the ring at the top of the handle. The ring has one hole in it, which when revolved passes over each cell containing the tools, and is automatically locked at any desired point. It also forms a covering for all the tools when not in use. *Send for prices.*

Gautier Steel Dept. of Cambria Iron Co., Johnstown, Pa.
Hawkeye Steel Barb Fence Co., Burlington, Ia.
Iowa Barb Wire Co., 98 Reade, N. Y.
Ludlow-Saylor Wire Co., St. Louis, Mo.
St. Louis Wire Mill Co., St. Louis, Mo.
Washburn & Moen Mfg. Co., Worcester.

Beams, Steel and Iron.
Moffatt, F. D. & Co., 81 Fulton, N. Y.

Bellows, *Manufacturers of.*
Bullock Bellows Co., Cleveland, O.
Scott, Geo. M., Chicago, Ill.

Bells (Sleigh).
Bevin Bros. Mfg. Co., East Hampton.

Belt Dressing.
Jos. Dixon Crucible Co., Jersey City, N.J.

Belt Fasteners.
Bristol Mfg. Co., 132 Nassau, N. Y.
Clafien Mfg. Co., Cleveland, Ohio.
Talcott, W. O., Providence, R. I.
Union Belt Fastener Co., Unionville, Conn.

Belt Punches.
Sayre, L. A., Newark, N. J.

Belting, *Makers of.*
Alexander Bros., 412 N. 3d., Phila.
Jeffrey Mfg. Co., Columbus, O.
Main Belting Co., Philadelphia, Pa.
Midgley Wire Belt Co., Beaver Falls, Pa.
N. Y. Belting & Packing Co., N. Y.
Page Belting Co., Concord, N. H.
Shultz Belting Co., St. Louis, Mo.

Bicycles.
Coventry Machinists Co, L'd, Boston, Mass.
Eagle Bicycle Mfg. Co., Stamford, Conn.
Hartford Cycle Co., Hartford, Conn.
Livingston, M. V. Cycle Mfg. Co., Westboro, Mass.
Overman Wheel Co., Chicopee Falls, Mass.

Bird Cages.
Hendryx, Andrew B & Co., New Haven, Conn.

Bits and Braces.
American Bit Brace Co., Buffalo, N. Y.
Amidon, C. H., Buffalo, N. Y.
Bridgeport Gun Implement Co., 19 Maiden Lane, N. Y.
Saxton, E. R., Buffalo, N. Y.

Blinds, Window.
Hartman & Durstine, Wooster, Ohio.

Blocks, Tackle, *Makers of.*
Boston and Lockport Block Co., Boston, Mass., and Lockport, N. Y.
Cleveland Block Co., Cleveland, O.
Coleman, Walter & Sons, Providence, R. I.
Laughlin, Thos. & Son, Portland, Me.
McMillan, Wm. H., 113 South, N. Y.
Moore Mfg. & Fdry Co., Milwaukee, Wis
Shubert & Cottingham, Phila.
Toledo Block Works, Toledo, Ohio.

Blowers.
Buffalo Forge Co., Buffalo, N. Y.
Sturtevant, B. F., Boston, Mass.

Boiler Makers' Rolls.
New Doty Mfg. Co., Janesville, Wis.

Boiler Plates.
McIlvain, Wm. & Sons, Reading, Pa.

Boiler Tubes.
Continental Iron Works Co., Brooklyn, N. Y.

Boilers, Copper.
Randolph & Clowes, Waterbury, Conn.

Boilers, Steam.
Babcock & Wilcox Co., 30 Cortlandt, N. Y.
Broomell, Schmidt & Co., Ltd., York, Pa.
Carroll-Porter Boiler & Tank Co., Pittsburgh, Pa.
Edge Moor Iron Co., Wilmington.
Foundry & Mch. Dept., Harrisburg, Pa.
Pollock, W. B. & Co., Youngstown, O.
Wetherill, Robt. & Co., Chester, Pa.

Bolt Cutters.
Chambers Bros. Co., Philadelphia.
Howard Iron Works, Buffalo, N. Y.
Wells Bros. Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Books.
Lamberson, B., Portland, Ore.
Leigh, E. B., St. Louis, Mo.
Walcott & West, Syracuse, N. Y.
Williams, David, 66 & 68 Duane, N. Y.

Boot Calks
Lufkin Rule Co., Cleveland, Ohio.

Boxes, Hdw. Shelf, &c.
Green, S. H., 22 Park Place, N. Y.
Jone, Jesse & Co., Philadelphia, Pa.
National Metal-Edge Box Co., Phila.

Brass, *Manufacturers of.*
Ansonia Brass & Copper Co., N. Y.
Bridgeport Brass Co., 19 Murray, N. Y.
Davol, John & Sons, 100 John, N. Y.
Holmes, Booth & Haydens, N. Y.
Plume & Atwood Mfg. Co., N. Y.
Randolph & Clowes, Waterbury, Conn
Rome Brass and Copper Wks., Rome.
Scoville Mfg. Co., 421 Broome, N. Y.
Waterbury Brass Co., 296 B'way, N. Y.

Brass Butt Hinges.
Tiebout, W. & J., 16 & 18 Chambers, N. Y.

Brass Founders.
Cramp, B. H. & Co., Philadelphia, Pa.
Deoxidized Metal Co., Bridgeport.
Reeves, Paul S., Philadelphia.
Springfield Foundry Co., Springfield, Mass.

Brass Goods.
Brass Goods Mfg. Co., 88 Chambers, N. Y.

Brushes.
Rennous, Kleinle & Co., Baltimore, Md.

Buffing Composition.
Matchless Metal Polish Co., Chicago, Ill.

Butcher and Shoe Knives, *Manufacturers of.*
Wilson, John, Sheffield, En land.

Butts and Hinges.
Lanman, E. B., Columbus, Ohio.
Sabin Machine Co., Montpelier, Vt.
Tiebout, W. & J., 16 Chambers, N. Y.
Union Mfg. Co., 103 Chambers, N. Y.

Calipers and Dividers.
J. Stevens Arms and Tool Co., Chicopee Falls, Mass.
Starrett, L. S., Athol, Mass.

Can Makers' Tools and Machines.
Niagara Stamping and Tool Co., Buffalo, N. Y.

Can Openers.
Alliger, Hasbrouck, 125 Chambers, N.Y.
Goodell Co., Antrim, N. H.
Wheeler Patent Can Opener Co., St. Louis, Mo.

Car Axles.
Roberts, A. & P. & Co., Phila.

Car Wheels.
Jackson & Woodin Mfg. Co., Berwick, Pa.
Whitney, A. & Sons, Phila.

Carriage Hardware, *Makers of.*
Clapp, E. D. Mfg. Co., Auburn, N. Y.
Scranton Forging Co., Scranton, Pa.
Smith, H. D. & Co., Plantsville, Conn.
Wilcox & Howe, Birmingham, Conn.

Castings, Iron and Steel.
Arcade Malleable Iron Co., Worcester, Mass.
Booth, The Lloyd, Co., Youngstown, O.
Buffalo Steel Foundry Co, Buffalo, N Y.
The Burr & Houston Co., Brooklyn, N.Y.
Cambria Steel—Cambria Iron Co., Johnstown, Pa.
Chester Steel Casting Co., Phila.
Eureka Cast Steel Co., Chester, Pa.
Flagg, Stanley G. & Co., Phila.
Haight & Clark, Albany, N. Y.
Hammer & Co., Branford, Conn.
Jackson & Woodin Mfg. Co., Berwick, Pa.
Janney, M. P., Pottstown, Pa.
Johnson Foundry Co., Johnstown, Pa.
Johnson, I. G. & Co., Spuyten Duyvil.
Moore Mfg. & Fdry Co., Milwaukee, Wis.
Morris, Tasker & Co., 224 South Third Street, Phila.
North Bros. Mfg. Co., Phila.
Northwest Malleable Iron Co., Milwaukee, Wis.
Palmers & De Mooy, Cleveland, O.
Sessions Foundry Co., Bristol, Conn.
Spencer's, I. S., Sons, Guilford, Conn.
Sharon Steel Castings Co., Sharon, Pa.
Shepard Hdw. Co., Buffalo, N. Y.
Springfield Fdry. Co., Springfield.
St. Louis Steel Fdry Co., St. Louis, Mo.
Standard Steel Casting Co., Thurlow.
Syracuse Steel Foundry, Syracuse.
Syracuse Mall. Iron W'ks, Syracuse.
Taylor & Boggis Fdry Co., Cleveland, O.
Thos. D. West F'dry Co., Cleveland, O.
Watkins Chilled Plow Co., Watkins, N.Y.
Wetherill, Robt. & Co., Chester, Pa.

Chains.
Bradlee & Co., Philadelphia.
Bridgeport Chain Co., Bridgeport, Conn
Wm. H. Haskell Co., Pawtucket, R. I.
Hendryx, Andrew B. & Co., New Haven, Conn.

Chemicals and Apparatus.
Eimer & Amend, 205 Third ave., N. Y.

Chisels, *Manufacturer of.*
Buck Bros., Millbury, Mass.
White, L. & I. J., Buffalo, N. Y.

Chucks.
Hoggson & Pettis Mfg. Co., New Haven, Conn.
Horton, E. & Sons Co., Windsor Locks, Conn.
Smith & Egge Mfg. Co., Bridgeport.
Union Mfg. Co., 103 Chambers, N. Y.
D. E. Whiton Mach. Co., New London, Conn.

Clamps.
Hammer & Co., Branford, Conn.

Coal.
Borden & Lovell, 70 West, N. Y.
Pardee, A. & Co., 111 Broadway, N. Y.

Coat and Hat Hooks.
Hamblin & Russell Mfg. Co., Worcester, Mass.
Tucker & Dorsey Mfg. Co., Indianapolis, Ind.

Coffee and Spice Mills.
Enterprise Mfg. Co., Philadelphia.
Lane Bros., Poughkeepsie, N. Y.

Coke.
Frick, H. C. Coke Co., Pittsburgh, Pa.
Schoonmaker, J. M., Pittsburgh.
Wister, Francis, Philadelphia, Pa.

Collections.
Hardware Board of Trade (Limited), 4 and 6 Warren, N. Y.

Copper.
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Hendricks Bros., 49 Cliff, N. Y.
New Haven Copper Co., 294 Pearl, N.Y.
Randolph & Clowes, Waterbury, Conn.
Rome Brass and Copper Works, Rome, N. Y.

Cordage.
Elizabethport Cordage Co., 46 South, N. Y.

Cork Pullers.
Greely, B. J., Boston, Mass.
Meriden Malleable Iron Co., Meriden, Conn.

Corrugated Iron.
Cambridge Roofing Co., Cambridge, O.
Jersey City Galvanizing Co., Jersey City, N. J.
Moseley Iron Bridge & Roof Co., 5 Dey, N.Y.
Standard Iron Co., Bridgeport, Ohio.
Thompson Mfg. Co., Cleveland, O.

Cottages, Portable.
Iron Cottage Co., Grand Rapids, Mich.

Coverings, Boiler and Pipe.
Chalmers-Spence Co., 419 8th, N. Y.

Cranes.
Chester Foundry & Mch. Co., Chester, Pa.
Detroit F'dry Equipment Co., Detroit, Mich.
Sellers, Wm. & Co., Inc., Phila., Pa.
Yale & Towne Mfg. Co., Stamford, Conn.

Cupolas, Hot-Blast.
Colliau, Victor, Detroit, Mich.
Detroit F'dry Equipment Co., Detroit, Mich.

Curry Combs.
Noyes, B. B. & Co., Greenfield, Mass.
Southington Cutlery Co., Southington, Conn.

Cutlery, *Importers of.*
Boker, Hermann & Co., 103 Duane, N.Y.
Clatworthy, F. & W., N. Y.
Field, Alfred & Co., N. Y.

Cutlery, *Manufacturers of.*
Am. Knife & Razor Co., St. Louis, Mo.
Electric Cutlery Co., 91 Chambers, N.Y.
Foster Bros., Fulton, N. Y.
Goodell Co., Antrim, N. H.
Jordan, A. J., St. Louis, Mo.
Northampton Cutlery Co., Northampton, Mass.
R. Wallace & Sons Mfg. Co., 21 Park Place, N. Y.
Wilson, John, Sheffield, England.

Cutting Tools.
Higganum Hdw. Co., Higganum, Conn.

Daubers.
Empire Portable Forge Co., Cohoes, N. Y.

Dog Collars.
Chapman Mfg. Co., Meriden, Conn.
Medford Fancy Goods Co., 44-46 Duane, N. Y.

Door Checks.
Morton Door Check & Spring Co., Boston, Mass.

Door Hangers, House and Barn.
Cronk Hanger Co., Elmira, N. Y.
Lane Bros., Poughkeepsie, N. Y.
Moore Mfg. & Fdry Co., Milwaukee, Wis.
Stearns, E. C. & Co., Syracuse, N. Y.
Terry Mfg. Co., Horsehead, N. Y.
Victor Mfg. Co., Newburyport, Mass.

Door Knobs.
Bardsley, J., 59 Elm, N. Y.

Drilling Machines.
Boynton & Plummer, Worcester, Mass.
Buffalo Forge Co., Buffalo, N. Y.
Burnham, G. & Co., Worcester, Mass.
Champion Blower and Forge Co., Lancaster, Pa.
Dallett, Thos. H. & Co., Philadelphia.
Dwight Slate Machine Co., Hartford, Conn.
Illinois Iron and Bolt Co., Carpentersville, Ill.
Millers Falls Co., 93 Reade, N. Y.
Norton & Jones Machine Tool Works Plainville, Conn.
Sellers, Wm. & Co., Inc., Phila., Pa
Sigourney Tool Co., Hartford, Conn.
Universal Radial Drill Co., Cinn., Ohio
Wiley & Russell Mfg. Co., Greenfield Mass.

Dripping Pans.
St. Louis Dripping Pan Co., St. Louis, Mo.

Drop Forgings.
Beecher & Peck, New Haven, Conn.
Belden Mach. Co., New Haven, Conn.
Billings & Spencer Co., Hartford, Conn
Boone, W. C. & Son, Brooklyn, N. Y.
Merrill Bros., 26 First, Brooklyn, E. D.

—— MANUFACTURERS OF ——

IRON AND STEEL WIRE

of every description, plain, galvanized, tinned and lead-coated; spiral ribbon fence wire; steel wire ties for baling hay, straw, rags, excelsior, &c., &c., &c.

IRON AND STEEL WIRE ROPE

for all purposes, including cables of the best quality and of any desired length for street cable roads. The attention of all users of wire rope is specially called to the Trenton Iron Co.'s

Patent Locked Wire Ropes

which are far superior to any other in tensile strength and durability; from the fact that the wires in these ropes are interlocked, "unstranding" or projection of broken wires is impossible, and consequently a smooth surface only is constantly presented to the sheave or drum, causing these latter to last indefinitely. One of these locked wire ropes working under ordinary conditions will outwear two or three ropes of the ordinary style. The Trenton Iron Co. also call attention to their

Patent Wire Rope Tramways (Bleichert system)

also their hoisting and conveying plants for quarries, open cut mines, docks and contractor's work. Haulage and transmission of power by wire ropes a specialty. Surveys made and plans furnished at moderate rates by competent engineers.

The Metallurgy of Steel.

BY

HENRY M. HOWE.

Price, - - - - *$10.00*

This work is the most notable contribution to the literature of iron and steel metallurgy ever published. This series of papers on the subject have, during the past two years, attracted world-wide attention and have received the heartiest commendation from all quarters. The volume now published presents this material in much more convenient shape, with considerable additional matter, giving the results of the most recent research, experiment and practice. Also presenting a complete review of all important conclusions reached by earlier investigators. Every statement and citation has been carefully weighed and verified, and the references to the literature of the subject are given minutely, the book thus furnishing in itself a key to the whole range of steel metallurgy. It also furnishes the results of much new and original investigation, specially undertaken for the present work. Every metallurgist, every manufacturer of steel in any form, and all who are interested in the iron or steel industries, and all engineers who use iron or steel should have this standard work and cannot afford to be without it.

TABLE OF CONTENTS:

Chapter I.—Classification and Constitution of Steel.
Chapter II.—Carbon and Iron. Hardening, Tempering and Annealing.
Chapter III.—Iron and Silicon.
Chapter IV.—Iron and Manganese.
Chapter V.—Iron and Sulphur.
Chapter VI.—Iron and Phosphorus.
Chapter VII.—Chromium, Tungsten, Copper.
Chapter VIII.—The metals occurring but sparingly in iron.
Chapter IX.—Iron and Oxygen.
Chapter X.—Nitrogen, Hydrogen, Carbonic Oxide.
Chapter XI.—The Absorption and Escape of Gas from Iron.
Chapter XII.—The Prevention of Blowholes and Pipes.
Chapter XIII.—Structure and related subjects.
Chapter XIV.—Cold Working, Hot Working, Welding.
Chapter XV.—Direct Processes.
Chapter XVI.—Charcoal-Hearth Processes.
Chapter XVII.—The Crucible Steel Process.
Chapter XVIII.—Apparatus for the Bessemer Process.
Appendix I.—Special Steels.
Appendix II.—Anti-Rust Coatings.
Appendix III.—Lead Quenching.

REPRESENTING

OLIVER AND ROBERTS WIRE CO.

This illustration is taken direct from a photograph of an iron roof built by us for the Providence Gas Co., at Providence, R. I. The roof is built entirely of iron—iron trusses, iron purlins, covered with corrugated iron. There is not a particle of woodwork anywhere about the roof, thus making it absolutely fireproof. Notice that along the peak of the roof there is a corrugated iron ventilator, with iron shutters opening and closing from the floor, thus securing perfect ventilation.

EXPANDED METAL

Is the "Trade" name for Plates of Soft Steel cut and opened out into webs of diamond or other shaped mesh.

SUBSTANTIAL, LIGHT AND CHEAP.

FENCING.

Is used extensively for **Rail Road, Cemetery, Farm, Village and Lawn Fences, Gates, Skylight, Window and Elevator Guards, Office Railings and Partitions, Chicken Yards, Tree Guards, Grape Arbors, Lattice and Ornamental Lawn Work. More durable than wire.**

Our Steel Lath commends itself to Architects and Builders as the best metallic lath in use.

It requires no stretching or furring; its form makes it rigid, and yet it can be readily molded to any required curve or angle. Gives a perfect "key" throughout.

Specify our Lath to reduce the fire risk on your buildings.

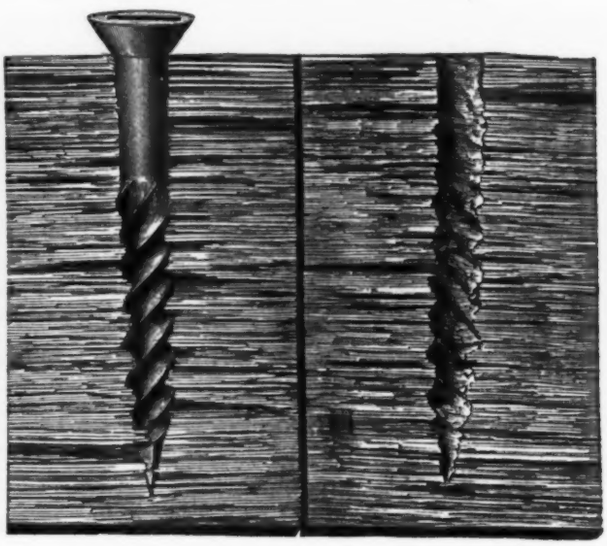
AMERICAN SCREW COMPANY



PROVIDENCE, R. I.

Chicago Store, No. 19 Lake St. EUROPEAN AGENTS, THOMAS & STIRLING, Liverpool.

"ROGERS' DRIVE SCREWS."

Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

A common cut thread screw as ordinarily inserted—*i.e.*, driven two-thirds of its length with a hammer and the balance with a screw driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

The "ROGERS' DRIVE SCREW" driven with a hammer its entire length. It revolves as it goes in and does not break the fibres of the wood, but makes its own nut of the cavity it forms.

The foregoing illustrations speak for themselves, but we call attention to a few advantages of the "ROGERS' DRIVE SCREWS."

1. Stiffness, adapted for driving with a hammer.
2. Rapidity of insertion.
3. Increased holding surface.
4. Ability to be driven with hammer and withdrawn with Screw Driver numerous times from same hole.
5. Superior Head, which will withstand blows of a hammer and not impair the slot.
6. Improved Slot, admitting the use of a heavier Screw Driver.
7. A "ROGERS' DRIVE SCREW" of small diameter will hold as much as a common screw of larger diameter.

List prices, same as common iron wood screws. Discount for Flat Heads, 66⅔%.

All Toe Calk Steel furnished by the Gautier Steel Dept of Cambria Iron Co. will bear the following label on yellow paper in black letters:

Gautier Steel Dept. Of Cambria Iron Co., JOHNSTOWN, PA. **Toe Steel. X**

It is made from special soft stock, will bend double without breaking, weld freely and harden sufficiently to cut glass.

Following sizes carried in stock for the accommodation of our patrons:

Archer Gas and Fuel Process.

HOME OFFICES FOR UNITED STATES—ROOMS, 178-179. 45 BROADWAY, NEW YORK.

The ARCHER GAS-FUEL PROCESS solves the Problem of Cheap Gaseous Fuel, meeting EVERY REQUIREMENT OF NATURAL GAS as to EFFICIENCY and ECONOMY.

It has been in Successful Operation on a large scale, from 3 to 36 months in many of the largest Iron, Steel, Glass, Pipe, Ware and other manufacturing establishments in the United States.

It is the only Practically Running and Commercially Successful Water-Oil Gas System in the World.

J. B. ARCHER, - 45 Broadway, New York.

The Iron-Masters' LABORATORY.

Exclusively for the

Analysis of Ores of Iron, Pig and Manufactured Iron, Steels, Limestone, Clays, Slags and Coal for Practical Metallurgical Purposes.

339 Walnut St., Philadelphia.

With Branch at Warrenton, Virginia.

J. BLODGET BRITTON.

This laboratory was established in 1866, at the instance of a number of practical Iron Masters, expressly to afford prompt and reliable information upon the chemical composition of the substances above mentioned, for smelting and refining purposes, the object being to make it at once a convenient, practically useful, and comparatively inexpensive adjunct to the Furnace, Forge and Rolling Mill.

DESCRIPTIVE CATALOGUE ON APPLICATION TO

THE WELLS RUSTLESS IRON CO.,

Little Ferry, N. J. 52 John St., New York.

SOFT STEEL PLATES.

We are making a specialty of soft steel plates for Blanking and Stamping, with clean, smooth surface, rolled carefully as to gauges, ranging from No. 9 to 16 inclusive, in widths up to 15½ inches, and to any multiples of length desired.

We can also furnish plates freed from scale and so treated as not to rust readily before using.

By the use of these, instead of raw plates in Stamping, the great saving of wear on costly dies and increased production of better work will more than cover the increase of cost over that of raw plates. Trial orders solicited in small or large quantities.

Patentee and Manufacturer of the celebrated

Economic Safety Hoist.

One man can lift two to three times as fast as with any other self-holding chain hoist. Spur gearing in connection with the automatic brake holds the load at any place, reducing friction to a minimum. The hoist has two speeds, is built strong and durable and guaranteed to give satisfaction. Cheaper than any other reliable hoist.

Overhead Tramways and Portable Derricks. Hand Power Elevators.

Send for illustrated catalogue. Agents wanted.

Fluor-Spar.

MULLINS'

Fluor-Spar and Lead Mining Co.,

220 First National Bank Building

CHICAGO, ILL.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays, and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point, and saves fuel; it diminishes the loss of metal, saves labor, and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

SPECIAL NOTICE
TO CONSUMERS OF CHARCOAL IRON.

Wyebrooke Charcoal Pig Iron, strictly cold blast.
Has splendid chilling qualities and great strength.
Furnace now in blast and orders can be filled promptly.

Address
BOX 43, Pittsburg, Kansas.

FOR SALE.

In West Chelmsford, Mass., all the Real Estate and Machinery formerly owned by the Hiscox File Co.; the real estate consisting of about 7 acres of land, together with the buildings and water power, and the machinery, being such as was used by them in the manufacture of files, machine knives, sword blades and edge tools. There is also on the premises a good 75 horse-power Harris-Corliss engine and good boiler, also a large amount of shafting, belting and supplies. This property is situated about five miles from Lowell, and is very easy of access by railway, with excellent facilities. The entire property will be sold very cheap, either as a whole or in part, and will afford some party an excellent chance to enter into this business. For terms, &c., inquire of
J. W. BENNETT, Lowell, Mass., or
F. G. SARGENT, Graniteville, Mass.

STATE OF WASHINGTON.

FOR SALE.

Valuable Mineral Property, located in Virginia. For particulars, address
D. A. A. KEYSER,
Backbone, Alleghany Co., Va.

Iron Bridge M'f'r's.

The demand in the South for Iron Bridges and buildings is now very large and growing. A Bridge and Structural Iron Works in the South would have an abundance of orders and pay large dividends from the start, if it was located accessible to coal, on competing lines of R. R., and where material of good quality could be readily secured. Buchanan, Va., presents all of these advantages. It is on two trunk lines of R. R., with two more located; it is in the midst of the great iron and coal fields of the Virginias, and the Central Land Co., of Buchanan not only offers free sites but financial aid from its large cash development fund ($400,000). This is a rare opportunity to a pushing, energetic Bridge Builder. Buchanan also seeks associate industries on similar terms. Address CENTRAL LAND CO. of Buchanan, Buchanan, Va.

FOR SALE.

The well-established business, known as THE GAYLORD, CROSS & SPEIRS CO., located in Waterbury, Conn., is offered for sale. This plant is on the corner of Benedict and Meadow Sts.; consisting of land, brick and frame buildings, &c.; the foundry and all machinery goes with sale; there is between $10,000 and $12,000 worth of machinery that goes with the business. The lot fronts on two streets, 164 feet on Meadow and 219½ feet on Benedict Sts.; there is ample room for another large machine shop or any kind of manufacturing business without being cramped for room; this plant is only two minutes' walk from depot. The reason why this valuable property is put in the market at the price asked is because the owner is West and cannot give the attention that it requires. Take the business in consideration, both in foundry and machine work, it is a rare opportunity that does not occur every day, where one can buy an established business for the low figure, $45,000. The land and buildings alone are worth the price I ask, without the machinery. Address

L. J. BOWEN, Receiver,
Waterbury, Conn.

COAL at **50 cents per ton for twenty years; $1,000,000 cash,** and desirable location, with railway facilities, at **$100 PER ACRE,** worth $500, as special inducements to encourage new manufacturing industries

MEANS that **PITTSBURG, Kansas,** with its unequaled railway connections, is the best point on this continent for the establishing of smelting works, foundries and machine shops and any kind of manufacturing industry consuming coal and looking to the U. S. and Mexico for a market; guaranteeing

PROSPERITY to every dollar invested and every man employed. Gas, 75 cents per thousand. Taxes 3 per cent. on a 30 per cent. valuation; four trunk railways; $7,000,000 invested in industrial enterprises, best of free schools, property cheap. **Now**

TO PITTSBURG **is the time to invest. Come and investigate.** Write for information and Maps. **PITTSBURG TOWN CO.,** Pittsburg, Kan. A. W. GIFFORD, General Agent.

FOR SALE.

A Corliss Upright Steam Engine, 40 in. cylinder, 42 in. stroke, with 40 ton fly wheel, made by Corliss. Also a train of 24 in. Rolls for rolling Steel Plate 16 in. down to 16 gauge; the housings are heavy enough for a three high 30 in. train; they were made for a 30 in. Blooming train; both engine and train are in first-rate condition, and can be seen at the Old Norway Steel and Iron Works, South Boston; any communication addressed to THOS. GOGIN, 61 Thomas Park, South Boston, will have prompt attention.

WANTED.

Hardware Specialties to manufacture in Iron Brass, Bronze, Sheet Steel or Malleable Iron.

THE PERKINS LOCK MFG. CO.,
Cleveland, Ohio.

FOR SALE.

$5000 stock of Hardware, Lumber and Stoves, with good business established in centre of Southern Illinois fruit belt.

T. B. RHODES, Anna, Ill.

FOR SALE.

An old-established Wholesale General Hardware Business, located at Burlington, Iowa. Has the advantages of both rail and water communications, and one of the best distributing points on the Upper Mississippi River; good trade already established and am to-day doing a good business; stock on hand about $70,000; have five salesmen on the road, do business in Western Illinois, Northern Missouri, Eastern Nebraska, Southern Dakota and Minnesota and a large portion of Iowa.

The largest portion of my trade comes from Iowa The territory can be extended and trade increased if desired. This is a rare opportunity for any one wishing to step into a good business already thoroughly established. Reason for wishing to sell out—poor health. For any information desired pertaining to the business and location, I would refer you to Ross & Fuller, 33 Chambers St., N. Y.; Clement M. Biddle & Co., Philadelphia; the National State Bank of Burlington, Iowa, or the undersigned

LYMAN H. DRAKE.

SOUTHERN CALIFORNIA.

CLIMATIC PARADISE OF THE U. S.

No Snow. No Cyclone.

A Store For Sale.

Good will and stock of about $4,000 in Hardware' Crockery and House Furnishing goods. Price of the two-story brick building (21 x 48 feet), garden and yard (together 12,131 square feet) $7,000. The city of Anaheim (population 1,500), the oldest settlement of Southern California, is surrounded by an extensive farming country, has the finest drinking water and has for healthfulness no rival on the coast. It is situated about 26 miles southeast of Los Angeles and 14 miles from the Pacific Ocean. The store lies between the Southern Pacific and Santa Fé Railroad depots. Address: Charles Pamperl, Anaheim, Orange County, California.

FOR SALE.

Rare Opportunity.

Best Hardware business in a thriving Ohio city of 20,000 inhabitants; stock, $25,000 to $30,000; annual sales, $80,000 to $90,000, with good profits; no hand stock; open until Jan. 1, 1891.

Address "TEMPLE," office of *The Iron Age*, 66 and 68 Duane st., N. Y.

BY A YOUNG MAN, a position as Foreman of Bench or Light Machinery Foundry; am a practical bench and floor molder; have had five years' experience as foreman; am advanced in all improvements of the foundry; am satisfied to take hold of shop and instruct boys, and guarantee to run shop successfully with them; or will take jobbing work by weight or contract. Address "WEIGHT," office of *The Iron Age*, 66 and 68 Duane St., New York.

OWING to the closing of The Elmira Rolling Mills I am out of employment, and would like a position as Shipping Clerk in a Rolling Mill; I have had 10 years' experience in shipping merchant and structural iron: references, The Elmira Rolling Mill Co. CHARLES J. ROOT, Elmira, N. Y.

HARDWARE.—A practical Lock and Hardware Manufacturer desires position as Superintendent or Manager; is capable of looking after all departments; would like to hear of responsible parties who are about to start a Lock or Hardware manufactory. Address "NEW BRITT," Box 400, office of *The Iron Age*, 66 and 68 Duane St., New York.

BY A MARRIED MAN who has had ten years' experience at bookkeeping, labor accounts, cost sheets of jobs, &c., in general machine shop, boiler shop and foundry business; thoroughly reliable and acquainted with the business, clerically, in all its details. Address "CLERICAL," office of *The Iron Age*, 66 and 68 Duane street, New York.

BY A COMPETENT ROLL TURNER; good references. Address "R. T.," office of *The Iron Age*, 220 So. Fourth St., Philadelphia.

SITUATION as Blast Furnace Founder; 35 years' experience; can furnish best of references. Address ROB'T POLLOCK, Elmira, N. Y.

POSITION AS CHEMIST in either Iron or Steel Plant, Blast Furnace or Ore mines; am thoroughly competent and can furnish excellent references. Address "CHEMIST," office of *The Iron Age*, Room 511, Hamilton Building, Pittsburgh.

A YOUNG MAN, 16 years' experience in General and Builders' Hardware, good Salesman, best of references as to business ability and moral character, would make connection with a good house in a live growing city, where a small amount of capital will obtain an interest in the business. Address "PROMOTION," office of *The Iron Age*, 66 and 68 Duane St., New York.

YOUNG MARRIED MAN, 30 years old, would like position as Buyer or Sales Manager in wholesale Hardware house; 10 years' experience as a Traveling Salesman and 3 years in leading positions in the house where he now is; thoroughly familiar with all the details of a systematic business; excellent references. Address "SYSTEMATIC," office of *The Iron Age*, 66 and 68 Duane St., New York.

POSITION by a Machinery Pattern Maker of long experience; have a good situation now in that capacity in Pennsylvania, but on account of my family preferring to live East, I wish to move there; can furnish first-class references; wages reasonable. Address "PATTERN MAKER," Box 200, office of *The Iron Age*, 66 and 68 Duane St., New york.

ENGINEERING KNOWLEDGE, ABILITY, broad experience in the foundry and machine business, and in manufacturing and construction, draughting, estimating costs and prices, correspondence, and a reliable, energetic nature, are the qualifications possessed by a thoroughly competent Mechanical Engineer, with experience and capacity to fill a responsible position. Address "EXECUTIVE QUALITIES," office of *The Iron Age*, 66 and 68 Duane St., N. Y.

YOUNG MAN thoroughly posted in General and Builders' Hardware; has had 7 years' experience in retail hardware business and 3 years as traveling salesman for a large wholesale house, is now open for a position as a traveling salesman, either with wholesale hardware or manufacturing establishment; unquestionable references furnished. Address "THOROUGH," office of *The Iron Age* 66 and 68 Duane St., N. Y.

A GENTLEMAN, aged 43, possessing business abilities of a high order and a complete knowledge of the wholesale hardware business, will be open to an engagement January 1st. Higest references given. Address "B. B.," office of *The Iron Age*, 66 & 68 Duane St., New York.

A THOROUGH, practical and scientific man desires to take charge of blast furnace, steel works, in any way concerning the mining and manufacture of iron; also in addition can sell 20,000 tons of iron a year. Address "ONWARD," office of *The Iron Age*, 66 and 68 Duane St., New York.

BY A MAN of 30 years' experience in the steel trade, a position to take charge of rolls as foreman in a mill or hammer shop, or will undertake the entire control of a crucible steel plant. Address "FOREMAN," 73 Green St., Cumberland, Md.

A GENTLEMAN of character and ability, with nine years' experience in the Iron, Steel and Hardware business, would like to correspond with some good manufacturer in the Iron and Steel or Hardware line, desirous of establishing a branch office or agency at Cleveland, O. Address "J. F. C.," office of *The Iron Age*, 219 Superior St., Cleveland, O.

POSITION WANTED by practical Foundryman familiar with all details in the production of soft, light and medium weight gray iron castings; can use molding machines to an advantage; 25 years' experience in the management of foundries employing from 10 to 100 men; American, middle age, strictly temperate; unquestionable references furnished. Address "CASTINGS," Lock Box 433, East Brookfield, Worcester Co., Mass.

MECHANICAL ENGINEER and Draftsman, experienced in the designing of machine tools, special machinery, traveling cranes, hoisting machinery, hydraulic machinery, transmission of power, steam engines, single and compound, rolling mill work, etc., desires engagement. Address "CONSOLIDATION," office of *The Iron Age*, 66 and 68 Duane st., N. Y.

RESPONSIBLE situation as head draftsman, superintendent or assistant. First class service for first-class pay. Address "W. T.," office of *The Iron Age*, 66 and 68 Duane St., N. Y.

A WELL-KNOWN Hardware Salesman would like to make arrangements with some good manufacturer, to represent his line in the West and Northwest, where he has traveled for the last 15 years; would like a line of chisels and drawing knives, wrenches, or three or four small lines. Address "S. S. S.," office of *The Iron Age*, 66 and 68 Duane St., New York.

BLAST FURNACE SUPERINTENDENT and Engineer of successful experience is open to an engagement. Address "SILICON," office of *The Iron Age*, 66 and 68 Duane St., New York.

SYRACUSE, N. Y.

DISCOUNT BOOK.

COMPRISING

Nearly 200 pages of carefully prepared and positively accurate Tables.

THESE pages contain about one hundred and twenty thousand computations, giving at a glance the net of any sum whatever, at all discounts from 1 per cent. to 95, together with a great range of combinations.

The purpose of the book is to save computing percentage in its various forms and to give results that can be depended upon without proving, thereby avoiding much brain work and the mental strain attending hastily worked computations, which have to be proved, and saving time, money and patience. The book is nicely printed and handsomely bound, and is meant for every-day use.

It covers the whole range of discounts, both simple and complex, and is therefore almost indispensable, not only to the Hardware Trade, but to

EVERY BUSINESS IN WHICH PERCENTAGE IS USED.

It will be found complete and prove its value for finding the net costs of goods, making list prices, making discounts, comparing prices, adding profit, &c.—there is no limit to its application. A few days' use by Buyer, Price Clerk, Manufacturer, or any one who has to make prices or figure discounts, will verify the claim that the book is accurate, rapid, convenient and practical.

PRICE, $3.00; DOUBLE INDEXED EDITION, $4.00.

EMPIRE PORTABLE FORGE CO., Lansingburgh, N.Y., U.S.A.

SUPPLIES, DUNN & ALDER, Agts., 97 Chambers St., N.Y.

We have of late made very great improvements on Butcher Saw Blades. They now cut very fast and will last three or four times as long without filing as any other blade in market. It costs less to buy the saw than it does to file it. Butchers pay say 50 cents for a wide blade and during the year that it lasts pay $5.00 more for filing it. One dozen of these Star Blades will last a year without any filing and cost only $1.32. The butcher saves over $4.00 a year by using the Star Blades and the dealer makes more on selling a dozen narrow saws than he does on one wide one. We warrant these saws to give satisfaction. If any do not they may be returned.

E. C. ATKINS & CO., Indianapolis, Indiana.

The Famous "Dexter."

Second only to the Silver Steel Diamond, and equal to it when made of the same class of steel, is the **Patent Concaved Tooth Dexter.** The patent by which this saw is protected consists of a depression of the face of the cutting teeth through the centre from point to base, thus removing all friction while in use, giving strength and stiffness to the teeth and increasing threefold the durability of the "set." This saw never fails to give the best satisfaction.

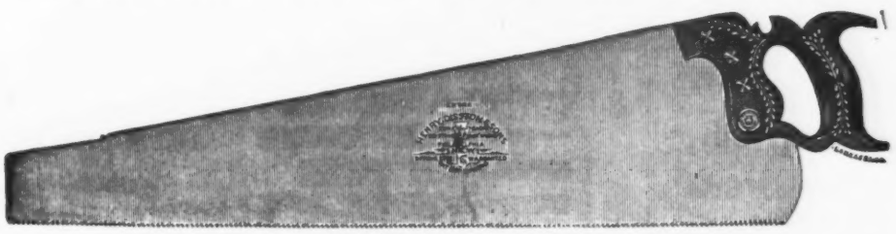
"If you want a Saw it is best to get one with a name on it which has a reputation.
A man who has made a reputation for his goods knows its value as well as its cost and will maintain it."—HENRY DISSTON.

THE SAWS THAT LEAD THEM ALL

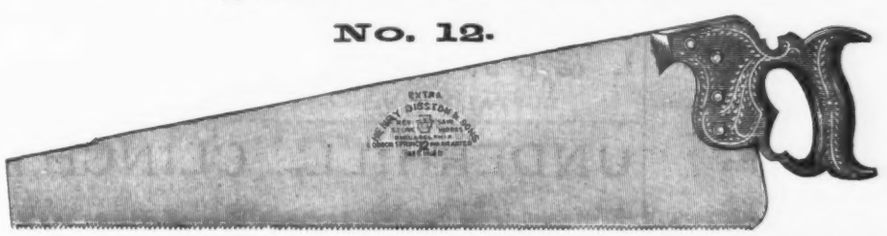
"THE SAW;" HOW TO CHOOSE IT, AND HOW TO KEEP IN ORDER, Sent Free on Receipt of Name and Post Office Address.



DISSTON & SONS' PATENT D-8 HAND SAW.

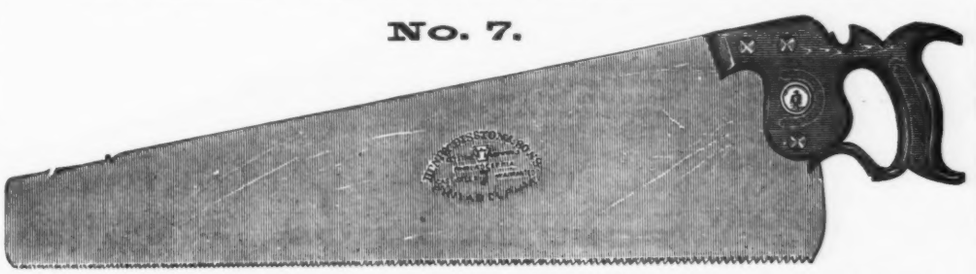
This Saw combines all the valuable improvements in Hand-saws that have been made by us of late. The first and most important is the hollow or skew-back, the success of which can best be attested by the number sold. The peculiar shape of the butt or heel, coupled with the new method of fastening to the handle, give a full stroke of the blade without fear of catching or hooking in the work; and as the handle is put further on the blade you have a full stop on the proper point and a greater command over your Saw, by reason of being two inches nearer the point, which must give more power.

The Saw being let into the handle on a circle, has a perfect bearing, which, with the new screws, makes it stronger and almost impossible to work loose, and avoids the unsightly gap that is seen on the back of the old style handle. All the above features are patented.



Our New No. 16 Premium Saw.

AN EXTRA FINE SAW IN EVERY RESPECT.



Having the Latest Close up Handle, Spring Steel Blade, Extra Thin Back, Finely Grained, with an Apple Handle and Four Brass Centennial Screws.

No. 12.

DISSTON & SONS' Extra Refined London Spring Steel, Selected and highly Polished Blade, Handle Carved and Polished, 4 Improved Brass Screws, the finest Hand Saw manufactured.

No. 7.

DISSTON & SONS' Cast-Steel, Warranted, Beech Handle, Polished Edge, 4 Improved Screws, Grained Blade.

"POCKET EDITION OF THE SAWYER" and "LUMBERMAN'S HAND BOOK," Sent Free on Receipt of Name and Post Office Address.

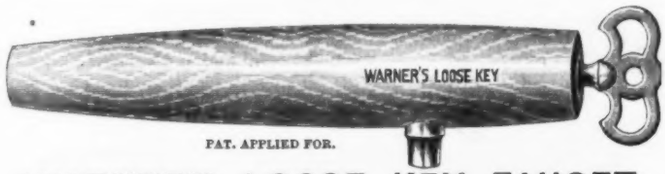
BLUE-STONE, SCYTHE-STONE,

WHETSTONES, OIL-STONES, RAZOR HONES,

AND EVERY THING FOR



SHARPENING

EDGE-TOOLS.

If you **want the best Scythe-stones** buy the following celebrated brands:—The **"Indian Pond Red Ends,"** which have been made for about 70 years, and the sale of them extends to-day all over the world, and the demand for this stone exceeds all others. They are quick cutting, strong and do not glaze. The **"Lamoille Scythe-stone"** is also well-known, and has the reputation of being the best stone in the world to give a keen, smooth edge. The **"Black Diamond Scythe-stone"** is of the same grit, but superior finish, and is the handsomest scythe-stone in the market. The **"Ragg," "Willoughby Lake." "Green Mountain," "Diamond Grit," "White Mountain," "Farmer's Choice,"** and **"Extra Quinnebaug"** are all choice stone, coming from the best quarries which have been discovered in long years of effort and experience. These stones are carefully selected and handsomely packed and are sure to sell with satisfaction and profit.

The Leonard Patent Portable Storm Houses.

A long-felt Want Supplied. Comfort and Economy Assured.

The sides and roof are constructed of Corrugated Iron set in a frame of Michigan Pine. The front is a good five panel sash door set in a frame of 2 x 4 pine. The upper panel is set with glass. The whole is neatl painted—two coats and two colors. Has a good latch with porcelain knob, and door spring. It is **Ornamental, Light, Strong, Cheap and Durable.** Anybody can set it up or take it down. Not necessary to have a carpenter. Storm Doors can be taken away in case of removal. The sides of the house are hinged to the front and fold inwards. The gables are hinged to the roof and fold inwards. The whole structure is only six inches thick when folded. To set it up, hook the edges to the door frame and adjust the roof to the top of the door frame. A notch may be sawed in the bottom rail for a projecting step or thresnold if necessary. They save their cost in fuel every year, besides the comfort they give. Exclusive agencies given.

Send ten cents to cover postage for our new illustrated Catalogue in nine colors.

ARCTIC ICE DOGS.

These Ice Dogs or Creepers, designed to secure safe-footing on slippery pavements, are the simplest and best ever invented. They consist of a very light, malleable casting of the best quality of iron, fitted for the sole of the shoe and fastened to the foot by means of a toe-strap and an endless elastic band drawn high over the heel, thus holding the dog to its place, and being easy of adjustment, is very quickly put on or taken off.

There are two sizes, for ladies and gentlemen respectively, and the peculiar adjustment attaches them equally well to boots, shoes or rubbers, without difficulty or delay.

Retail at 50c. per pair. Liberal discount to dealers.

No. 52 Meat Chopper.

No. 10, Large Family Size, $3.00.

They are unexcelled for chopping

Sausage Meat, Mince Meat, Hamburg Steak for Dyspeptics, Hash, Tripe, Hog's-Head Cheese, Suet, Clams, Chicken Croquettes, Chicken Salad, Scrap Meat for Poultry, Cod Fish, Peppers, Corn for Fritters, Scrapple, Cocoanut, Stale Bread for Bread Crumbs, &c. Also for making Beef Tea for Invalids, Mashing Potatoes, Pulverizing Crackers, &c., &c., &c.

Showing Machine Taken Apart.

Our Family Size Meat Chopper No. 10 has recently been improved in an essential feature. A drop forged steel plate (standard size, 5-32 inch holes) has lately been substituted for the ordinary cast plate, thus making the chopper capable of cutting 50% FASTER, FINER and EASIER than heretofore.

No. 52 Meat Chopper.

OUR FAMILY SIZE MEAT CHOPPERS are SOLD BY ALL HARDWARE AND HOUSE FURNISHING STORES.

No. 62 Meat Chopper.

4-INCH DISTANCE BELL.

Operated by a Push Button.

About **400** ordinary Electric Rings for each Winding,

Without the Aid of a Battery.

Can be placed in any part of the house. Easily adjusted by any one who will follow directions printed on the bottom of each box. Button Case, necessary Cranks and 75 feet of Brass Wire included, making each bell complete and nicely packed in suitable boxes.

No. 200, Nickel Gong, $40.00 per doz.

(Discount to the Trade.)

Our New Departure Call Bells,

Giving 250 electric rings with each winding. No battery required. Winding is easily and quickly done, by simply turning the gong. Depressing the button on top of the gong causes the bell to ring in the same manner as the electric.

No. 57, Silver Plated, $42.00 per doz.

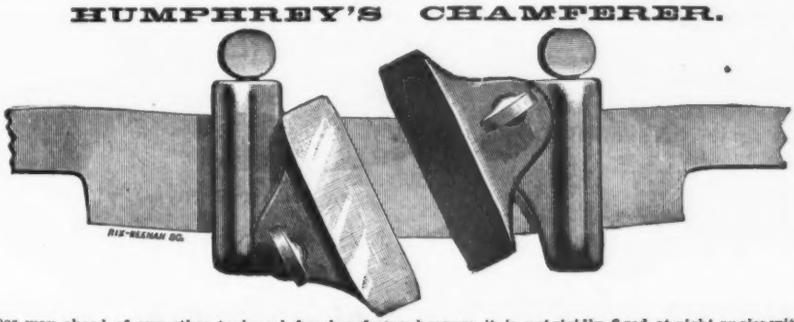
WHEELER PATENT CAN OPENER COMPANY.

Surpasses all other instruments for opening cans, irrespective of shape or size.
They are well recommended by those who have them in use. It is the only can opener that will cut off the top of paint pails. There are hundreds in use for this purpose.
It cuts stove pipe, tin pipe, &c., to perfection. The blade is made of the best cutlery steel, and the spring is of the most reliable make. For sale by all wholesale hardware dealers. Samples will be forwarded to any address on receipt of 50c. Address **Wheeler Patent Can Opener Co.**, 102 South Main St., St. Louis, Mo.

The TROJAN MOP STICK.



PATENT PENDING.

We call special attention to our method of lapping the ends of the wire around the arms of the lever. It is there to stay. If as good a Mop Stick is on the market we have never seen or heard of it. Send for Prices.

PEABODY & PARKS, Troy, N. Y.

HUMPHREY'S CHAMFERER.

Goes way ahead of any other tool used for chamfering because *it is not* rigidly fixed at *right angles* with the blade as others are, but can be *set at any angle* which the nature of the work requires. This feature is invaluable when hard or cross-grained wood is to be worked. Send for lists and prices. Several new tools this season.

MONEY! MONEY!

So hard to obtain yet so easy to lose. You can never lose the proceeds of cash sales made during the day in your store if as received they are deposited in one of "Tucker's Alarm Tills." Why not? Because any attempt of the "Till Tapper" is at once announced by the alarm attached to the drawer.

Did you notice the little cut up in the corner? It illustrates our "Vegetable Cutter," one of the handiest articles that we make. All our goods are, however, very useful articles in any household, therefore are good things for the dealer to sell. Write

For Sale by DAVID WILLIAMS, 66 and 68 Duane St., N. Y

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a **guarantee** that they cannot **break, bend or warp.** An important feature also is that they are made **without rivets,** and **cannot leak** or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

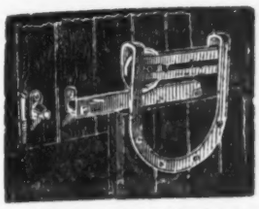
Manufactured only by **THE BRONSON SUPPLY CO., Cleveland, Ohio.** N. Y. Office, 51 Cliff St.

THE SWIFT MILL.

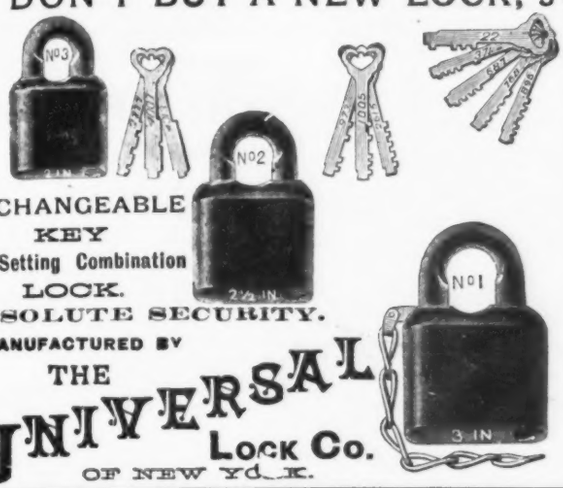


ESTABLISHED 1845.

The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.

LANE'S PATENT STEEL DOOR HANGER.



The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

Manufactured by LANE BROS., Poughkeepsie, N. Y.

JOHN H. GRAHAM & CO., General Agents, 113 Chambers Street NEW YORK.

DON'T BUY A NEW LOCK, JUST BUY A DIFFERENT KEY.

A CHANGEABLE KEY
Self-Setting Combination LOCK.
ABSOLUTE SECURITY.
MANUFACTURED BY
THE UNIVERSAL Lock Co.
OF NEW YORK.

This lock differs from all others in the fact that it will set itself to any one of 4013 different keys with which the user may choose to lock it. Only the key used in locking will unlock it.

The advantage will naturally become apparent when for any reason whatever the user wishes to change the means of securing his premises, he need only buy a new key. Obviously as many different locks for securing the premises will be available as there are keys in the possession of the holder.

PRICE LIST.

No. 1 (with Chain)	per dozen,	$24.00
" 1	"	21.00
" 2	"	18.00
" 3	"	15.00

Extra Keys, 10 cents each.

NOTE.—Keys numbered from 1 to 4013 inclusively.

NEWARK, NEW JERSEY.
Formerly of Poughkeepsie, New York.

Bemis & Call Hardware & Tool Co

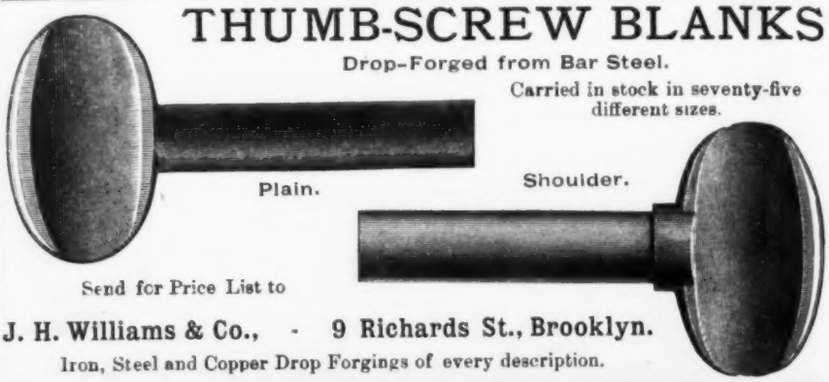
PATENT COMBINATION WRENCH.
Case-Hardened Throughout. Parts Interchangeable.
This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PATENT PIPE WRENCH.
The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.
For Circulars and Price List, address

This Wrench can be Furnished with Long Nut or Sleeve.

BEMIS & CALL HARDWARE & TOOL COMPANY, Springfield, Mass.

THE **TRIMO** TRIMO TRADE MARK **PIPE WRENCH.**



Send for Circular and Price List.
For Sale by all Supply Houses.

Made of forged steel, and is interchangeable in all its parts. It grips the pipe firmly without loss motion. Releases its hold readily. Causes no trouble when used in close quarters. It does not crush the pipe.

Wetherell Bros., 93 Liberty, N. Y.
Wilmot & Hobbs Mfg. Co., Bridgeport, Conn.

Steel, *Manufacturers' Agents.*
Gautier, D. G. & Co., 114 John, N. Y.
Hicks & Dickey, Philadelphia, Pa.

Steel Nails.
Bellaire Nail Works, Bellaire, Ohio.

Steel, Sheet.
Ætna Iron & Steel Co., Bridgeport, O.
Cambridge Iron & Steel Co., Cambridge,
Chess, Cook & Co., Pittsburgh, Pa.
Ohio.
Pope, C. E. & Bro., Pittsburgh, Pa.
Standard Iron Co., Bridgeport, Ohio.

Steel Spiral Springs, *Manufacturers*
Cary & Moen, 234 W. 29th, N. Y.
Chatillon, John & Sons, N. Y.
Roland, Wm. & Harvey, Frankford.

Steel Tires.
Latrobe Steel Works, Latrobe, Pa.

Steel, Tool.
Frankford Steel Co., Philadelphia.
Jessop, Wm. & Sons, Sheffield, England ,91 John, N. Y.
Leng, John S., 4 Fletcher, N. Y.
Smith Bros. & Co., Pittsburgh, Pa.

Stocks and Dies.
Armstrong Mfg. Co., Bridgeport, Conn.
Besly, C. H. & Co., Chicago, Ill.
Billings & Spencer Co., Hartford, Conn.
Butterfield & Co., Derby Line, Vt.
Hart Mfg. Co., Cleveland, O.
Saunder's Sons, D., Yonkers, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co!, Greenfield, Mass.

Stove Linings.
Ostrander, Jas. & Son, Troy, N. Y.

Stove Trimmings.
Troy Nickel Works, Troy, N. Y.

Stoves, Oil, Vapor and Gasoline.
Central Oil Stove Co., Boston, Mass.

Strops.
Electric Cutlery Co., 91 Chambers, N.Y.
J. R. Torrey & Co., Worcester, Mass.

Sulphuric Acid.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Swaging Machines.
Excelsior Needle Co., Torrington.

Tack and Nail Machinery.
Sweetser, W. A., Brockton Mass.

Tack Pullers.
Hagen & Reid, W. Troy, N. Y.

Tacks, Brads, Staples, &c.
A. Field & Sons, Taunton, Mass.
American Tack Co., 116 Chambers, N.Y.
Disosway & Henderson, 165 Greenwich, N. Y.
Dunbar, Hobart & Co., 39 Warren, N Y.
Florence Tack Co., Florence, Mass.
National Screw & Tack Co., Cleveland, Ohio.
Phillips, E. & Sons, South Hanover.
Plymouth Mills, Plymouth, Mass.
Trufant, W. E., Whitman, Mass.

Taps and Dies.
Butterfield & Co., Derby Line, Vt.
Manning, Maxwell & Moore, 111 Liberty, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Testing Machines.
Riehle Bros., Philadelphia,

Thill Springs.
Butts & Ordway, Boston, Mass.
Frost Thill Spring Co., Boston, Mass.

Toe Calks, Steel.
Burke, P. F., Boston, Mass.

Tools.
Am. Bit Brace Co., Buffalo, N. Y.
Atkins, E. C. & Co., Indianapolis, Ind.
Britton, Horace E., Stoughton, Mass.
Brown, R. H. & Co., New Haven, Conn.
Humphrey Tool Co., Warren, Mass.
Standard Tool Co., Athol, Mass.
Stanley Rule & Level Co., 29 Chambers, N. Y.
Starrett, L. S., Athol, Mass.

Tool Chests.
Am. Tool Co., 200 W. Houston, N.Y.

Tools and Machines (Tinners').
Niagara Stamping and Tool Co., Buffalo, N. Y.

Tools, Blacksmith and Wheelwrights.
Barlass Bros., Janesville, Wis.
Illinois Iron & Bolt Co., Carpenterville, Ill.
Silver Mfg. Co., Cleveland, O.

Tools, Steam and Gas Fitters'.
Enterprise Co., Sandwich, Ill.
Saunders' Sons, D., Yonkers, N. Y.
Todd, H. B., Meriden, Conn.

Torches, Gasolene.
Dangler Stove & Mfg. Co., Cleveland, O.
Schneider & Trenkamp, Cleveland, O.

Transom Lifters.
Wollensak, J. F., Chicago, Ill.

Tripoli.
Am. Tripoli Co., Carthage, Mo.

Trucks, *Manufacturers of.*
Boston & Lockport Block Co., Boston, Mass., and Lockport, N. Y.
Lansing Wheelbarrow Co. Lansing, Mich.
Riehlé Bros., 9th St., Phila.

Tube Scrapers.
Chalmers-Spence Co., 419 8th, N. Y.

Tubes, Seamless Drawn Copper.
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Bridgeport Brass Co., 19 Mur'y, N. Y.
Randolph & Clowes, Waterbury, Conn.

Tubes, Steel.
Leng, John S., 4 Fletcher, N. Y.
Spiral Weld Tube Co., 5 & 7 Beekman St., New York.

Tumbling Barrels.
Henderson Bros., Waterbury, Conn.

Turnbuckles.
Anthony & McElroy, Philadelphia, Pa
Carnegie, Phipps & Co., Ld., Pittsburgh, Pa.
Cleveland City Forge and Iron Co., Cleveland, O.
Merrill Bros., Brooklyn, E. D.

Typewriters.
Smith-Premier Typewriter Co., Syracuse, N. Y.

Twist Drills, *Makers of.*
Cleveland Twist Drill Co., Cleveland.
Morse Twist Drill & Machine Co., New Bedford, Mass.
Standard Tool Co., Cleveland.

Valves, Gas, Water and Steam.
Chapman Valve Mfg. Co., Boston.
Jenkins Bros., 71 John, N. Y.
Leng, John S., 4 Fletcher, N. Y.
Ludlow Valve Mfg. Co., Troy, N. Y.
Lunkenheimer Brass Mfg. Co., Cincinnati, Ohio.
McNab & Harlin Mfg. Co., 56 John N. Y
Mason Regulator Co., Boston, Mass.

Ventilator Appliances.
Howard & Morse, 45 Fulton, N. Y.

Vises.
Howard Iron Works, Buffalo, N. Y
Prentiss Vise Co., 23 Dey, N. Y.

Wagon Jacks.
Boston & Lockport Block Co., Boston Mass., and Lockport, N. Y.
Higganum Mfg. Corp., Higganum, Conn

Washers.
Mason Iron Co., Philadelphia, Pa.
Milton Mfg. Co., Milton, Pa.

Welding Machines.
Thomson Electric Welding Co., Boston

Well Machinery.
American Well Works, Peoria, Ill.

Wheelbarrows.
Lansing Wheelbarrow Co., Lansing, Mich.
McNeil, G. C., Akron, Ohia.

Wheels.
Quincy Metal Wheel Co., Quincy, Ill.

White Lead.
Atlantic White Lead and Linseed Oil Co., 287 Pearl, N. Y.
Lewis, John T. & Bros. Co., Phila.
Southern White Lead Co., St. Louis, Mo.

Window Cord, *Makers of.*
Samson Cordage Works, Boston, Mass

Wire. *Manufacturers of.*
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Cary & Moen, 234 W. 29th, N. Y.
Emmons, F. R. & Bro., 21 Warren, N. Y.
Fuller Bros. & Co., 139 Greenwich, N. Y.
Gautier Steel Department of Cambria Iron Co., Johnstown, Pa.
Salem Wire Nail Co., Salem, O.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg. Co., Worcester
Wetherell Bros., 93 Liberty St., N. Y.
Wolff, R. H. & Co., Ltd., 118th St. and Harlem River, N. Y.
Worcester Wire Co., Worcester, Mass.

Wire Cloth.
Barnum, E. T., Detroit, Mich.
Clinton Wire Cloth Co., Clinton, Mass.
Darby, Edward & Sons, Philadelphia.
Estey, W. S., 71 Fulton, N. Y.
Gilbert & Bennett Mfg. Co., 42 Cliff N. Y.
Howard & Morse, 45 Fulton, N. Y.
Wickwire Bros., Cortland, N. Y.
W. S. Tyler Wire Works Co., Clev'd.
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Cutters.
Higganum Mfg. Corp., Higganum, Conn
King, J. M. & Co., Watertown, N. Y.

Wire Door Mats.
Hartman Mfg. Co., Beaver Falls, Pa.
The Wire Goods Co., Worcester, Mass.

Wire Fences.
Gilbert & Bennett Mfg. Co., 42 Cliff
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Goods, *Manufacturers of.*
Darby, Edward & Sons, Phila.
Gilbert & Bennett Mfg. Co., N. Y.
Hollow Cable Mfg. Co., Hornellsville.
E. Jenckes Mfg. Co., Pawtucket, R. I.
Ludlow-Saylor Wire Co., St. Louis.
Whitman & Barnes Mfg. Co., Syracuse, N. Y.
Wire Goods Co., Worcester.
Wickwire Bros, Cortland, N. Y.

Wire Machinery.
Adt, John & Son, New Haven, Conn.
Manville, E. J. Mch. Co., Waterbury, Ct

Wire Nail and Tack Machines.
Eckstein, Chas. G. & Co., 32 Liberty, Sweetser, W. A. Brockton, Mass.

Wire Nails.
American Tack Co., Fairhaven.
Braddock Wire Co., Pittsburgh, Pa.
Dunbar, Hobart & Co., 39 Warren, N. Y.
Field, A. & Sons, Taunton, Mass.
Phillips, E. & Sons, South Hanover.
Phillips, Townsend & Co., Phil., Pa.
Plymouth Mills, Plymouth, Mass.

MANGANESE BRONZE PROPELLER WHEELS A SPECIALTY.

We particularly call attention to advantages derived from the use of these Wheels for steam yachts, and would recommend as a means of obtaining "maximum speed at minimum expense" that you adopt a Manganese Wheel.

CORRESPONDENCE SOLICITED.

DO YOU PAINT

Anything black? If you do, and use asphaltum or similar blacks, we can surely benefit you. Our quick drying **NUBIAN** is superior to asphaltum and is made in all qualities, from cheapest to best. You don't have to take our word for this, we leave you to be judge and jury. If you don't like our goods send them back and we will repay all freight and other charges which a trial has cost you. How does that strike you as square dealing?

The NUBIAN IRON ENAMEL CO., 157 to 161 Sangamon St., Chicago.

IRON AND STEEL WIRE

of every description, plain, galvanized, tinned and lead-coated; spiral ribbon fence wire; steel wire ties for baling hay, straw, rags, excelsior, &c., &c., &c.

IRON AND STEEL WIRE ROPE

for all purposes, including cables of the best quality and of any desired length for street cable roads. The attention of all users of wire rope is specially called to the Trenton Iron Co.'s

Patent Locked Wire Ropes

which are far superior to any other in tensile strength and durability; from the fact that the wires in these ropes are interlocked. "unstranding" or projection of broken wires is impossible, and consequently a smooth surface only is constantly presented to the sheave or drum, causing these latter to last indefinitely. One of these locked wire ropes working under ordinary conditions will outwear two or three ropes of the ordinary style. The Trenton Iron Co. also call attention to their

Patent Wire Rope Tramways (Bleichert system)

also their hoisting and conveying plants for quarries, open cut mines, docks and contractor's work. Haulage and transmission of power by wire ropes a specialty. Surveys made and plans furnished at moderate rates by competent engineers.

JUST PUBLISHED.

The Metallurgy of Steel.

BY

HENRY M. HOWE.

Price, - - - - *$10.00*

This work is the most notable contribution to the literature of iron and steel metallurgy ever published. This series of papers on the subject have, during the past two years, attracted world-wide attention and have received the heartiest commendation from all quarters. The volume now published presents this material in much more convenient shape, with considerable additional matter, giving the results of the most recent research, experiment and practice. Also presenting a complete review of all important conclusions reached by earlier investigators. Every statement and citation has been carefully weighed and verified, and the references to the literature of the subject are given minutely, the book thus furnishing in itself a key to the whole range of steel metallurgy. It also furnishes the results of much new and original investigation, specially undertaken for the present work. Every metallurgist, every manufacturer of steel in any form, and all who are interested in the iron or steel industries, and all engineers who use iron or steel should have this standard work and cannot afford to be without it.

TABLE OF CONTENTS:

Chapter I.—Classification and Constitution of Steel.
Chapter II.—Carbon and Iron. Hardening, Tempering and Annealing.
Chapter III.—Iron and Silicon.
Chapter IV.—Iron and Manganese.
Chapter V.—Iron and Sulphur.
Chapter VI.—Iron and Phosphorus.
Chapter VII.—Chromium, Tungsten, Copper.
Chapter VIII.—The metals occurring but sparingly in iron.
Chapter IX.—Iron and Oxygen.
Chapter X.—Nitrogen, Hydrogen, Carbonic Oxide.
Chapter XI.—The Absorption and Escape of Gas from Iron.
Chapter XII.—The Prevention of Blowholes and Pipes.
Chapter XIII.—Structure and related subjects.
Chapter XIV.—Cold Working, Hot Working, Welding.
Chapter XV.—Direct Processes.
Chapter XVI.—Charcoal-Hearth Processes.
Chapter XVII.—The Crucible Steel Process.
Chapter XVIII.—Apparatus for the Bessemer Process.
Appendix I.—Special Steels.
Appendix II.—Anti-Rust Coatings.
Appendix III.—Lead Quenching.

Is used extensively for **Rail Road, Cemetery, Farm, Village and Lawn Fences, Gates, Skylight, Window and Elevator Guards, Office Railings and Partitions, Chicken Yards, Tree Guards, Grape Arbors, Lattice and Ornamental Lawn Work. More durable than wire.**

Our Steel Lath commends itself to Architects and Builders as the best metallic lath in use.

It requires no stretching or furring; its form makes it rigid, and yet it can be readily molded to any required curve or angle. Gives a perfect "key" throughout.

Specify our Lath to reduce the fire risk on your buildings.

LATHING.

Send for Circular and Price List No. 15.

SOFT STEEL PLATES.

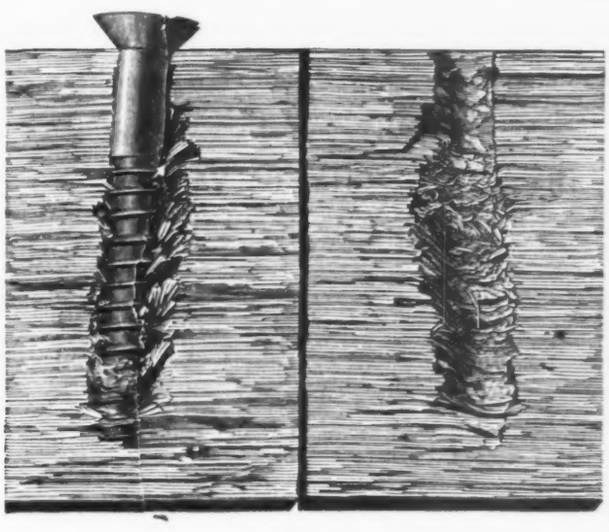
We are making a specialty of soft steel plates for Blanking and Stamping, with clean, smooth surface, rolled carefully as to gauges, ranging from No. 9 to 16 inclusive, in widths up to 15½ inches, and to any multiples of length desired.

We can also furnish plates freed from scale and so treated as not to rust readily before using.

By the use of these, instead of raw plates in Stamping, the great saving of wear on costly dies and increased production of better work will more than cover the increase of cost over that of raw plates. Trial orders solicited in small or large quantities.

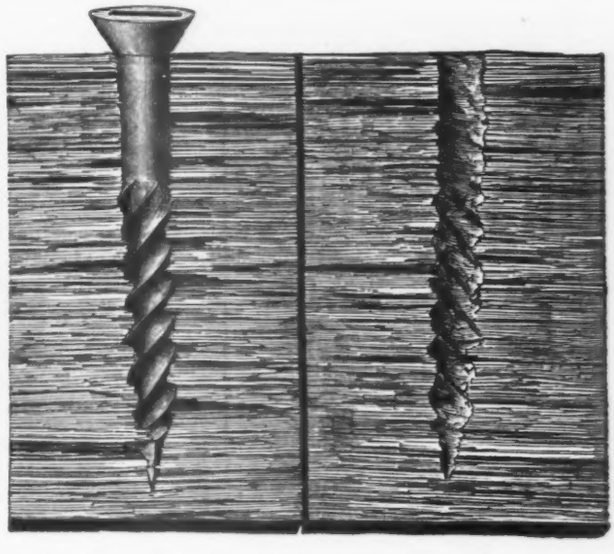
No. 116 Water St., Pittsburgh, Pa. **CHESS, COOK & CO.**

BOOKS. YOU CAN OBTAIN PROMPTLY the latest work on any subject in which you are interested by addressing DAVID WILLIAMS, Publisher and Bookseller, 66 and 68 Duane Street, New York.



AMERICAN SCREW COMPANY

PROVIDENCE, R. I.



Chicago Store, No. 19 Lake St. EUROPEAN AGENTS, THOMAS & STIRLING, Liverpool.

"ROGERS' DRIVE SCREWS."

Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

A common cut thread screw as ordinarily inserted—*i.e.*, driven two-thirds of its length with a hammer and the balance with a screw driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

The "ROGERS' DRIVE SCREW" driven with a hammer its entire length. It revolves as it goes in and does not break the fibres of the wood, but makes its own nut of the cavity it forms.

The foregoing illustrations speak for themselves, but we call attention to a few advantages of the "ROGERS' DRIVE SCREWS."

1. Stiffness, adapted for driving with a hammer.
2. Rapidity of insertion.
3. Increased holding surface.
4. Ability to be driven with hammer and withdrawn with Screw Driver numerous times from same hole.
5. Superior Head, which will withstand blows of a hammer and not impair the slot.
6. Improved Slot, admitting the use of a heavier Screw Driver.
7. A "ROGERS' DRIVE SCREW" of small diameter will hold as much as a common screw of larger diameter.

List prices, same as common iron wood screws. Discount for Flat Heads, 66⅔%.

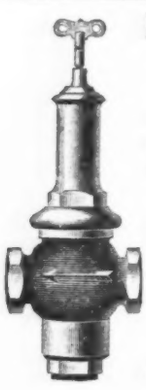
Testimonial of Dr. Peter Collier.

NEW YORK AGRICULTURAL EXPERIMENT STATION,
GENEVA, N. Y., January 9, 1890.

Shipman Engine Co., 200 Summer St., Boston, Mass.



Gentlemen:—The Shipman engine has now been in use at the Experiment Station for nearly five years. First a one-horse power Rochester model; but this proved too small for the work required, but gave good satisfaction, and has since been replaced by a two horse-power Boston model.

The engine is used in our experimental dairy for running a centrifuge for churning and for supplying steam and has given good satisfaction from the first. Very truly yours, PETER COLLIER, Director.

Send for Catalogue. Mention *The Iron Age.*

The Midgley Patent Wire Belts.

ENDLESS WIRE BELT, about ⅛ size.

Black Diamond Steel Works.
Lake Superior Copper Mills.
PARK, BROTHER & Co., Limited.
Pittsburgh, Sept. 2d, 1890.

MIDGLEY WIRE BELT Co, Beaver Falls, Pa.

Dear Sirs:—In reply to your inquiry, we would say we have had one of your 3-ply wire belts in constant use, running day and night, for the past three months. It is 22 inches wide by 90 feet long, weighing more than 1200 pounds. It has distributed all the power from a 200-horse automatic engine direct to a train of rolls rolling steel. We had formerly used a 3-ply leather belt. The belt is still in use and can be seen at our works.

Yours truly,
PARK, BROTHER & CO., Limited.

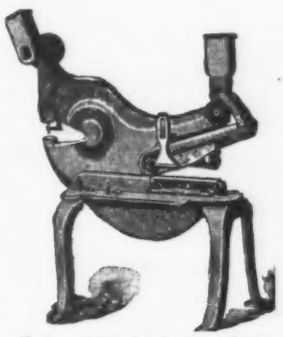
Oct. 26, 1890.—The belt referred to by Messrs. Park, Bro. & Co., has one side covered with rubber and runs on iron faced pulleys, and took the place of a 3-ply leather belt, and to this date has been in constant use for about six months. The Messrs. Park are the largest manufacturers of Cast Steel in America if not in the world.

To THE MIDGLEY WIRE BELT CO., Beaver Falls, Pa. Beaver Falls, Pa., September 1st, 1890.

Gentlemen: We are pleased to inform you that we have been running our entire factory for nearly two years with a 20-inch Double Tempered Wire Belt which took the place of a 24 inch double leather belt. Our power is a 15 x 3 Buckeye Engine. We covered our pulleys that the belt runs on with leather, and since we put it into use it has distributed the speed perfectly regular, which we never were able to do with leather on account of slippage. We have also an 8-inch Double Wire Belt 8 in. x 68 ft. long that drives our grinding machine for circular saw. It took the place of a 6-ply rubber belt made especially for us in Boston. It has now been in constant use more than a year, and has only been taken up twice in that time. The rubber belt lost over 12 feet of stretch in less than one year's use.

We really consider this the severest use a belt can be put to. In our emery grinding room we have had a 2½ operating a very high speed emery grinder and running at 9000 feet per minute over a 3½ inch pulley. We have various others in various departments, and every belt a perfect success. In fact, as fast as our leather and rubber belts give out, we put on in its place your Wire Belt, and all are entirely successful.

EMERSON, SMITH & CO., Limited, Saw Manufacturers.



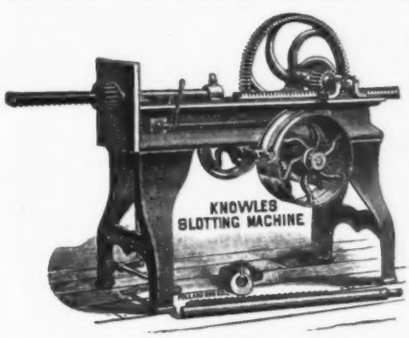
☞ **AGENTS WANTED** in all large localities and cities in the United States where any considerable quantities of Belting are used. To persons who will write to us, giving suitable references for their responsibility, and with a good practical knowledge of how to use Belts and operate them, we can offer a profitable inducement to handle our New Patent Wire Belting. For full particulars and descriptive circulars fully illustrated, address with full name and post office plainly written,

THE MIDGLEY WIRE BELT CO., Beaver Falls, Pa.

LABOR SAVING TOOLS AND MACHINERY

New Improved Patent Quick Adjustable and Self-Opening Slip Roll Formers, all sizes required. A revolution as to quickness and ease of operations. The mere outward swing of the top roll hinge housing will elevate top roll to remove the formed metal. same is perfectly balanced and is thus opened and closed in one operation, as will more clearly be seen by another cut, this space in another issue. Other Improved Quick Adjustments of merit not mentioned. All sizes, 2-in. to 14-in. Rolls, also Crimping or Corrugating Rolls.

Improved patent general purpose Punch and Stock Shear for bar iron and slitting sheets, &c.



Two levers, (7) sizes, for light or heavy work. Also Lever Stock Shears and Punches made separate, and Power Punches.

Improved Combined Squaring and Slitting Shears, with 12 in., 15 in. or 18 in. throat, to slit wide sheets as may be desired, and of any length. Complete for tin or iron up to No. 16 or 14 gauge with the Patent Lever Attachment for additional power. Provided with drop leaf tables and trimming gauge. Eight different styles up to 10 ft. in length. Also light and heavy Power Shears.

BERTSCH & CO.,
Cambridge City. Ind.

KNOWLES SLOTTING MACHINE.

Built in two sizes, patented and manufactured by the Knowles Loom Works, of Worcester, Mass. The most efficient machine for cutting Slots in Pulleys, Gears, and other parts of machinery ever invented. It is noiseless and rapid in its action, making all slots uniform and absolutely perfect. The piece to be slotted is placed on a Bushing upon a Faceplate, and the **slot cut by a single passage of the cutter** in from ten to twenty seconds. The slots may be made absolutely straight or may be made on any taper required, by a change in the Bushing upon which the work is placed. One great saving of time is effected by the use of this machine from the fact that the work does not have to be fastened to the machine, but is immediately brought to position and held by the Bushing through which the cutter passes.

SEND FOR CIRCULAR.

TWO SPINDLE MILLING MACHINE, No. 220.

Scale, about ⅜ inch to the foot.

As will be noticed, the general arrangement of this machine is like that of a planer, but in the place of ordinary planer tools are substituted vertical spindles for butt milling. The table has a longitudinal travel of 72 inches, and is fed by a screw that may be operated by hand or power in either direction. The table feed has six changes of speed, besides a power "rapid transit" motion to run the table in either direction.

The quick motion is especially intended for running the table back after the cut is finished, and, being entirely independent of the cone feed, both can be in operation at one and the same time.

The cross head is raised and lowered by power, and in addition each spindle has an independent vertical adjustment of 2 inches.

Each saddle is capable of independent lateral motion, operated by the large hand wheel at front, and has also a power attachment for feeding, with four changes of speed. The saddles may be moved independently from the power feed while the latter is in operation. The cross head is made of sufficient length to allow the saddles to be run out far enough to bring the milling cutters outside of the housings.

Weight, about	18,000 lbs.
Length of table as desired, or	78 inches.
Width of table	36 inches.
Width between housings	54 inches.
Least width between centres of spindles	8 inches.
Vertical adjustment of cross head	24 inches.
Floor space over all, F. & B. x R. & L.	5 x 12 ft.
Height over all	9 ft.

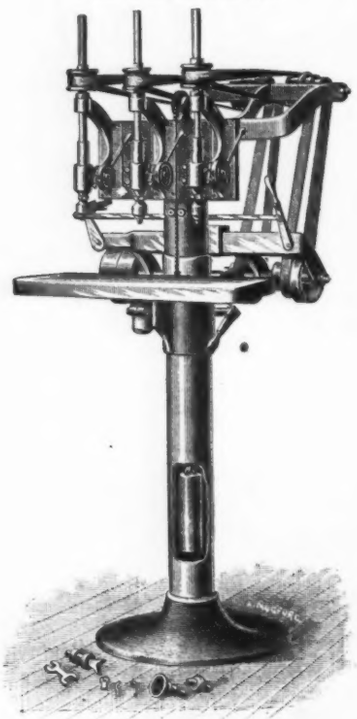
HEAVY UNIVERSAL MILLING MACHINE

This machine is far superior in every way to the ORIGINAL machine, or in fact to any other universal machine built; it not only admits of a greater range of positions, but will do much work that would be impossible on any other machine.

It is designed for BORING, DRILLING, FACING, TURNING, MILLING, PROFILING, KEY-SEATING, SPLINING, RACK CUTTING (any length), GEAR CUTTING with the vertical attachment up to five (5) feet diameter, etc.

All adjustments have Micrometer Dials. Automatic Feeds in all directions. Diameter of main journal, 3½ inches and 6 inches long. Solid self-centering journal bearings always retaining center alignment.



Special Catalogue mailed on application.

New Reversible Jaws. Send for Catalogue.

Brown's Manual of Assaying gold, silver, copper and lead ores. By WALTER LEE BROWN, B. Sc. Third edition. Just out. Thoroughly revised and corrected. This manual is devoted to the assaying of the ores of the four metals mentioned, but principally to those of gold and silver. Every step is clearly defined from the crushing of the rough ore to the weighing of the final particle of gold obtained. 12mo., 488 pages, 94 illustrations, colored plate, flexible covers, price..... $2.50

For Sale by David Williams 66 & 68 Duane St. New York.

Alfred Box & Co.,
Front, Poplar and Canal Sts., Philadelphia
Sole Manufacturers of
BOX'S PAT. DOUBLE SCREW HOISTS.

25,000 supplied in the United States exclusive of foreign trade; a record that tells its own story; a record of solid, substantial growth; extensive new works necessary to keep up with orders in our specialties; ample room now to build the heaviest class of Traveling and Jib Cranes of all sizes, Overhead Railways, Trolleys, Special Hoisting Gear for home-made Cranes; also our Patent Radial Drills and Gang Drills, as used by bridge builders. Estimates furnished with photos. Correspondence solicited, or visit our works.

J. G. SPEIDEL,
READING, PA.,
Patentee and Manufacturer of the celebrated
Economic Safety Hoist.

One man can lift two to three times as fast as with any other self-holding chain hoist Spur gearing in connection with the automatic brake holds the load at any place, reducing friction to a minimum. The hoist has two speeds, is built strong and durable and guaranteed to give satisfaction. Cheaper than any other reliable hoist.

Overhead Tramways and Portable Derricks. Hand Power Elevators.

Special Machinery by the day or contract. Send for price.

The Star Water Tool Grinder

Is the BEST, SIMPLEST and CHEAPEST

Water Grinder made; they have no pumps or valves to wear out and to be replaced, no piping to supply them with water, the water is applied underneath of the wheel, automatically, in a spray, the same as putting it on with a sprinkling can, and which can be regulated as desired; this overcomes flooding the wheel, a trouble so well known in other Water Grinders, where the water is put on in a body or by pumps and running all over the hands of the operators, tool or article to be ground.

ON STAND OR FOR BENCH USE.

STAR MACHINE CO.,

Howard and Huntingdon Sts., Philadelphia, Pa.

Send for Circular and Price-List.

Fluor-Spar.

MULLINS'

Fluor-Spar and Lead Mining Co.,

220 First National Bank Building

CHICAGO, ILL.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays, and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point, and saves fuel; it diminishes the loss of metal, saves labor, and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

SPECIAL NOTICE

TO CONSUMERS OF CHARCOAL IRON.

Wyebrooke Charcoal Pig Iron, strictly cold blast.
Has splendid chilling qualities and great strength.
Furnace now in blast and orders can be filled promptly.

W. M. HABIRSHAW,

159 Front St., New York.

Iron Bridge M'f'r's.

The demand in the South for Iron Bridges and buildings is now very large and growing. A Bridge and Structural Iron Works in the South would have an abundance of orders and pay large dividends from the start, if it was located accessible to coal, on competing lines of R. R., and where material of good quality could be readily secured. Buchanan, Va., presents all of these advantages. It is on two trunk lines of R. R., with two more located; it is in the midst of the great iron and coal fields of the Virginias, and the Central Land Co., of Buchanan not only offers free sites but financial aid from its large cash development fund ($400,000). This is a rare opportunity to a pushing, energetic Bridge Builder. Buchanan also seeks associate industries on similar terms. Address CENTRAL LAND CO. of Buchanan, Buchanan, Va.

FOR SALE.

In West Chelmsford, Mass., all the Real Estate and Machinery formerly owned by the Hiscox File Co.; the real estate consisting of about 7 acres of land, together with the buildings and water power, and the machinery, being such as was used by them in the manufacture of files, machine knives, sword blades and edge tools. There is also on the premises a good 75 horse-power Harris-Corliss engine and good boiler, also a large amount of shafting, belting and supplies. This property is situated about five miles from Lowell, and is very easy of access by railway, with excellent facilities. The entire property will be sold very cheap, either as a whole or in part, and will afford some party an excellent chance to enter into this business. For terms, &c., inquire of

J. W. BENNETT, Lowell, Mass., or
F. G. SARGENT, Graniteville, Mass.

FOR SALE.

A Corliss Upright Steam Engine, 40 in. cylinder, 42 in. stroke, with 40 ton fly wheel, made by Corliss. Also a train of 24 in. Rolls for rolling Steel Plate 16 in. down to 16 gauge; the housings are heavy enough for a three high 30 in. train; they were made for a 30 in. Blooming train; both engine and train are in first-rate condition, and can be seen at the Old Norway Steel and Iron Works, South Boston; any communication addressed to THOS. GOGIN, 61 Thomas Park, South Boston, will have prompt attention.

FOR SALE. BLOWING ENGINE.

Vertical pattern, with balanced steam slide, valve gear, steam cylinder 14 in. diameter, air cylinder 40 in. diameter, stroke 24 in.; engine new. For price and particulars address

JAMES LEFFEL & CO.,

Springfield, Ohio.

For Sale or Lease.

A Rolling Mill in the city of Chicago, well equipped and located for city trade. Capacity of about 100 tons of bar iron per day. It has one 10 in. and one 18 in. train, also one 18 in. muck train. Owners will take all or part of pay in bar iron. For particulars address

"ROLLING MILL,"

office of *The Iron Age*, 59 Dearborn St., Chicago.

For Sale.

50 tons of new castings of Ford Hot Blast Pipe Stoves; can be seen at our works; will sell at 1 cent per lb.; cost 2½ cents.

BUFFALO STEAM FORGE, Buffalo, N. Y.

FOR SALE.

An old-established Wholesale General Hardware Business, located at Burlington, Iowa. Has the advantages of both rail and water communications, and one of the best distributing points on the Upper Mississippi River; good trade already established and am to-day doing a good business; stock on hand about $70,000; have five salesmen on the road, do business in Western Illinois, Northern Missouri, Eastern Nebraska, Southern Dakota and Minnesota and a large portion of Iowa.

The largest portion of my trade comes from Iowa. The territory can be extended and trade increased if desired. This is a rare opportunity for any one wishing to step into a good business already thoroughly established. Reason for wishing to sell out—poor health. For any information desired pertaining to the business and location, I would refer you to Ross & Fuller, 33 Chambers St., N. Y.; Clement M. Biddle & Co., Philadelphia; the National State Bank of Burlington, Iowa, or the undersigned

LYMAN H. DRAKE.

SOUTHERN CALIFORNIA.

CLIMATIC PARADISE OF THE U. S.

No Snow. No Cyclone.

A Store For Sale.

Good will and stock of about $4,000 in Hardware' Crockery and House Furnishing goods. Price of the two-story brick building (21 x 48 feet), garden and yard (together 12,131 square feet) $7,000. The city of Anaheim (population 1,500), the oldest settlement of Southern California, is surrounded by an extensive farming country, has the finest drinking water and has for healthfulness no rival on the coast. It is situated about 26 miles southeast of Los Angeles and 14 miles from the Pacific Ocean. The store lies between the Southern Pacific and Santa Fé Railroad depots. Address: Charles Pamperl, Anaheim, Orange County, California.

FOR SALE.

Rare Opportunity.

Best Hardware business in a thriving Ohio city of 20,000 inhabitants; stock. $25,000 to $30,000; annual sales, $80,000 to $90,000, with good profits; no hand stock; open until Jan. 1, 1891.

Address "BEST,"

office of *The Iron Age*, 66 and 68 Duane St., N.Y.

FOR SALE AT ST. PAUL.

The well-known Hardware Business of B. F. Knauft & Co., doing a General and Builders' Hardware, Furnace, Stove, Tin and House-furnishing Hardware business; established in present location in 1872; has the confidence of the people and enjoys a large trade. We own the building we occupy and can give favorable lease; good reason for selling. Splendid opportunity for parties with push and ability. Address

B. F. KNAUFT,
338 and 342 E. 7th St., St. Paul, Minn.

ESTABLISHED BUSINESS.

A clean stock of hardware, factory supplies, housefurnishing goods, stoves and tinware, located in a growing city of 16,000 inhabitants near New York, doing a business of $30,000 annually; business could be increased; would sell stock at market prices; good reasons for selling. Address

"CHARLES,"

office of *The Iron Age*, 66 and 68 Duane St., N. Y

TO MANUFACTURERS.

Long experience makes it quite possible for me to find "out-of-the-way" markets for any line that manufacturers prefer to sell at reduced prices rather than create friction with their regular customers, viz.: seconds, off sizes, overstocks, old styles, etc. Send memorandum with quantities and lowest cash figures.

W. M. CALDWELL, agent for the sale of special lots, 75 Chambers St., New York.

RESPONSIBLE situation as head draftsman, superintendent or assistant. First class service for first-class pay. Address "W. T.," office of *The Iron Age*, 66 and 68 Duane St., N. Y.

LIGHT YOUR DARK SHOPS CHEAPLY.

Give your men plenty of Light and they will do double work.

The Wall Torch has been used for several years as a means of illumination in **Mills, Foundries, Machine and Car Shops, Tunnels, Street Stands, Band Stands, Smith Shops,** etc.

While there are many cheap, inferior torches made which injure the sale of a good article, and condemn the **Torch** in general, our "Incandescent" Wall Torches are recognized as the best, and are now in use in the largest manufacturing establishments in the country giving **PERFECT SATISFACTION**, as is evidenced by the **DUPLICATE ORDERS** we receive from year to year.

They burn 150° Coal Oil, or 74° Naphtha, requiring a different burner for each.

In ordering be careful to state which is desired.

Price, for Single Torch, complete, $2 each.

SPECIAL PRICE QUOTED FOR QUANTITIES.

THE BRYAN PLOW CO.,

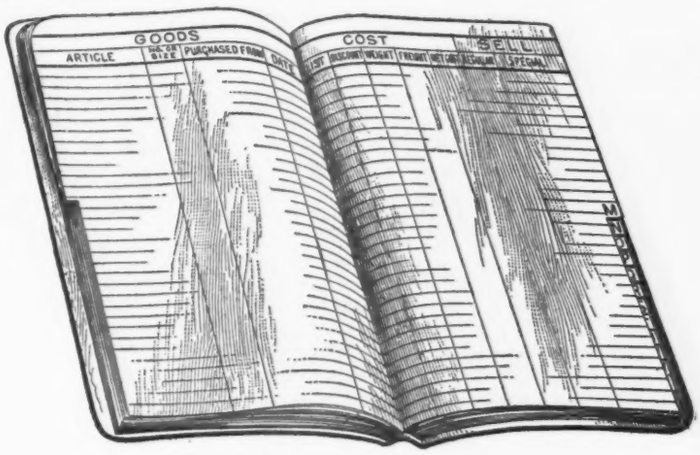
BRYAN, OHIO.

—THE IRON AGE—

HARDWARE PRICE BOOKS.

Arranged by R. R. WILLIAMS, Hardware Editor of The Iron Age.

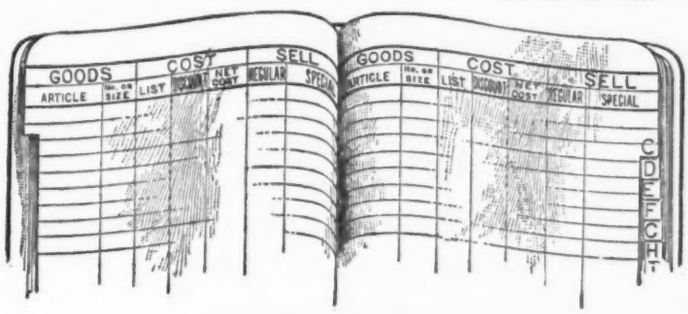
THESE BOOKS are printed on paper of superior quality and bound in grain seal leather. They are all, as indicated in the cuts, indexed through, care being taken to give each letter the proper amount of space for the accommodation of Hardware articles.



BOOK A.

Columns are provided for the name and number or size, for noting from whom purchased, date of quotation or purchase, list and discount, and for entering freight expenses as an element of cost. Under the heading of selling prices, the regular and any special price or remarks in regard to the goods are given place. This book goes into considerable detail in describing the goods and cost prices. It has been arranged in accordance with the views of many Hardwaremen whose methods are careful and exact.

Size, 4 x 7 in.; grain seal leather.



FOUR EDITIONS:

A, 200 pages,	$1.00
A F, 200 pages with flap,	1.25
A 2, 400 pages,	1.50
A F 2, 400 pages with flap,	1.75

Hardware Price Book A.

BOOK B.

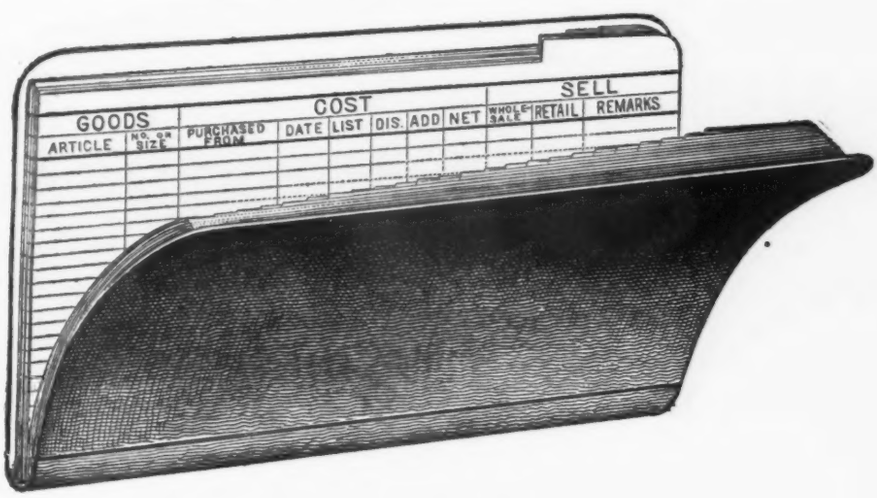
Hardware Price Book B.

In this book each page is complete, and the record of prices does not, as in Book A, run across two pages. Thus it accommodates a larger range of goods with much less detail in the record. It is adapted for office or store use, and by the use of familiar abbreviations sufficiently large for the convenient and concise record of prices.

Size, 4 x 7 in.; grain seal leather.

FOUR EDITIONS:

B, 200 pages,	$1.00
B F, 200 pages with flap,	1.25
B 2, 400 pages,	1.50
B F 2, 400 pages with flap,	1.75



BOOK C.

The headings in book C run across the top, in a line parallel with the hinge. In this way a very complete record can be kept on a single page. The details of weight and freight contained in book A are omitted, and a single column headed "Add" given for the insertion of freight or other expenses which it is desirable to include in the cost. Under the selling prices space is left for the wholesale price, the retail price and also for any remarks in regard to cost of the goods, desirability of pushing them or other matters.

Size, 4½ x 7¾ in.; grain seal leather.

FOUR EDITIONS.

C, 200 pages,	$1.00
C F, 200 pages with flap,	1.25
C 2, 400 pages,	1.50
C F 2, 400 pages with flap,	1.75

Hardware Price Book C.

Sent, post-paid, on receipt of price by DAVID WILLIAMS, Publisher, 66 and 68 Duane St., New York, from whom any book published in this country or abroad may be obtained without extra charge. Catalogues of scientific, technical and useful books sent on application.

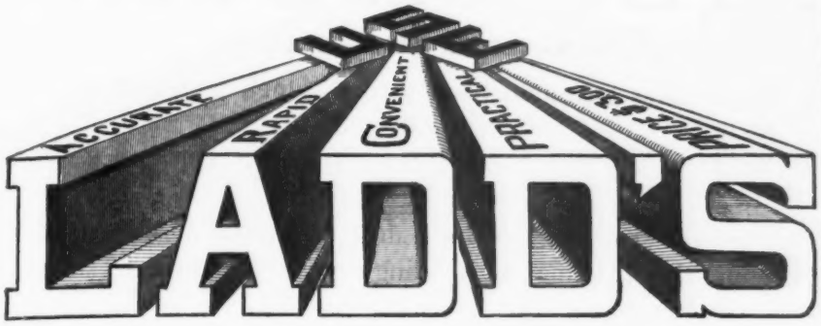
FIBRE HEAD MALLETS

PATENTED JANUARY 18, 1887.



Wood Body and Handle, thoroughly Kiln-dried. Malleable Bands. Heads easily replaced.

The heads of our Mallets and Chisel Handles are tipped with a layer of Vulcanized Fibre This is a Vegetable Compound, which by means of chemical processes and being subjected to a pressure of 200 tons is changed to a solid. It is tough, elastic and practically indestructible.

We claim that a mallet or handle reinforced with this material will outwear ten ordinary ones.

E. C. Stearns & Co., Syracuse, N. Y.

LADD'S

DISCOUNT BOOK.

COMPRISING

Nearly 200 pages of carefully prepared and positively accurate Tables.

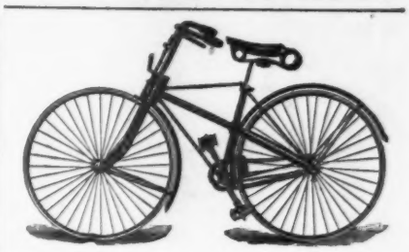
THESE pages contain about one hundred and twenty thousand computations, giving at a glance the net of any sum whatever, at all discounts from 1 per cent. to 95, together with a great range of combinations.

The purpose of the book is to save computing percentage in its various forms and to give results that can be depended upon without proving, thereby avoiding much brain work and the mental strain attending hastily worked computations, which have to be proved, and saving time, money and patience. The book is nicely printed and handsomely bound, and is meant for every-day use.

It covers the whole range of discounts, both simple and complex, and is therefore almost indispensable, not only to the Hardware Trade, but to

EVERY BUSINESS IN WHICH PERCENTAGE IS USED.

It will be found complete and prove its value for finding the net costs of goods, making list prices, making discounts, comparing prices, adding profit, &c.—there is no limit to its application. A few days' use by Buyer, Price Clerk, Manufacturer, or any one who has to make prices or figure discounts, will verify the claim that the book is accurate, rapid, convenient and practical.



PRICE, $3.00; DOUBLE INDEXED EDITION, $4.00.

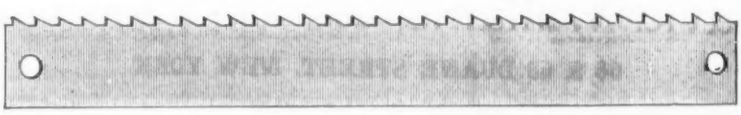
ANY HARDWARE DEALER

in any place can have all the trade in



BUTCHER SAW BLADES

if he will take the trouble to show the Star Blades to the Butchers and permit them to try their quality. There is not a single place where these Blades have been used that they have not taken and held the market. They can be sold for **10 Cents** each, and that is less than the cost of filing a common saw. They are so hard that one will cut three or four times as long as the saws now in use without filing. As these Saws are not to be filed, and as one only lasts a few months before getting dull, a great many of them are wanted. They are listed on the 50th page of our new Catalogue, which we will send on demand.

MILLERS FALLS CO., 93 Reade St., New York.

CRANE COMPANY, - - Kansas City, Mo.

Purifies by Aeration.

BUCKET PUMP AND PURIFIER

For Wells and Cisterns of any Depth.

Warranted to Purify a Foul Well or Cistern in Ten Days' Use or Money Refunded.

It will draw ten gallons of water per minute.
Never has to be packed, primed or thawed out.
A ten-year old boy can draw water with ease from a 40-ft. well.
No iron tubing to rust or burst. No suckers or valves to wear out.
It has no wooden tubing to wear out, decay or pollute the water.
It will not rust or corrode, as the chain is made of galvanized iron.
It is the simplest and most durable structure made for raising water.
It can be set up in 15 minutes, as there is nothing to fasten below the platform.
It will not freeze, having stood the test of a Dakota winter, 38 degrees below zero, as the buckets discharge themselves.
Has no leather, rubber or wood in contact with the water to contaminate it.
You do not have to pump out a pailful of water to get a fresh, cool drink for every bucket goes down full of air to the bottom and fills with cold water as the air escapes.

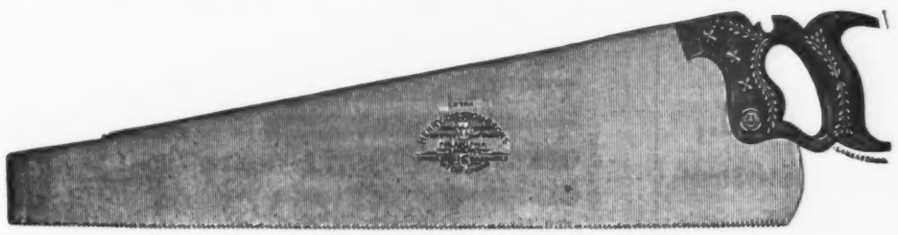
"If you want a Saw it is best to get one with a name on it which has a reputation.
A man who has made a reputation for his goods knows its value as well as its cost and will maintain it."—HENRY DISSTON.

THE SAWS THAT LEAD THEM ALL

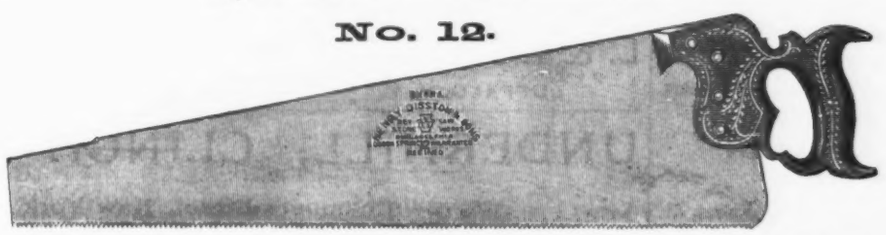
"THE SAW;" HOW TO CHOOSE IT, AND HOW TO KEEP IN ORDER, Sent Free on Receipt of Name and Post Office Address.



DISSTON & SONS' PATENT D-8 HAND SAW.

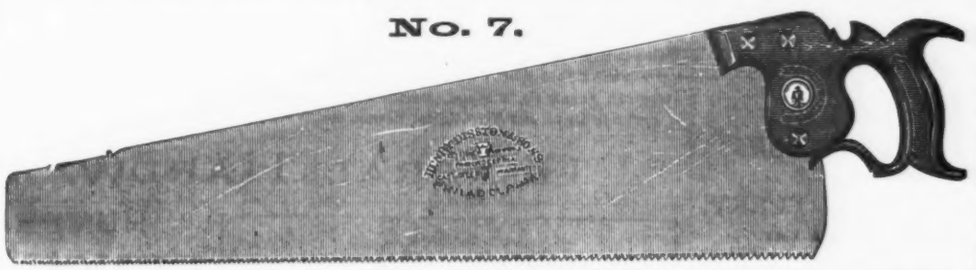
This Saw combines all the valuable improvements in Hand-saws that have been made by us of late. The first and most important is the hollow or skew-back, the success of which can best be attested by the number sold. The peculiar shape of the butt or heel, coupled with the new method of fastening to the handle, give a full stroke of the blade without fear of catching or hooking in the work; and as the handle is put further on the blade you have a full stop on the proper point and a greater command over your Saw, by reason of being two inches nearer the point, which must give more power.

The Saw being let into the handle on a circle, has a perfect bearing, which, with the new screws, makes it stronger and almost impossible to work loose, and avoids the unsightly gap that is seen on the back of the old style handle. All the above features are patented.



Our New No. 16 Premium Saw.

AN EXTRA FINE SAW IN EVERY RESPECT.



Having the Latest Close up Handle, Spring Steel Blade, Extra Thin Back, Finely Grained, with an Apple Handle and Four Brass Centennial Screws.

No. 12.

DISSTON & SONS' Extra Refined London Spring Steel, Selected and highly Polished Blade, Handle Carved and Polished, 4 Improved Brass Screws, the finest Hand Saw manufactured.

No. 7.

DISSTON & SONS' Cast-Steel, Warranted, Beech Handle, Polished Edge, 4 Improved Screws, Grained Blade.

"POCKET EDITION OF THE SAWYER" and "LUMBERMAN'S HAND BOOK," Sent Free on Receipt of Name and Post Office Address.

ONE OF OUR LEADERS.

ORDER A SAMPLE DOZEN.

AN ELEGANT HOLIDAY PRESENT.

The above illustrates one set of **PLATED KNIVES** and **FORKS**, ½ Doz. each, **PACKED IN FANCY CARVED HARDWOOD BOX. NO EXTRA CHARGE FOR BOX.**

These knives are made in one piece from finest crucible steel, well forged and evenly tempered by the latest improved process, and specially ground and polished for silver plating. Twelve (12 DWT.) pennyweight of pure silver is used in plating each dozen, and every part of each knife is hand burnished by experienced workmen, rendering plating hard and durable. Our sales of these Silver Plated Knives and Forks during the past year, and the growing demand for them, are assurances that their worth is known; a TRIAL will convince you that we have not overrated them.

Take advantage of our low prices and send us your orders early, on account of the

STEADILY INCREASING COST OF SILVER.

We also manufacture a large assortment of other goods, consisting of a full line of TABLE CUTLERY, BUTCHER KNIVES, CARVERS, BREAD KNIVES, KITCHEN KNIVES, SHOE KNIVES, BONNING KNIVES, HUNTING KNIVES, PUTTY and CIGAR KNIVES, STICKING and SKINNING KNIVES, BUTTER AND CHEESE KNIVES and BUTCHERS' STEELS.

Our line of extra fine Table Cutlery with Fancy Handles of PEARL, IVORY, EBONY, WALRUS, COCOBOLA, RUBBER, CELLULOID and BONE, are unexcelled. They are finished in the latest patterns, best workmanship and guaranteed extra quality steel.

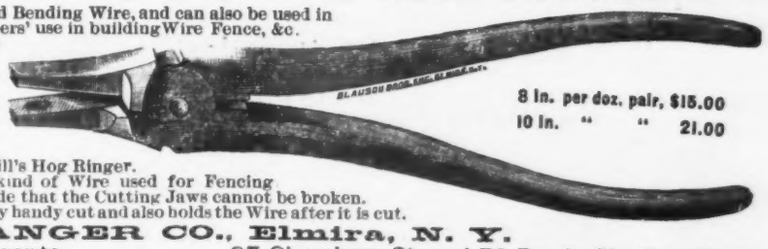
JOHN H. CLAY, Manufacturer,

1320 Ridge Avenue, Philadelphia.

Mills and Cities Fitted up with Fire Service.

Cronk's Patent Wire Cutter and Bender.

This surpasses any Plier in the market for Cutting and Bending Wire, and can also be used in place of Hill's Hog Ringer. Is specially adapted to farmers' use in building Wire Fence, &c.



Our reasons for claiming that we have the best Pliers in the market are:

FIRST.—We use the best Tool Steel and they are nicely finished.

SECOND.—We combine both Flat and Round-Nosed Pliers in one, the concave and convex circles between the handles are used for bending wire in any desired shape.

THIRD.—The cupping in the Nose is used for pulling tacks, brads or nails, and can also be used in place of Hill's Hog Ringer.

FOURTH.—We can cut Barb Wire, Barb Belt or any kind of Wire used for Fencing purposes. We also claim that we have the only Plier made that the Cutting Jaws cannot be broken. By passing the Wire through the Pliers it makes a very handy cut and also holds the Wire after it is cut.

The Le Page Company's Improved Process Liquid Fish Glues.

Be sure the vignette and signature of WM. N. LE PAGE are on every package.

WM. N. LE PAGE is the original inventor of Preserved Liquid Fish Glue, and of the New and Improved Process by which this glue is manufactured, producing the finest, clearest and strongest glue in use.

Our new cans, with patent cap and fastening, have important advantages.

For the convenience of dealers in exhibiting and selling our Improved Process Glues, we have prepared WIRE STANDS of neat design, for use on the counters or in the show window. See illustrated price lists.

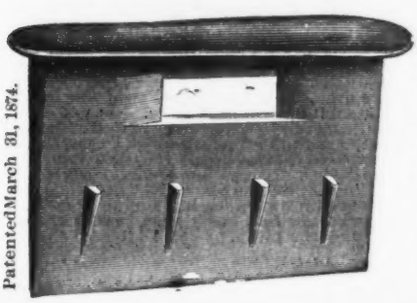
ARCTIC ICE DOGS.

These Ice Dogs or Creepers, designed to secure safe-footing on slippery pavements, are the simplest and best ever invented. They consist of a very light, malleable casting of the best quality of iron, fitted for the sole of the shoe and fastened to the foot by means of a toe-strap and an endless elastic band drawn high over the heel, thus holding the dog to its place, and being easy of adjustment, is very quickly put on or taken off.



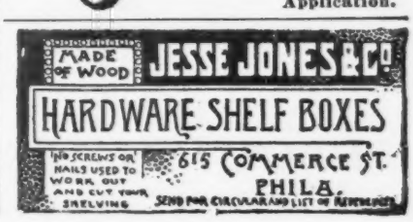
There are two sizes, for ladies and gentlemen respectively, and the peculiar adjustment attaches them equally well to boots, shoes or rubbers, without difficulty or delay.

Retail at **50c.** per pair. Liberal discount to dealers.

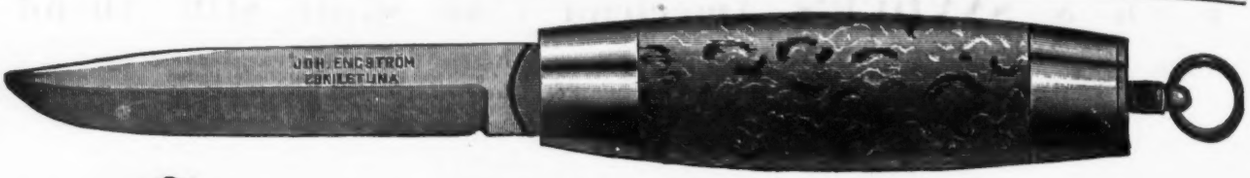
PATENTED AND SOLD BY

GEORGE A. WALLER,

SENECA FALLS, N. Y.



Patented March 30, 1874.



BEWARE.

Several styles of axe wedges have been put on the market the past year or two, all of which, so far as I know, are infringements of my patent. *All parties are hereby warned* against selling or using such wedges. One suit has been settled in my favor, another settled without suit, and other parties will be called to account soon. I still manufacture and sell the above, which has more practical merit than any other thus far made.

The Leonard Patent Portable Storm Houses.

A long-felt Want Supplied. Comfort and Economy Assured.

The sides and roof are constructed of Corrugated Iron set in a frame of Michigan Pine. The front is a good five panel sash door set in a frame of 2 x 4 pine. The upper panel is set with glass. The whole is neatly painted—two coats and two colors. Has a good latch with porcelain knob, and door spring. It is **Ornamental, Light, Strong, Cheap and Durable.** Anybody can set it up or take it down. Not necessary to have a carpenter. Storm Doors can be taken away in case of removal. The sides of the house are hinged to the front and fold inwards. The gables are hinged to the roof and fold inwards. The whole structure is only six inches thick when folded. To set it up, hook the edges to the door frame and adjust the roof to the top of the door frame. A notch may be sawed in the bottom rail for a projecting step or threshold if necessary. They save their cost in fuel every year, besides the comfort they give. Exclusive agencies given.

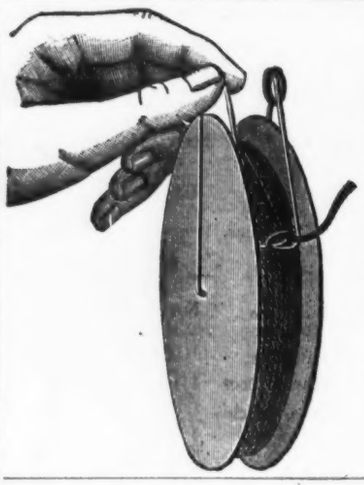
"RIVAL"

PATENT

Lawn Sprinkler.

Cheapest and Best in Use.



The Spray from it covers upwards of 1000 *sq. feet of lawn.* It is the only patent adjustable Sprinkler which is adaptable to any water pressure. Being made of brass, and having no revolving parts to wear out, or small openings to clog up, it can be operated with sandy or muddy water as well as clear, and will last for years. To operate, screw Sprinkler on end of hose, stick the rod in to the ground in a vertical position, adjust the acorn to suit pressure and spray wanted and it is ready for use. It may be so regulated as to throw a spray *as coarse as rain or as fine as mist*, and will make one of the most beautiful fountains imaginable. It is unequaled in merit, requires no attention and is sold at a less price than any sprinkler in the market. Remember, the RIVAL is the only Sprinkler made by which the coarseness of the spray and the area to be wet can be regulated. They are packed 1 doz. in a box and finished either plain or nickel plated.

FULL SIZE.

¼ Inch Regular Hydrant Thread, (or Pipe Thread to order) per doz $7.50

ELECTRICITY OUTWITTED BY THE "EUREKA" AND "VENI VIDI VICI" DOOR BELLS.

Busby's Latest and New Improved Push Button Bell.

The Cheapest, Handsomest and most Thorough Made Bell on the Market.

Nos. 10 and 11.

They have *negative movements*, that is, are required to be *wound up*. There is *no defacing them when winding them*, as the *only part* that is *touched* is the *arbor key* on *end of winding arbor*. They have *merits never before brought forth in a mechanical push button bell*, viz. : *Full power* is given over *all "lost motion"* or *"back slack"* by an adjustable push rod. All *master craftsmen* will appreciate this, as they are aware *lost motion* will occur unless there is a way to *obviate it*. There is *no dropping out of push rod or losing push button* when the bell hanger or carpenter is *putting them up*, as *each is secured by a thread cut at each end of push rod*. There are *no spiral springs* about them, no *twisting off thread* on *end of arbor* or breaking of *springs*. They have *no wire "pinion" geers to come apart*. All our *"pinion" geers* are *solid steel*. There is *no straightening* of *Push Rods*, saving *valuable time* to *Carpenter* and *Bell Hanger*.

Our Nos. **1, 2, 10** and **11 Bells** are **Negative Bells**, *i. e.*, they **have to be wound up.** They **can be used on the door,** on the **side** of **the casing** of **the door, over the door** or **in the distance,** but we **advise** the **public not to be deceived** in the **use of a Negative Bell** for **heigth** or **distance,** *i. e.*, a **bell** that **that has to be wound up,** for our experience of many years (as we are no juveniles) in the bell business has **taught us** that a **bell** that **winds up** is **only fit for local use,** for if **put out** of **reach** and **stools** or **step-ladders are used** in **order** to **get at them** to **wind them up** when **run down,** and **they are apt to be so when most needed, they become a nuisance rather than a comfort or pleasure.** The **only bells** of **our make we would recommend** for **distance** are **our perpetual or positive movement bells,** which are Nos **5, 6 and 8.** These **never require any attention after once properly hung** and **can be used any distance.** There is **no winding to them.** They are the only reliable positive movement spring bells on the market; they have no double back action or spiral springs about them and never miss an alarm.

We believe in **dealing** in **facts with the trade** rather than putting **trash goods** on the **market** and **impose on the public** for the **sole purpose** of **gain** rather than **presenting merits** and **first-class goods.**

Our **aim** will **always be** to **give the best that skilled craftsmen can bring forth.**

Before getting **LOADED** with **Table Bells** wait until you have seen the **latest** and **best,** one **that gives** the **"electric" sound** and **does not have to be wound up.** There is **no tarnishing them** or the **nuisance** of **having** to **wind them,** as they are **positive** or **perpetual motion bells.**

Our U. S. Patents date Nov. 2, '86, April 12, '87, March 12, '89. Trade-Mark granted Oct. 19, '86. Foreign Patents Sep. 21, '86, Dec. 6, '86. July 18, '87. All of our Patents are of our own brains and Production not BOUGHT ONES or WARMED OVER "CHESTNUTS."

Western Depot:

HIBBARD, SPENCER, BARTLETT & CO.

CHICAGO, ILL.

"WHAT ARE THEY?"

They are door or Call Bells that give the same result as the Electric Bells without the use of a battery, magnet or air, avoiding all filling freezing or breaking of jars.

"HOW IS IT ACCOMPLISHED?"

Simply by a mechanical device the nearest to *perpetual motion* that has ever been found to be *practical*.

"ARE THEY DURABLE?"

They will outwear all other bells on the market, owing to their construction; they are *simple, solid, practical* and made of the *best material* and in the *best workman-like manner*. We make *no "trash goods."* They are the work of *master craftsmen*. *All our goods are warranted. Any imperfection will be made good at our expense.*

"WHAT IS THEIR COMMERCIAL VALUE?"

They cost no more than any first-class bell, and when once placed in position *that ends all expense, care or trouble*, and are not affected by heat, cold, dust or moisture.

"CAN THEY BE PUT UP ANYWHERE?"

Yes, and in any position or place, and will work with *any pull or lever. Old door pulls or levers work as well as new ones.* Old trimmings can be used without making any extra expense or defacing your doors or house in any manner. They are made in sizes from 2¼ inches and upwards to meet all demands of the trade. *They are the handsomest bells on the market.*

To comply with the wants of the trade we classify our bells as follows:

No. 1 Bell has a *negative movement* and *has to be wound up*. It has a brass bell and japan base, and can be used on the door or over it the same as No. 3 and 4 Bells are used.

No. 2 Bell has a *negative movement* same as No. 1, except it has a nickel bell and base. Used the same as No. 3 and 4.

Nos. 3 and 4 Bells are positive or perpetual movements and require no attention after placed in position. They work on centre of door with any manufacturers' Levers, old or new, and over the door with any manufacturers' Pulls, old or new.

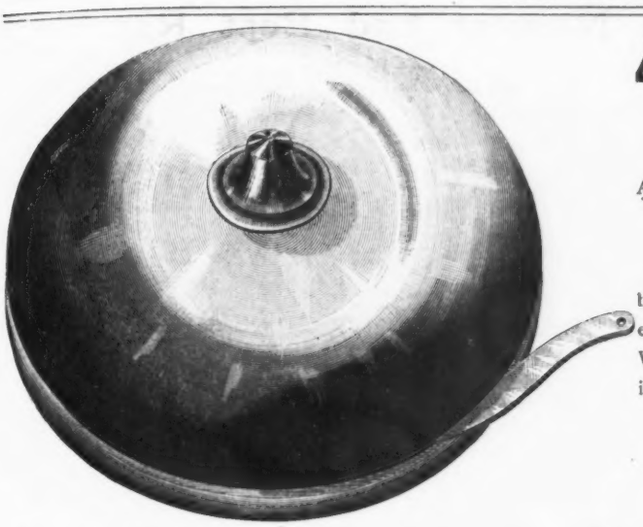
No. 5 Bell has a *positive movement* and is for a **long or short range, no limit to distance.** This bell is brass, with japan base.

No. 6 Bell has a *positive movement* like No. 5, except it has a nickel bell and base, long or short range.

No. 7 Bell has a *positive movment* finished only in nickel and used for *hospitals and sick rooms*.

No. 8 Bell has a *positive movement*, is six inch, finished in brass. This is used for elevators mines, toboggans, double-runner sleds, &c.

No. 9 Bell is a ten inch bell, used for fire alarm in hotels, or on fire apparatus of all kinds, cable or motor cars and school houses. Made only to order.



No. 10 is a *Push Bell*, japan base, brass bell and *negative movement—i. e.*, has to be wound up.

No 11 is a *Push Bell*, has a japan base, nickel bell, and a *negative movement—i. e., has to be wound up.*

No. 12 is a Bicycle Bell, finished only in nickel. The best Bicycle Bell ever put on the market. It has a *positive or perpetual movement.*

"EUREKA" DOOR BELL COMPANY,

86 BEVERLY ST., BOSTON, MASS.

4-INCH DISTANCE BELL.

Operated by a Push Button.

About **400** ordinary Electric Rings for each Winding,

Without the Aid of a Battery.

Can be placed in any part of the house. Easily adjusted by any one who will follow directions printed on the bottom of each box. Button Case, necessary Cranks and 75 feet of Brass Wire included, making each bell complete and nicely packed in suitable boxes.

No. 200, Nickel Gong, $40.00 per doz.

(Discount to the Trade.)

Our New Departure Call Bells,

Giving 250 electric rings with each winding. No battery required. Winding is easily and quickly done, by simply turning the gong. Depressing the button on top of the gong causes the bell to ring in the same manner as the electric.

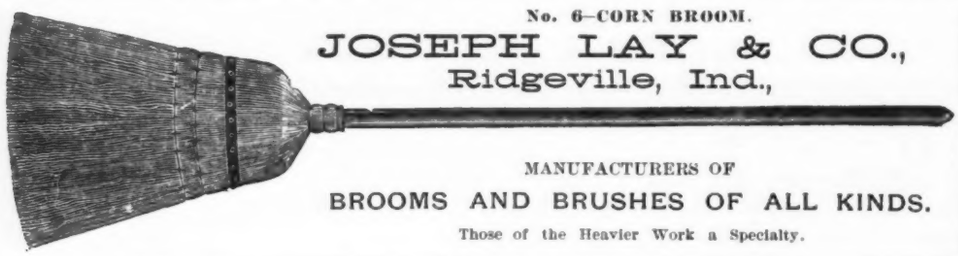
Coffee Mills, Specialties, &c., &c.

GREENFIELD, OHIO.



"IN THIS THE AGE"

of improvement the woman that sticks to the antiquated device shown in the engraving in her kitchen is apt to have more than her share of trouble with the baking. As is indicated in the cut, the flour passes right through in lumps, as it must with any device of that kind. She is not getting the results she should were she using a "Hunter's Sifter." Any dealer that will show the difference between sifting flour in a common sieve and a "Hunter's Sifter" to his lady customers will not regret the time spent in so doing.

THE DANDY TRAP.

It has a greater record for catching than any other trap ever put on the market. The toothed base gives it better holding qualities. Springs easily reinforced. Animal dumped without touching with the hands. The best seller out.

IT IS A PLATFORM TRAP.

The Animal does not have to pull a bait to be caught.

If pan is touched the Trap is sprung. When placed across runways the animal cannot pass without being caught. Bait with cornmeal on platform. Address

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a guarantee that they cannot break, bend or warp. An important feature also is that they are made without rivets, and cannot leak or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

THE GIANT PAD LOCK.

Centennial Award. "Superior in Every Respect.

This is one of the best selling locks in the market, and affords the dealer a large profit. It is thoroughly and strongly made—of the best material—very handsome in appearance, and every Lock is warranted. Orders solicited.

THE GIANT METAL SASH CHAIN

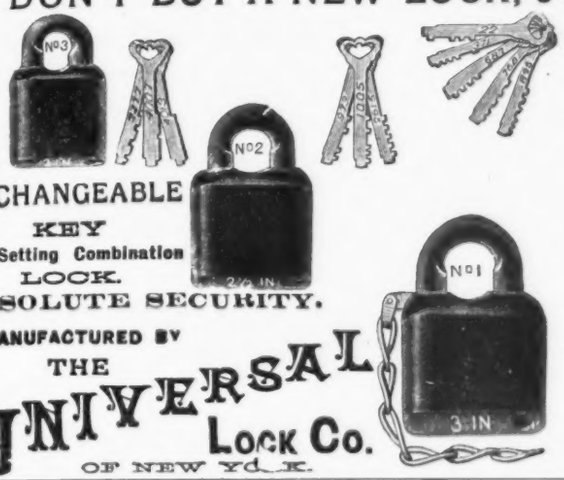
is a substitute for cord in hanging weights to windows. It is manufactured by us only, and by automatic machinery, patented and owned exclusively by ourselves, and whereby we secure uniformity of construction and quality. We have been to great expense in producing a metal having all the qualities and conditions requisite for making suitable chain for this purpose, and to prevent other chain of the same pattern of link and of the same general appearance, but made from an inferior metal, being offered as the same thing, we patented the word "Giant" as a Trade-Mark, as applied to either metal or chain. Trade-Mark Registered April 16, 1878, and October 22, 1878, and our metal is therefore known in the market as "Giant Metal," and our chain as "Giant Metal Sash Chain."

LANE'S PATENT NOISELESS STEEL

PARLOR DOOR HANGER.

This Hanger is made of Steel.
The Wheel is also Steel, except the filling or tread.
The Track is of Steel.
The Hanger is Anti-Friction.
More nearly Noiseless than any other.
Ease of adjustment.

Can be erected with half the labor others require.
Track will not swell, shrink or warp out of true.
No cutting of doors.
No matching of hardware.
Simplicity in all its parts.
Durability.



Price per set for Double Doors, including 14 feet of Track, Gravity Stops and Floor Guides, $6.00.

Manufactured by

LANE BROS., Poughkeepsie, N. Y.

JOHN H. GRAHAM & CO., General Agents, 113 Chambers St., New York.

DON'T BUY A NEW LOCK, JUST BUY A DIFFERENT KEY.

A CHANGEABLE KEY
Self-Setting Combination LOCK.
ABSOLUTE SECURITY.

MANUFACTURED BY THE UNIVERSAL Lock Co. OF NEW YORK.

This lock differs from all others in the fact that it will set itself to any one of 4013 different keys with which the user may choose to lock it. Only the key used in locking will unlock it.

The advantage will naturally become apparent when for any reason whatever the user wishes to change the means of securing his premises, he need only buy a new key. Obviously as many different locks for securing the premises will be available as there are keys in the possession of the holder.

PRICE LIST.

No. 1 (with Chain)	per dozen,	$24.00
" 1	"	21.00
" 2	"	18.00
" 3	"	15.00

Extra Keys, 10 cents each.

NOTE.—Keys numbered from 1 to 4013 inclusively.

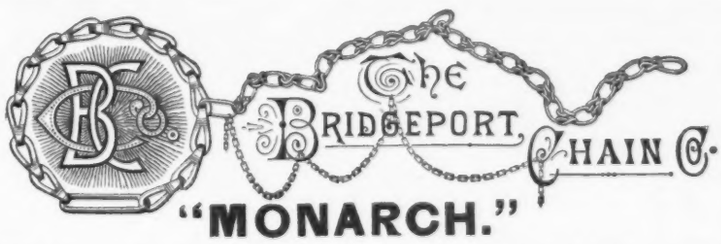
OSBORNE'S PATENT

MEAT JUICE PRESSES

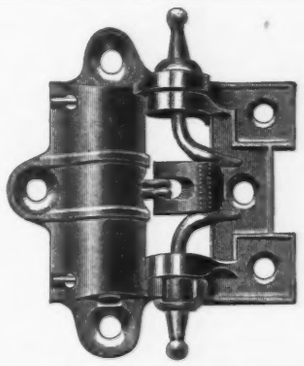


PRICES:

No. 1, $1.25. No. 2, $1.75. No. 2, with clamp, $2.00. No. 3, $3.50.
No. 4, $5.00. No. 5, $10.00.

DISCOUNT TO THE TRADE.

Manufactured by **H. F. OSBORNE,** Newark, N. J.



These presses are designed to extract the juice from freshly **Broiled Steak.** The yield should be about six ounces from one pound of round steak, costing from six to twelve cents. It has been found that **Beef Tea,** however made, contains no nourishment. The albumen coagulates at so low a temperature, nearly 100° below the boiling point, that it is unsafe to warm the expressed juice above the temperature of the body. Tepid water may be added, but avoid **Hot Water.** Ask your physician about it.

Send for Circular and Prices. Mention THE IRON AGE.

THE "SPRING" CURRY COMB.

PATENTED IN U. S, JULY 16, 1889

Foreign Patents in

Germany, France, Belgium, Great Britain and Canada, Austria, Italy India, Australia.

A Comb that combines the strength of metal with the elasticity of a brush.

The flexibility of the loops makes this comb a wonderful device.

A FEW POINTS

"**It is as soft as a brush,**" because the loops *give* and enable the combing surface to get down into the hollows and slip over the elevations, to the great comfort of the animal and the great convenience of the hostler.

"**It is a perfect self-cleaner,**" and "**The best shedder known,**" because it is a spring, and the vibration of the coils readily frees them from all dirt and hair.

"**It cleans a horse quicker and better than other combs,**" because it has three hundred and twenty teeth which do not *track*, and because it "does not grate harshly over the surface," but accommodates itself to any and all parts of a horse, from his ears to his heels.

"**It is a very strong and well made comb,**" since the coil is made of very tough spring steel, and the shank is cast malleable and *all parts are riveted together*.

"**Its teeth do not bend out of shape**" from rough usage, because of its circular form, and because it is elastic.

"**The back is an excellent sweat scraper.**" The reasons are apparent.

The above Claims are endorsed by experts and the trade and guaranteed by the manufacturers.

A MAN OF SAMPLES.

Something About the Men he Met "On The Road."

BY WM. H. MAHER.

Should be read by every business man in the country.

It is a book full of keen points about business men and business methods, from the pen of a successful merchant who has not only been "on the road" but has been book-keeper, buyer and head of a house doing a large trade.

The merchant who stays at home can see how men work on the road.

The book-keeper can learn how his letters and drafts are looked upon by the men he writes to.

The stock clerk can get points about shipping goods and filling orders.

Those who advertise can learn from one of the best advertisers in the United States.

Actual names of men and houses are given, but not a line in the book has been paid for in any way.

If men were complimented, it was because the author felt that they deserved it, and others are condemned fearlessly.

Sent, postpaid, on receipt of the price, 75 cents, by

DAVID WILLIAMS, Bookseller and Publisher, - 66 and 68 Duane St., New York.

BUFFALO SCALE CO., Buffalo, N. Y., Headquarters for **RAILROAD TRACK SCALES and all other Scales.**

Bemis & Call Hardware & Tool Co

PATENT COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PATENT PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

For Circulars and Price List, address

This Wrench can be Furnished with Long Nut or Sleeve.

Valentine, M. D. & Bro., Woodbridge.

Fire Extinguishers.
Black Cloud Chemical Fire Extinguisher Co., Cleveland, O.
Worcester Fire Pail Co., Worcester, Mass.

Fire Sets.
Troy Nickel Works, Troy, N. Y.

Fishing Tackle.
Dame, Stoddard & Kendall, Boston, Mass.
Hendryx, Andrew B. & Co., New Haven, Conn.

Flour Sifters.
Meyers, F. J. Mfg. Co., Covington, Ky.

Fluor-Spar.
Mullins' Fluor-Spar Lead Mining Co., Chicago, Ill,

(See Alphabetical Index, Page 118.)

Fodder Cutters.
Silver Mfg. Co., Salem, O.
Wayne Works, Richmond, Ind.

Forges, Portable, &c.
Bradley & Co., Syracuse, N. Y.
Brown & Patterson, Brooklyn, N. Y
Bullock Bellows Co., Cleveland, O.
Buffalo Forge Co., Buffalo, N. Y.
Champion Blower & Forge Co., Lancaster, Pa.
Empire Portable Forge Co., Cohoes, N. Y.
Sturtevant, B. F., Boston, Mass.

Forgings, Iron and Steel.
Belden Mch. Co., New Haven, Conn.
Cambria Steel—Cambria Iron Co., Johnstown, Pa.
Hicks & Dickey, Philadelphia, Pa.
Scranton Forging Co., Scranton, Pa.

Foundry Facings.
Paxson, J. W. & Co., Phila.
S. Obermayer Foundry Supply Mfg. Co., Cincinnati, O.

Foundry Riddles.
Estey, W. S., 71 Fulton, N. Y.

Foundry Supplies.
Audubon Mch. Wks, New Haven, Conn.
Colliau, Victor, Detroit, Mich.
Detroit Foundry Equipment Co., Detroit, Mich.
S. Obermayer, Foundry Supply Mfg. Co., Cincinnati, O.
Paxson, J. W. & Co., Philadelphia.

Friction Clutches.
Moore & White Co., Philadelphia, Pa.
Springfield Foundry Co., Springfield, Mass.

Fuel Burner
Aerated Fuel Co., Springfield, Mass.
Archer, J. B., 45 Broadway, N. Y.

Gas Producers.
Taylor Gas Producer Co., Phila., Pa.

Gas & Steam Fitters' Supplies.
Pancoast & Maule, Phila., Pa.

Gears.
Lexington Gear Wks, Lexington, Mass.

Gear Cutters.
D. E. Whiton Mach. Co., New London, Conn.

Glass Boards.
Lufkin Rule Co., Cleveland, O.

Glass Cutters.
Monce, S. G., Bristol, Conn.

Glue.
LePage Co., Gloucester, Mass.
Russia Cement Co., Gloucester, Mass.

Grinding Mills.
Hill, A. M., New Haven, Conn.

Grinding and Polishing Mchy.
Cutter & Wood, Boston, Mass.
Star Machine Co., Philadelphia, Pa.

Grindstone Dressing Machinery.
Blake & Johnson, Waterbury, Conn.

Grindstones.
Cleveland Stone Co., Cleveland, O.

Gunpowder. *Makers of.*
Laflin & Rand Powder Co., N. Y.

Hair Crimpers.
Chicago Nickel Works, Chicago, Ill.

Hames.
Wilcox, Wm. Mfg. Co., Middletown, Ct,

Hand Carts.
Lansing Wheelbarrow Co., Lansing, Mich

Hardware Comm'n Merchants.
Doscher, Martin, 88 Chambers, N. Y.
Field, Alfred & Co., 93 Chambers. N. Y.

Chicago Foundry Co., Chicago, Ill.
Garrison, A. & Co., Pittsburgh, Pa.
Johnson Foundry Co., Johnstown, Pa.
Seaman, Sleeth & Black, Pittsburgh.
Totten & Hogg Iron and Steel Fdry Co., Pittsburgh, Pa.

Roofing.
Cambridge Roofing Co., Cambridge, O.
Garry Iron Roofing Co., Cleveland, O.
Thompson Mfg. Co., Cleveland, O.

Rules. *Manufacturers of.*
Lufkin Rule Co., Cleveland, Ohio.
Stanley Rule & Level Co., 29 Chambers,

Salt Shakes.
Paine, Diehl & Co., Philadelphia, Pa.

Sash Balances.
Caldwell Mfg. Co., Rochester, N. Y.

Sash Cords and Chains.
Bridgeport Chain Co., Bridgeport, Conn.
Morton, Thos., 65 Elizabeth, N. Y.
Smith & Egge, Mfg. Co., Bridgeport.

Sash Cord Fasteners.
Empire Portable Forge Co., Cohoes, N.Y.

Sash Locks.
Champion Safety Lock Co., Cleveland, O.
Clancy, J. R., Syracuse, N. Y.
Ives, H. B. & Co., New Haven, Conn.

Sash Pulleys.
Empire Portable Forge Co., Lansingburg, N. Y.
Moore Mfg. & Fdry Co., Milwaukee, Wis.
Palmer Hardware Mfg. Co., Troy, N. Y

Sash Weights.
Brown, E. E. & Co., Philadelphia, Pa.
U. S. Foundry Co., 56 Pine, N. Y.

Sausage Stuffers.
Enterprise Mfg. Co., Philadelphia, Pa.

Saws, *Makers of.*
Atkins, E. C. & Co., Indianapolis, Ind.
Disston, Henry & Sons, Phila., Pa.
Jennings, C. E. & Co., 97 Chambers, N.Y.
Wheeler, Madden & Clemson Mfg. Co., Middletown, N. Y.

Saw Sets.
Chieftain Hay Rake Co., Canton, Ohio.

Saw Vises.
Seneca Falls Mfg. Co., Seneca Falls, N.Y
Stearns, E. C. & Co., Syracuse, N. Y.

Scales, *Manufacturers of.*
Buffalo Scale Co., Buffalo, N. Y.
Chatillon, John & Sons, 85-89 Cliff, N.Y.
Riehle Bros., Philadelphia.

Screens, Door and Window.
Queen Anne screen Co., Burlington, Vt.

Screw Cutting Machinery.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Screw Drivers.
Brown, R. H. & Co., New Haven, Conn.
Eclipse.
Gay & Parsons, Augusta, Me.

Screw Plate and Pipe Cutter.
Jarecki Mfg. Co., Erie, Pa.

Screws, *Makers of.*
American Screw Co., Providence, R. I.
Blake & Johnson, Waterbury, Conn.
Wm. H. Haskell Co., Pawtucket.
Miles, F. S., 205 Quarry, Philadelphia.
National Screw & Tack Co., Cleveland, Ohio.
Reynolds & Co., New Haven, Conn.
St. Louis Screw Co., St. Louis, Mo.
Worcester Machine Screw Co., Worcester, Mass.

Scroll Saws.
Barnes, W. F. & John, Rockford, Ill.
Seneca Falls Mfg. Co., Seneca Falls, N.Y.

Scythe Stones and Whetstones.
Pike Mfg. Co., Pike Stat'n, N. H.
Cleveland Stone Co., Cleveland, O.

Shafting. *Makers of.*
Cresson, Geo. V., Philadelphia, Pa.
Fairmount Mch. Co., Philadelphia, Pa.
Fitzsimons & Co., Cleveland, Ohio.
Pierson & Co., 24-27 West, N. Y.
Sellers, Wm. & Co., Inc. Phila. Pa.
Stow Mfg. Co., Binghampton, N. Y.

Shears and Scissors.
Acme Shear Co., Bridgeport, Conn
Empire Knife Co., West Winsted, Conn.
Henry Seymour Cutlery Co., N. Y.

Sheep Shears.
Henry Seymour Cutlery Co., N. Y.

Sheet Zinc.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Shot.
Globe Shot Works, Philadelphia, Pa.

Show Cases.
Goddard, Curtis, Alliance, Ohio.

Sinks.
Douglas, W. & B., Middletown, Conn.

Skates, Ice.
Am. Skate Co., Philadelphia, Pa.
Dame, Stoddard & Kendall, Boston, Mass.
Peck & Snyder, 124 Nassau, N. Y.
Union Hardware Co., Torrington, Conn.
Winslow, Sam'l, Skate Mfg. Co. Worcester, Mass

Smelting Works.
Reeves, Paul S., 760 S. Broad, Phila.

Speaking Tubes.
Ostrander, W. R. & Co., N. Y.
Wollensak, J. F., Chicago, Ill.

Spelter.
Manning & Squier, 111 Liberty, N. Y.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Splice Bars, Iron and Steel.
Springfield Iron Co., Springfield, Ill.

Spool Wire.
Tate & Co., Malden, Mass.

Spoons and Forks.
Hall, Elton & Co., Wallingford, Ct.
Holmes & Edwards Silver Co., Bridgeport, Conn.
Rogers, The Wm. Mfg. Co., Hartford, Conn.

IRON AND STEEL WIRE

of every description, plain, galvanized, tinned and lead-coated; spiral ribbon fence wire; steel wire ties for baling hay, straw, rags, excelsior, &c., &c., &c.

IRON AND STEEL WIRE ROPE

for all purposes, including cables of the best quality and of any desired length for street cable roads. The attention of all users of wire rope is specially called to the Trenton Iron Co.'s

Patent Locked Wire Ropes

which are far superior to any other in tensile strength and durability; from the fact that the wires in these ropes are interlocked, "unstranding" or projection of broken wires is impossible, and consequently a smooth surface only is constantly presented to the sheave or drum, causing these latter to last indefinitely. One of these locked wire ropes working under ordinary conditions will outwear two or three ropes of the ordinary style. The Trenton Iron Co. also call attention to their

Patent Wire Rope Tramways (Bleichert system)

also their hoisting and conveying plants for quarries, open cut mines, docks and contractor's work. Haulage and transmission of power by wire ropes a specialty. Surveys made and plans furnished at moderate rates by competent engineers.

JUST PUBLISHED.

The Metallurgy of Steel.

BY

HENRY M. HOWE.

Price, - - - - *$10.00*

This work is the most notable contribution to the literature of iron and steel metallurgy ever published. This series of papers on the subject have, during the past two years, attracted world-wide attention and have received the heartiest commendation from all quarters. The volume now published presents this material in much more convenient shape, with considerable additional matter, giving the results of the most recent research, experiment and practice. Also presenting a complete review of all important conclusions reached by earlier investigators. Every statement and citation has been carefully weighed and verified, and the references to the literature of the subject are given minutely, the book thus furnishing in itself a key to the whole range of steel metallurgy. It also furnishes the results of much new and original investigation, specially undertaken for the present work. Every metallurgist, every manufacturer of steel in any form, and all who are interested in the iron or steel industries, and all engineers who use iron or steel should have this standard work and cannot afford to be without it.

TABLE OF CONTENTS:

Chapter I.—Classification and Constitution of Steel.
Chapter II.—Carbon and Iron, Hardening, Tempering and Annealing.
Chapter III.—Iron and Silicon.
Chapter IV.—Iron and Manganese.
Chapter V.—Iron and Sulphur.
Chapter VI.—Iron and Phosphorus.
Chapter VII.—Chromium, Tungsten, Copper.
Chapter VIII.—The metals occurring but sparingly in iron.
Chapter IX.—Iron and Oxygen.
Chapter X.—Nitrogen, Hydrogen, Carbonic Oxide.
Chapter XI.—The Absorption and Escape of Gas from Iron.
Chapter XII.—The Prevention of Blowholes and Pipes.
Chapter XIII.—Structure and related subjects.
Chapter XIV.—Cold Working, Hot Working, Welding.
Chapter XV.—Direct Processes.
Chapter XVI.—Charcoal-Hearth Processes.
Chapter XVII.—The Crucible Steel Process.
Chapter XVIII.—Apparatus for the Bessemer Process.
Appendix I.—Special Steels.
Appendix II.—Anti-Rust Coatings.
Appendix III.—Lead Quenching.

THEORY PRACTICALLY APPLIED
SHORT LECTURES
TO
ELECTRICAL ARTISANS.
BEING A COURSE OF EXPERIMENTAL
LECTURES DELIVERED TO A
PRACTICAL AUDIENCE.
By J. A. Fleming, M.A., D.Sc. (London).

CONTENTS.

1. Magnetization. Magnetic polarity. Lines of magnetic force. Measurement of magnetic fields. Magnetic resistance. Permeability and susceptibility. Saturation. Magnetic theories.

2. Oersted's discoveries. Field of solenoid. Mirror galvanometer. Faraday's laws of induction of currents. Terrestrial magnetic induction. Mnemonic rule. Electric inertia. Self-induction.

3. Magnetizing force. Electro-magnets. Effects of torsion. Curves of magnetization. Webber's and Ampère's hypothesis.

4. Forms of electro-magnets. Long-pull and weight-carrying magnets. Field magnets. Foucault or eddy currents. Induction coils. Secondary generators.

5. C.G.S. system of electrical measurement. Fundamental units. Mechanical units. Electric and magnetic units of measurement. Summary and table.

6. Practical units for measuring electric quantities. Voltameters. Electro-chemical equivalents. Tangent galvanometers. Current-measurement. Ampèremeter. Dynamometers.

7. Instruments for measuring electromotive force. Laws of current flow. Voltameter. Cardew. Sir W. Thompson. Ayrton and Perry. Potentiometer. Resistance. Standards of resistance. British Association unit. Legal ohm. Wheatstone's bridge. Watt-meters.

8. Primary and secondary cells. Electrolysis. Plant's researches. Energy developed by primary cells. Forms of primary batteries. Standard Daniell's cell. Standard Clark's cell. Modern secondary batteries.

9. Electro-motors. Measurement of work. Efficiency of motors. Reaction between armature and field magnets. Counter-electromotive force. Measurement of efficiency of motors.

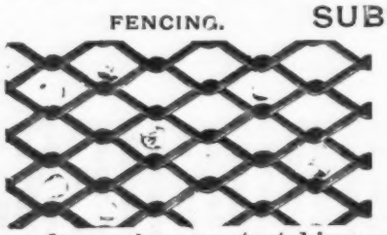
REPRESENTING



OLIVER AND ROBERTS WIRE CO.

EXPANDED METAL

Is the "Trade" name for Plates of Soft Steel cut and opened out into webs of diamond or other shaped mesh.

SUBSTANTIAL, LIGHT AND CHEAP.

FENCING.

Is used extensively for **Rail Road, Cemetery, Farm, Village and Lawn Fences, Gates, Skylight, Window and Elevator Guards, Office Railings and Partitions, Chicken Yards, Tree Guards, Grape Arbors, Lattice and Ornamental Lawn Work. More durable than wire.**

Our Steel Lath commends itself to Architects and Builders as the best metallic lath in use.

It requires no stretching or furring; its form makes it rigid, and yet it can be readily molded to any required curve or angle. Gives a perfect "key" throughout.

Specify our Lath to reduce the fire risk on your buildings.

LATHING.

No. 81 Fulton Street, New York.

PERFORATED METALS OF EVERY DESCRIPTION BY THE HARRINGTON & KING PERFORATING CO. CHICAGO.

New York Office: 284 Pearl Street, corner Beekman Street.

This illustration is taken direct from a photograph of an iron roof built by us for the C. W. Hunt Co. at West New Brighton, Staten Island, for a Machine Shop. The building is 42 ft. in width by 202 ft. in length, the trusses being placed 10 ft. apart, connected by iron purlins and covered with slate. Notice that the roof is arranged to carry shafting at any point on the lower chord, which is considerable of a novelty in an iron roof.

SOFT STEEL PLATES.

We are making a specialty of soft steel plates for Blanking and Stamping, with clean, smooth surface, rolled carefully as to gauges, ranging from No. 9 to 16 inclusive, in widths up to 15½ inches, and to any multiples of length desired.

We can also furnish plates freed from scale and so treated as not to rust readily before using.

By the use of these, instead of raw plates in Stamping, the great saving of wear on costly dies and increased production of better work will more than cover the increase of cost over that of raw plates. Trial orders solicited in small or large quantities.

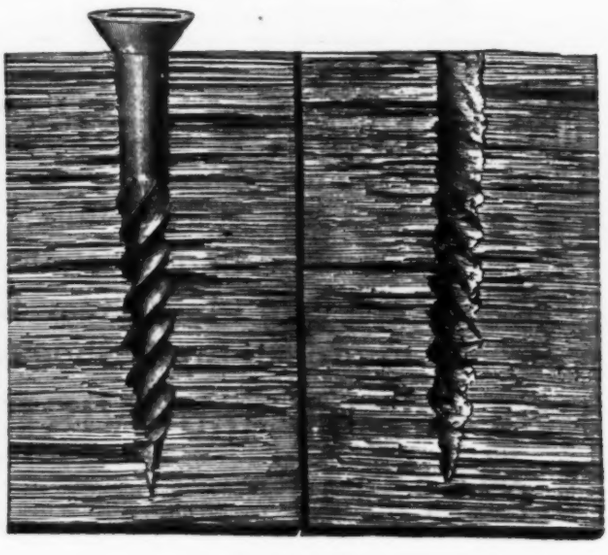
AMERICAN SCREW COMPANY



PROVIDENCE, R. I.

Chicago Store, No. 19 Lake St. EUROPEAN AGENTS, THOMAS & STIRLING, Liverpool.

"ROGERS' DRIVE SCREWS."

Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

A common cut thread screw as ordinarily inserted—*i.e.*, driven two-thirds of its length with a hammer and the balance with a screw driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

The "ROGERS' DRIVE SCREW" driven with a hammer its entire length. It revolves as it goes in and does not break the fibres of the wood, but makes its own nut of the cavity it forms.

The foregoing illustrations speak for themselves, but we call attention to a few advantages of the "ROGERS' DRIVE SCREWS."

1. Stiffness, adapted for driving with a hammer.
2. Rapidity of insertion.
3. Increased holding surface.
4. Ability to be driven with hammer and withdrawn with Screw Driver numerous times from same hole.
5. Superior Head, which will withstand blows of a hammer and not impair the slot.
6. Improved Slot, admitting the use of a heavier Screw Driver.
7. A "ROGERS' DRIVE SCREW" of small diameter will hold as much as a common screw of larger diameter.

List prices, same as common iron wood screws. Discount for Flat Heads, 66⅔%.

HARROW TOOTH STEEL,

tough, strong and hard. Wears well in the ground. In multiple bars or sheared to lengths.

Also POINTED HARROW TEETH, round, square, diamond or oval.

Low prices on large lots.

The Iron-Masters' LABORATORY.

Exclusively for the

Analysis of Ores of Iron, Pig and Manufactured Iron, Steels, Limestone, Clays, Slags and Coal for Practical Metallurgical Purposes.

339 Walnut St., Philadelphia.

With Branch at Warrenton, Virginia.

J. BLODGET BRITTON.

This laboratory was established in 1866, at the instance of a number of practical Iron Masters, expressly to afford prompt and reliable information upon the chemical composition of the substances above mentioned, for smelting and refining purposes, the object being to make it at once a convenient, practically useful, and comparatively inexpensive adjunct to the Furnace, Forge and Rolling Mill.

The Midgley Patent Wire Belts.

ENDLESS WIRE BELT, about ⅛ size.

Black Diamond Steel Works.
Lake Superior Copper Mills.
PARK, BROTHER & Co., Limited.
Pittsburgh, Sept. 2d, 1890.

MIDGLEY WIRE BELT CO, Beaver Falls, Pa.

Dear Sirs:—In reply to your inquiry, we would say we have had one of your 3-ply wire belts in constant use, running day and night, for the past three months. It is 22 inches wide by 96 feet long, weighing more than 1200 pounds. It has distributed all the power from a 200-horse automatic engine direct to a train of rolls rolling steel. We had formerly used a 3-ply leather belt. The belt is still in use and can be seen at our works.

Yours truly,
PARK, BROTHER & CO., Limited.

Oct. 26, 1890.—The belt referred to by Messrs. Park, Bro. & Co., has one side covered with rubber and runs on iron faced pulleys, and took the place of a 3-ply leather belt, and to this date has been in constant use for about six months. The Messrs. Park are the largest manufacturers of Cast Steel in America if not in the world.

Beaver Falls, Pa., September 1st, 1890.

To THE MIDGLEY WIRE BELT CO., Beaver Falls, Pa.

Gentlemen: We are pleased to inform you that we have been running our entire factory for nearly two years with a 20-inch Double Tempered Wire Belt which took the place of a 24 inch double leather belt. Our power is a 15 x 36 Buckeye Engine. We covered our pulleys that the belt runs on with leather, and since we put it into use it has distributed the speed perfectly regular, which we never were able to do with leather on account of slippage. We have also an 8-inch Double Wire Belt 8 in. x 68 ft. long that drives our grinding machine for circular saw. It took the place of a 6-ply rubber belt made especially for us in Boston. It has now been in constant use more than a year, and has only been taken up twice in that time. The rubber belt lost over 12 feet of stretch in less than one year's use.

We really consider this the severest use a belt can be put to. In our emery grinding room we have had a 2½ operating a very high speed emery grinder and running at 9000 feet per minute over a 3½ inch pulley. We have various others in various departments, and every belt a perfect success. In fact, as fast as our leather and rubber belts give out, we put on in its place your Wire Belt, and all are entirely successful.

EMERSON, SMITH & CO., Limited, Saw Manufacturers.

☞**AGENTS WANTED** in all large localities and cities in the United States where any considerable quantities of Belting are used. To persons who will write to us, giving suitable references for their responsibility, and with a good practical knowledge of how to use Belts and operate them, we can offer a profitable inducement to handle our New Patent Wire Belting. For full particulars and descriptive circulars fully illustrated, address with full name and post office plainly written,

Lathes, Planers, Drill Presses, &c. Patent Double Chain Screw Hoists, Overhead Tramway-Switch &c. Gear Cutting a Specialty

---

J. G. SPEIDEL,

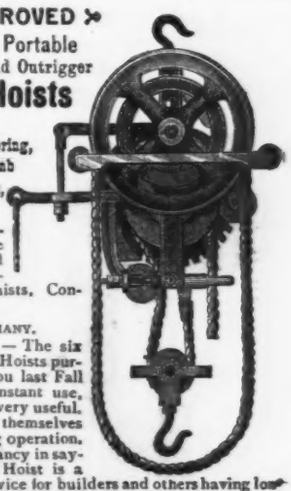
READING, PA.,

Patentee and Manufacturer of the celebrated

Economic Safety Hoist.

One man can lift two to three times as fast as with any other self-holding chain hoist. Spur gearing in connection with the automatic brake holds the load at any place, reducing friction to a minimum. The hoist has two speeds, is built strong and durable and guaranteed to give satisfaction. Cheaper than any other reliable hoist.

Overhead Tramways and Portable Derricks. Hand Power Elevators.



Send for illustrated catalogue. Agents wanted.

IMPROVED

Patent Portable Hatchway and Outrigger

Rope Hoists

Quick Lifting, Quick Lowering, Elevator and Dumb Waiter Gearings, etc.

A large number are in use and endorsed by leading railroads, machinists, Contractors, etc.

ONE OF MANY.

GENTLEMEN — The six portable Rope Hoists purchased from you last Fall I have in constant use, and find them very useful. They paid for themselves in one building operation. I have no hesitancy in saying that your Hoist is a very useful device for builders and others having long or short lifting. Yours respectfully,

THOMAS BENNETT,
Philadelphia, Mar. 5, '90. Contractor and Builder.

ARE YOU IN WANT

Of a handsome paint for your roofs that will not require repainting for 10 to 15 years?

DIXON'S GRAPHITE PAINT is now on roofs that were painted 10 to 15 years ago and the owners recommend it in the highest terms.

It is economy to use it.

It is equally useful for tin or shingle roofs, bridges, stand-pipes and all iron work.

We shall be glad to send you a convincing circular.

WANTED.—An experienced business manager who can control $50,000, by a Chicago manufacturing corporation, whose present output capacity is contracted for up to January 1st, 1891, and which needs both a competent financier and additional capital. Address FRANK R. GROVER.
115 Dearborn St., Chicago.

Iron Bridge M'f'r's.

The demand in the South for Iron Bridges and buildings is now very large and growing. A Bridge and Structural Iron Works in the South would have an abundance of orders and pay large dividends from the start, if it was located accessible to coal, on competing lines of R. R., and where material of good quality could be readily secured. Buchanan, Va., presents all of these advantages. It is on two trunk lines of R. R., with two more located; it is in the midst of the great iron and coal fields of the Virginias, and the Central Land Co., of Buchanan not only offers free sites but financial aid from its large cash development fund ($400,000). This is a rare opportunity to a pushing, energetic Bridge Builder. Buchanan also seeks associate industries on similar terms. Address CENTRAL LAND CO. of Buchanan, Buchanan, Va.

FOR SALE.

In West Chelmsford, Mass., all the Real Estate and Machinery formerly owned by the Hiscox File Co.; the real estate consisting of about 7 acres of land, together with the buildings and water power, and the machinery, being such as was used by them in the manufacture of files, machine knives, sword blades and edge tools. There is also on the premises a good 75 horse-power Harris-Corliss engine and good boiler, also a large amount of shafting, belting and supplies. This property is situated about five miles from Lowell, and is very easy of access by railway, with excellent facilities. The entire property will be sold very cheap, either as a whole or in part, and will afford some party an excellent chance to enter into this business. For terms, &c., inquire of

J. W. BENNETT, Lowell, Mass., or
F. G. SARGENT, Graniteville, Mass.

IDLE CAPITAL

should visit and investigate the advantages now being offered by Pittsburg, Kas. It is going to be a great big mining, manufacturing and smelting city of **100,000** people in a few years, because of its cheap fuel, raw material, railway facilities and central location.

WEALTH

PITTSBURG, KANSAS, offers exceptional advantages to capitalists, investors, manufacturers and all reputable business concerns. Property cheap now, but advancing daily. Investigate quick. Address for particulars, PITTSBURG TOWN CO., PITTSBURG, KANSAS.

TO SHEET BRASS MANUFACTURERS.—A man with twenty two years' experience in the sheet brass and copper manufacture desires to connect himself with an established works as superintendent; has had thorough experience in the detail and management of all the departments of rolled sheet brass manufactures; he has studied the economies and mechanical problems connected therewith, he can give the best of recommendations as to his qualifications. Address "MANAGEMENT," office of *The Iron Age*, 66 and 68 Duane St., New York.

POSITION as superintendent of wire nail and wire mill, rolling mill or tack factory; 25 years' experience in building, erecting and superintending above branches. Will guarantee unexceptional testimonials, and build the best machinery in the U. S. for entire outfit of above mills. At present superintendent of large mills. Address "SMITH," office of *The Iron Age*, 66 and 68 Duane St., New York.

AN IRON AND STEEL salesman with large experience and acquaintance in Middle and Western States will be open for engagement on January 1, with a mill as salesman, manager of branch or any position where hard, intelligent work will receive adequate reward. Address "E. W. A.," office of *The Iron Age*, 66 and 68 Duane St., New York.

POSITION as Secretary and Treasurer of an Iron and Steel Co.; have received a thorough technical education; have 10 years' practice in management of iron and steel works, and 10 years' experience of importing iron, handling considerable amounts of money and being thoroughly familiar with the market; can give the best references. Answer to "PIG IRON," Box 18, office of *The Iron Age*, 66 and 68 Duane St., New York.

BY A MARRIED MAN who has had ten years' experience at bookkeeping, labor accounts, cost sheets of jobs, &c, in general machine shop, boiler shop and foundry business; thoroughly reliable and acquainted with the business, clerically, in all its details. Address "CLERICAL," office of *The Iron Age*, 66 and 68 Duane street, New York.

POSITION by a Machinery Pattern Maker of long experience; have a good situation now in that capacity in Pennsylvania, but on account of my family preferring to live East, I wish to move there; can furnish first-class references; wages reasonable. Address "PATTERN MAKER," Box 200, office of *The Iron Age*, 66 and 68 Duane St., New york.

ENGINEERING KNOWLEDGE, ABILITY, broad experience in the foundry and machine business, and in manufacturing and construction, draughting, estimating costs and prices, correspondence, and a reliable, energetic nature, are the qualifications possessed by a thoroughly competent Mechanical Engineer, with experience and capacity to fill a responsible position. Address "EXECUTIVE QUALITIES," office of *The Iron Age*, 66 and 68 Duane St., N. Y.

A YOUNG MAN, 16 years' experience in General and Builders' Hardware, good Salesman, best of references as to business ability and moral character, would make connection with a good house in a live growing city, where a small amount of capital will obtain an interest in the business. Address "PROMOTION," office of *The Iron Age*, 66 and 68 Duane St., New York.

Fluor-Spar.

MULLINS'

Fluor-Spar and Lead Mining Co.,

220 First National Bank Building

CHICAGO, ILL.

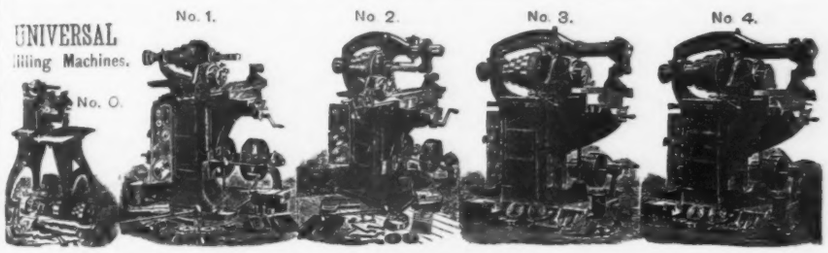
This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

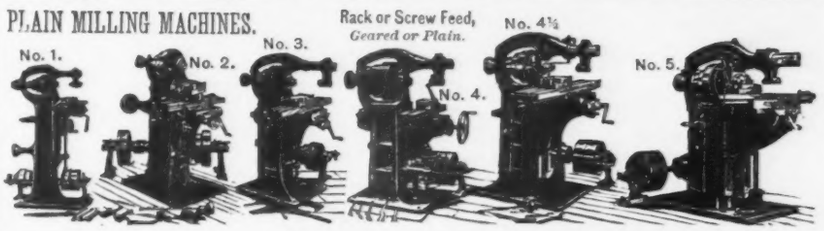
Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays, and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point, and saves fuel; it diminishes the loss of metal, saves labor, and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

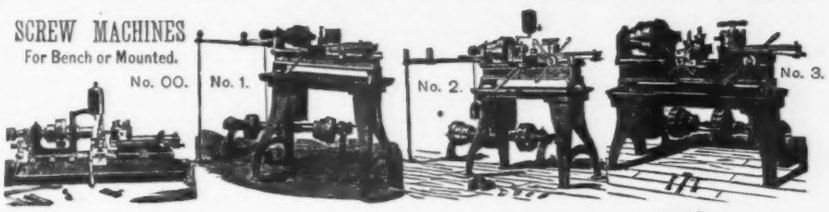
Directions for the proper use of Fluor-Spar given our patrons.



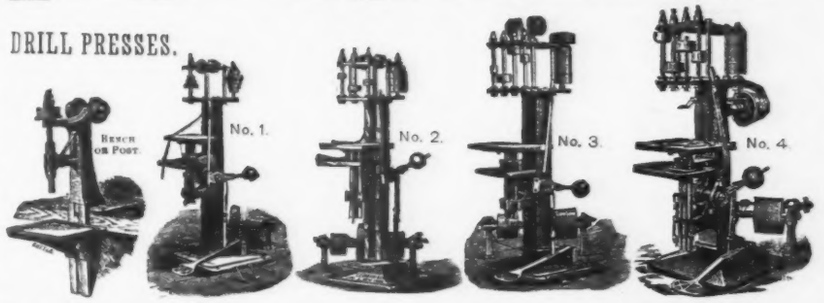
We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.



SAY!



WHAT CAN WE FURNISH YOU?



WE are Manufacturers of the following line of Tools and therefore

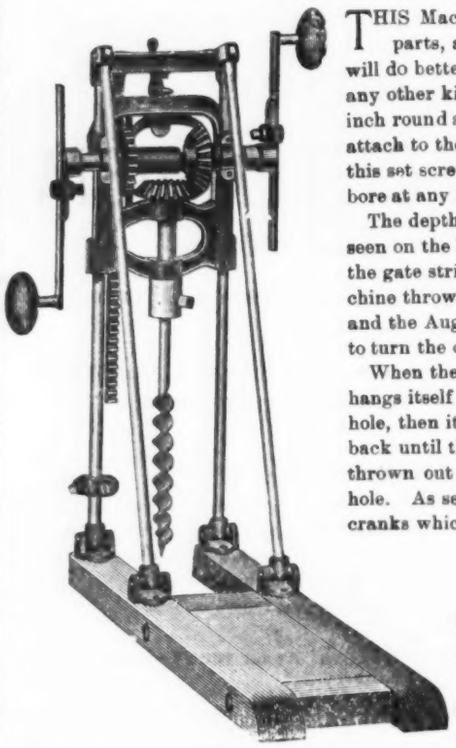
KENTON LOCK MFG. CO., Kenton, Ohio.

The Detachable Empire Sash Cord Fastener

(Patent Applied for.)

The simplest and best method of attaching Sash Cords to Window Sashes ever invented, and a great saving in time and patience in putting in or taking out Window Sashes. Every window requires them that is hung with weights.



The sharp rib extending over the top of the fastener, through the centre, is by the weight of the sash caused to sink into the frame and thus hold from moving. The most useful invention for Window Sash ever put on the market. Every window requires them.

Reasons why you should use them: It costs less than one and one-half cents per Sash; requires no nails or screws; can be put in or taken out in less than one minute; prevents the knot from fraying out and getting between the sash and frame; does not split the sash like nails or screws; prevents the cord from running back into the weight pocket. Manufactured by the

Empire Portable Forge Co., Lansingburgh, N.Y., U. S. A.

Depot for N. Y. City Delivery, Surpless, Dunn & Alder 97 Chambers Street.

MILLERS FALLS BORING MACHINE.

THIS Machine has been fully perfected in all its parts, and is now sold with full warrant that it will do better work and give better satisfaction than any other kind in use. The frame is made of half-inch round steel rods; the braces are the same and attach to the rods at the top by a set screw. When this set screw is loosened, the frame falls over so as to bore at any desired angle.

The depth of hole to be bored is fixed by a stop, as seen on the left hand upright rod in the cut. When the gate strikes this stop a latch is lifted and the machine throws itself into gear by the use of a spring, and the Auger is lifted out of the hole by continuing to turn the crank in the same direction.

When the Auger is drawn from the hole the frame hangs itself up until the machine is moved to the next hole, then it is dropped down by turning the crank back until the Auger strikes the wood, when it is thrown out of gear and proceeds to bore the next hole. As seen in the cut, the machine has adjustable cranks which fully regulate its speed and power.

PRICES:

Machine, without Augers, - $7.50

Augers in sets, 18, 23, 41 quarters, $3.00. $3.75. $6.75.

Sizes of Augers (1, 1½, 2) (1, 1¼, 1½, 2) (½, ⅝, ¾, ⅞, 1, 1¼, 1½, 1¾, 2)

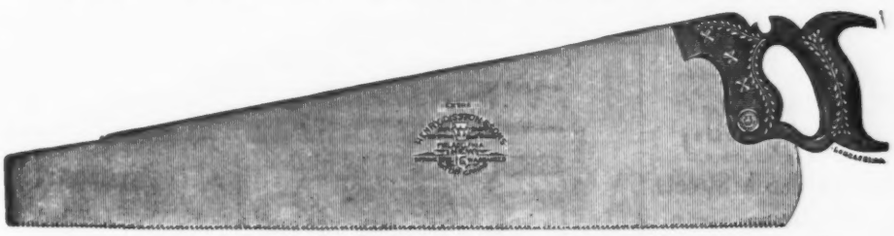
"If you want a Saw it is best to get one with a name on it which has a reputation.
A man who has made a reputation for his goods knows its value as well as its cost and will maintain it."—HENRY DISSTON.

THE SAWS THAT LEAD THEM ALL

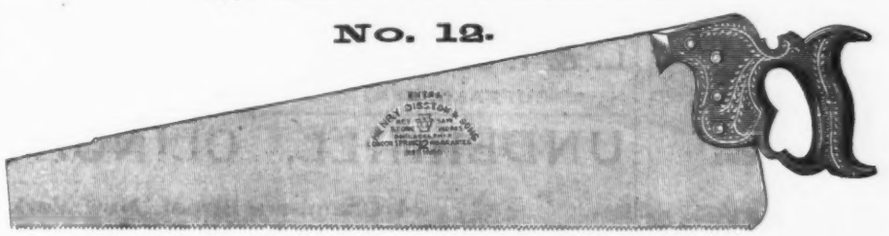
"THE SAW;" HOW TO CHOOSE IT, AND HOW TO KEEP IN ORDER, Sent Free on Receipt of Name and Post Office Address.



DISSTON & SONS' PATENT D-8 HAND SAW.

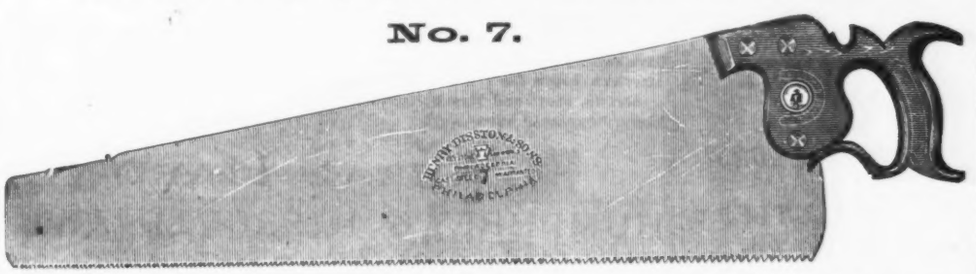
This Saw combines all the valuable improvements in Hand-saws that have been made by us of late. The first and most important is the hollow or skew-back, the success of which can best be attested by the number sold. The peculiar shape of the butt or heel, coupled with the new method of fastening to the handle, give a full stroke of the blade without fear of catching or hooking in the work; and as the handle is put further on the blade you have a full stop on the proper point and a greater command over your Saw, by reason of being two inches nearer the point, which must give more power.

The Saw being let into the handle on a circle, has a perfect bearing, which, with the new screws, makes it stronger and almost impossible to work loose, and avoids the unsightly gap that is seen on the back of the old style handle. All the above features are patented.



Our New No. 16 Premium Saw.

AN EXTRA FINE SAW IN EVERY RESPECT.



Having the Latest Close up Handle, Spring Steel Blade, Extra Thin Back, Finely Grained, with an Apple Handle and Four Brass Centennial Screws.

GENERAL HARDWARE.

HUMPHREY'S IMPROVED AWL HAFT.

OUR NEW HANDLE has many points of improvement and beauty over any other Awl Haft now on the market. The metal portions are nickel, making a fine contrast with the fancy wood of the handle. The Awl has a square shank, which prevents turning, and it cannot pull through the cap when used in the hardest wood. The tools, 8 awls, 1 screw driver and 1 point, are held in separate cells under the ring at the top of the handle. The ring has one hole in it, which when revolved passes over each cell containing the tools, and is automatically locked at any desired point. It also forms a covering for all the tools when not in use. *Send for prices.*

If you **want the best Scythe-stones** buy the following celebrated brands:—The **"Indian Pond Red Ends,"** which have been made for about 70 years, and the sale of them extends to-day all over the world, and the demand for this stone exceeds all others. They are quick cutting, strong and do not glaze. The **"Lamoille Scythe-stone"** is also well-known, and has the reputation of being the best stone in the world to give a keen, smooth edge. The **"Black Diamond Scythe-stone"** is of the same grit, but superior finish, and is the handsomest scythe-stone in the market. The **"Ragg," "Willoughby Lake." "Green Mountain," "Diamond Grit," "White Mountain," "Farmer's Choice,"** and **"Extra Quinnebaug"** are all choice stone, coming from the best quarries which have been discovered in long years of effort and experience. These stones are carefully selected and handsomely packed and are sure to sell with satisfaction and profit.

The Leonard Patent Portable Storm Houses.

A long-felt Want Supplied. Comfort and Economy Assured.

The sides and roof are constructed of Corrugated Iron set in a frame of Michigan Pine. The front is a good five panel sash door set in a frame of 2 x 4 pine. The upper panel is set with glass. The whole is neatly painted—two coats and two colors. Has a good latch with porcelain knob, and door spring. It is **Ornamental, Light, Strong, Cheap and Durable.** Anybody can set it up or take it down. Not necessary to have a carpenter. Storm Doors can be taken away in case of removal. The sides of the house are hinged to the front and fold inwards. The gables are hinged to the roof and fold inwards. The whole structure is only six inches thick when folded. To set it up, hook the edges to the door frame and adjust the roof to the top of the door frame. A notch may be sawed in the bottom rail for a projecting step or threshold if necessary. They save their cost in fuel every year, besides the comfort they give. Exclusive agencies given.

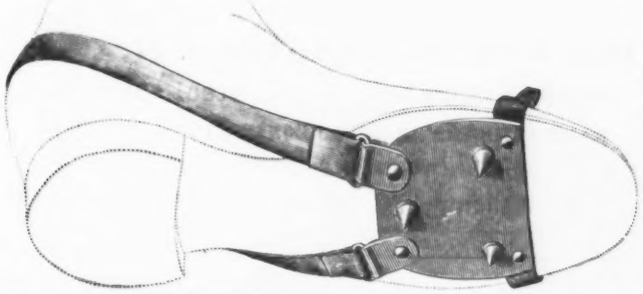
ARCTIC ICE DOGS.

FIG. 1.

FIG. 2.

These Ice Dogs or Creepers, designed to secure safe-footing on slippery pavements, are the simplest and best ever invented. They consist of a very light, malleable casting of the best quality of iron, fitted for the sole of the shoe and fastened to the foot by means of a toe-strap and an endless elastic band drawn high over the heel, thus holding the dog to its place, and being easy of adjustment, is very quickly put on or taken off.

There are two sizes, for ladies and gentlemen respectively, and the peculiar adjustment attaches them equally well to boots, shoes or rubbers, without difficulty or delay.



Retail at **50c.** per pair. Liberal discount to dealers.

THE STORY OF AN ENGLISH SYNDICATE.

How the "JOHN SMITH MANUFACTURING Co." became the "JOHN SMITH MFG. Co. (Limited)," with incidental remarks about PROMOTERS—A true narrative of facts in which is set forth the value of "Good Will" as a marketable asset and wherein "Earning Capacity" is contrasted with "Nominal Assets" as a basis of Capitalization

In the November Issue of

The Office

Other interesting and valuable features in this number are "The Routine of Banking," "Official Reporting," "Money in Different Ages," "Business Law," and "Office Mail Bag," the latter containing letters from some 20 correspondents discussing practical business questions.

In the department of BUSINESS LITERATURE the Milling Papers are analyzed and reviewed as to their contents, both advertising and editorial.

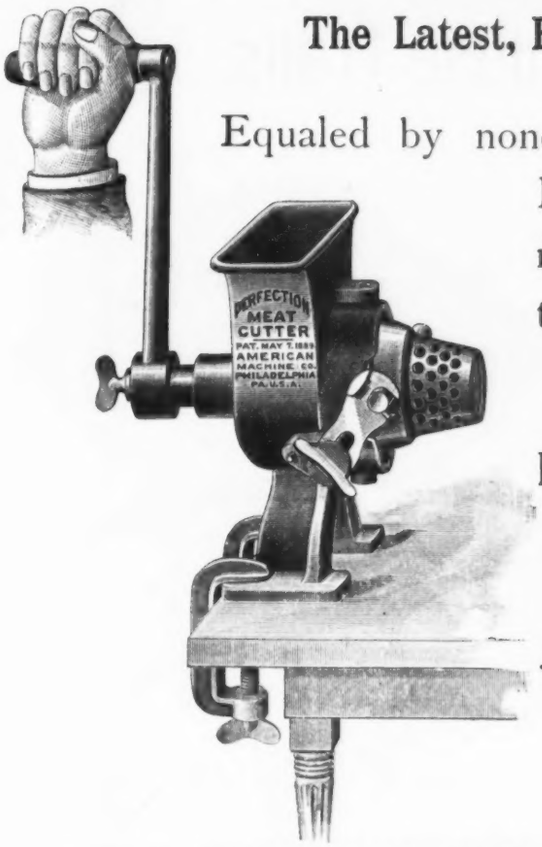
In THE ART AND PRACTICE OF ADVERTISING Nathaniel C. Fowler, Jr., discusses "National Advertising," while five other stated articles and numerous POINTERS show the practice of leading business establishments.

ONE DOLLAR A YEAR. SINGLE COPIES 10 CENTS. If you remit one dollar at once and mention this advertisement we will send THE OFFICE, beginning with the November issue, and continuing to the close of 1891, making in all 14 numbers.

THE OFFICE is to the business man what a mechanical journal is to the mechanic, or a scientific paper to the specialist. It treats of the daily routine of business, and discusses all the questions that bear upon business practice. It investigates the problems of office management, it illustrates everything that is new in accounting, it inquires into different methods and schemes of advertising and presents actual results. It has a large corps of practical writers, and commands the services of experts in every branch of business enterprise.

Each number of THE OFFICE contains articles upon live Business Topics, upon Business Law as Interpreted by the Courts, upon Accounting, upon the Practice of Advertising, upon New Office Facilities, and upon Business Literature. There are also presented Letters from Readers, narrating experience, answering questions and suggesting lines of enterprise and investigation. These, together with Editorial Notes, a selection of Pertinent Miscellany, the sage observations of Vannant, and the Counting-House Hints of George Houghton, make up the regular features. Special features, from time to time, are exhaustive presentations of the accounting and daily routine of different lines of business. In these studies, blanks and forms are freely reproduced, methods of accounting are explained and the most careful attention is given to all essential details In every respect an accurate transcript of actual business is presented.

THE OFFICE is the only periodical discussing the art and practice of advertising broadly and upon its merits. In this work it is entirely independent of agency connections and it is absolutely free of trade bias. It believes in the efficacy and potency of printers' ink in circulars and catalogues, as well as in newspaper cards, and by its selection of subjects for illustration and description renders acceptable assistance to advertisers of every possible school.



THE OFFICE is always timely in its instruction and advice, honest and fearless in its utterances, attractive in its typographical dress and practical from beginning to end.

ERIE, PA.,

MANUFACTURERS OF

Rat and Mouse Traps,

Step and Extension Ladders,
Clothes Bars, Clothes Wringers, etc.

SEND FOR CATALOGUE.

WHEELER PATENT CAN OPENER COMPANY.

Surpasses all other instruments for opening cans, irrespective of shape or size.
They are well recommended by those who have them in use. It is the only can opener that will cut off the top of paint pails. There are hundreds in use for this purpose.
It cuts stove pipe, tin pipe, &c., to perfection. The blade is made of the best cutlery steel, and the spring is of the most reliable make. For sale by all wholesale hardware dealers. Samples will be forwarded to any address on receipt of 50c. Address **Wheeler Patent Can Opener Co.,** 102 South Main St., St. Louis, Mo.

LOOK AT THIS!

THE "ACME" CAN OPENER.

SEE HOW IT'S DONE?

Simplest thing in the world. Yes, any shaped can. Cuts close to the edge. Nothing to get out of order. Blade is steel, tempered. Lasts a lifetime. "Best one yet" they all say.

Goodell Co., - Antrim, N. H.

SOLE MANUFACTURERS.

REMEMBER NOV. 27th.

Sensible girls and careful wives always want the best and handiest of the following articles: TOWEL ROLLERS, HAT and COAT RACKS, LEMON SQUEEZERS, SLAW and KRAUT KUTTERS, VEGETABLE KUTTERS, BARREL TRUCKS, KNIFE TRAYS, POTATO MASHERS, STEP LADDER and CHAIR (in one) that are made well. We make 'em and want about 5000 dealers to push their sale; that is, inform their customers about the goods. Doing so will earn every dealer a good profit. We also have in stock MONEY DRAWERS, STOVE TRUCKS, SAW BUCKS, the first two of which you can use yourself and the last mentioned sell. If we haven't hinted at what you need, write us.

TUCKER & DORSEY MFG. CO.,

INDIANAPOLIS, IND.

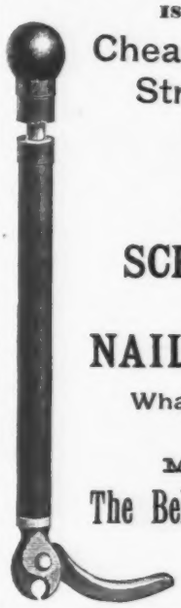
Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a **guarantee** that they cannot **break, bend or warp.** An important feature also is that they are made **without rivets,** and **cannot leak** or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.



The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

THE SWIFT MILL.

ESTABLISHED 1845.

The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.

LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

Manufactured by LANE BROS., Poughkeepsie, N. Y.

JOHN H. GRAHAM & CO., General Agents, 113 Chambers Street NEW YORK.

DON'T BUY A NEW LOCK, JUST BUY A DIFFERENT KEY.

A CHANGEABLE KEY Self-Setting Combination LOCK. ABSOLUTE SECURITY.

MANUFACTURED BY THE UNIVERSAL Lock Co. OF NEW YORK.

This lock differs from all others in the fact that it will set itself to any one of 4013 different keys with which the user may choose to lock it. Only the key used in locking will unlock it.

The advantage will naturally become apparent when for any reason whatever the user wishes to change the means of securing his premises, he need only buy a new key. Obviously as many different locks for securing the premises will be available as there are keys in the possession of the holder.

EXPERIMENTAL SCIENCE.

ELEMENTARY, PRACTICAL AND EXPERIMENTAL PHYSICS.

By GEORGE M. HOPKIN.

CONTENTS.—Properties of bodies. Rest, motion and force. The Gyroscope. Falling bodies—inclined plane—the pendulum. Molecular actions. Liquids—pressure exerted by liquids. Gases. Sound. Experiments with the scientific top. Heat. Light. Polarized light. Microscopy. The telescope. Photography. Magnetism. Frictional electricity. Dynamic electricity. Electric-lighting. Induction by electric currents. Telephone, microphone and electrical magic. Lantern projection. Mechanical operations.

This book treats on the various topics of Physics in a popular and practical way. It describes the apparatus in detail and explains the experiments in full, so that teachers, students and others interested in physics may readily make the apparatus and perform the experiments without difficulty.

A MAN OF SAMPLES.

Something About the Men he Met "On The Road."

BY WM. H. MAHER.

Should be read by every business man in the country.

It is a book full of keen points about business men and business methods, from the pen of a successful merchant who has not only been "on the road" but has been book-keeper, buyer and head of a house doing a large trade.

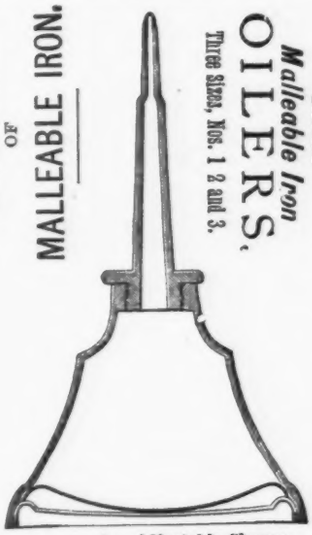
The merchant who stays at home can see how men work on the road.

The book-keeper can learn how his letters and drafts are looked upon by the men he writes to.

The stock clerk can get points about shipping goods and filling orders.

Those who advertise can learn from one of the best advertisers in the United States.

Actual names of men and houses are given, but not a line in the book has been paid for in any way.



If men were complimented, it was because the author felt that they deserved it, and others are condemned fearlessly.

Sent, postpaid, on receipt of the price, 75 cents, by

PATENT COMBINATION WRENCH.
Case-Hardened Throughout. Parts Interchangeable.
This wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PATENT PIPE WRENCH.
The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

OUR BALL BEARING ROAD CARTS.

For riding, are just like a BICYCLE in ease of movement.

Do you realize the importance of a ball bearing? If you don't you would make money by ascertaining what it is and does when applied to a road cart such as we make. Write and we will send you a description.

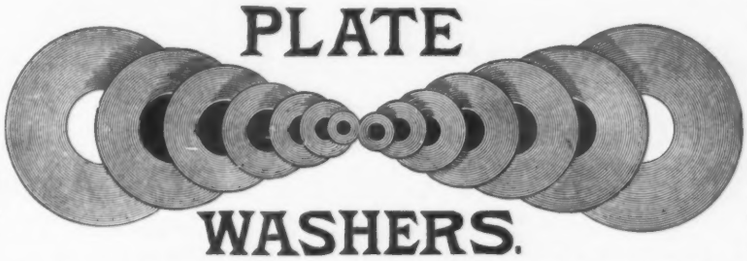
Parry Mfg. Co., Indianapolis, Ind.

HOW TO KEEP A STORE.

By S. H. TERRY.

406 PAGES, 5x7½ INCHES.

This book should be in the hands of every one interested in the selling of goods at retail. Among the subjects discussed are: The selection of a business; choice of a locality; buying a stock of goods; examining, marking and arranging goods; how to advertise; employment of clerks; selling for cash and credit; keeping accounts; expenses; copartnerships; losses by fire, theft, &c.; influences of social life on business; buying at auction; investment of profits; insolvency; business qualifications. Every branch of the retail trade is treated upon in a direct, business-like manner. It is a thoroughly practical book for merchants and clerks. **Price, $1.50.**



Sent, postpaid, on receipt of price by DAVID WILLIAMS, 66-68 Duane St., N. Y.

Friction Clutches.
Moore & White Co., Philadelphia, Pa.
Springfield Foundry Co., Springfield, Mass.

Fuel Burner
Aerated Fuel Co., Springfield, Mass.
Archer, J. B., 45 Broadway, N. Y.

Furnaces, Foundry.
Byram & Co., Detroit, Mich.

Gas Producers.
Taylor Gas Producer Co., Phila., Pa.

Gas & Steam Fitters' Supplies.
Pancoast & Maule, Phila., Pa.

Gears.
Lexington Gear Wks, Lexington, Mass.

Gear Cutters.
D. E. Whiton Mach. Co., New London, Conn.

Glass Boards.
Lufkin Rule Co., Cleveland, O.

Glass Cutters.
Monce, S. G., Bristol, Conn.

Glue.
Russia Cement Co., Gloucester, Mass.

Grinding and Polishing Mchy.
Cutter & Wood, Boston, Mass.
Diamond Mach. Co., Provid[illegible]e R. I.

Grindstone Dressing Machinery.
Blake & Johnson, Waterbury, Conn.

Grindstones.
Cleveland Stone Co., Cleveland, O.

Gunpowder. *Makers of.*
Laflin & Rand Powder Co., N. Y.

Hand Carts.
Lansing Wheelbarrow Co., Lansing, Mich.

Hardware Comm'n Merchants.
Doscher, Martin, 88 Chambers, N. Y.
Field, Alfred & Co., 93 Chambers. N. Y.
Jacobus. W. H., 90 Chambers, N.Y.

Hardware Manufacturers.
Brittan, Graham & Mathes, Pittsburgh, Pa.
Kenton Lock Mfg. Co., Kenton, Ohio.
Moore Mfg. & Fdry Co., Milwaukee, Wis.
Shepard Hdw. Co., Buffalo, N. Y.
Union Mfg. Co., 103 Chambers, N. Y.
Yale & Towne Mfg. Co., Stamford, Conn.

Hardware Mfrs. Agents.
Graham, John H. 115 Chambers, N. Y.
Harmon & Dixon, 118 Chambers, N. Y.
Naylor & Flack, 121 Chambers, N. Y.
Surpless, Dunn & Alder, 97 Chambers, N. Y.
Tommins & Adams, 116 Chambers, N.Y.

Hardware Specialties.
Acme Shear Co., Bridgeport, Conn.
Am. Bit. Brace Co., Buffalo, N. Y.
Belden Machine Co, New Haven, Conn.
Ellrich Hdw. Mf. Co., Plantsville, Conn.
Enterprise Mfg. Co., Philadelphia, Pa.
McLean, F. W., Pittsburgh, Pa.
Paine, Diehl & Co., Philadelphia, Pa.
Wire Goods Co., Worcester, Mass.
Underhill, Clinch & Co., N. Y.

Harness Snaps.
Covert Mfg. Co., West Troy, N. Y.

Hay Fork Pulleys.
Boston and Lockport Block Co., Boston, Mass.

Hay Knives.
Hiram Holt & Co., East Wilton, Me.

Heating, Steam and Hot Water.
Broomell, Schmidt & Co., Ltd., York, Pa.

Heavy Plate & Sheet Iron Work
Carroll-Porter Boiler & Tank Co., Pittsburgh, Pa.

Hog Rings and Ringers.
Comstock, W. A. & Co., Chicago, Ill.
St. Louis Screw Co., St. Louis, Mo.

Hoisting Machines.
Box, Alfred & Co., 314 Green, Phila.
Energy Mfg. Co., Philadelphia, Pa.
Harrington, E., Son & Co., Phila.
Lidgerwood Mfg. Co., 96 Liberty, N. Y.
Maris Machine Co., Philadelphia.
Moore Mfg. & Fdry Co., Milwaukee, Wis.
Morse, Williams & Co., Phila.
Sellers, Wm. & Co., Phila. and N. Y.
Speidel, J. G., Reading, Pa.

Hollow-Ware.
Bronson Supply Co., Cleveland, Ohio.
N.Y. Stamping Co., Brooklyn, E.D., N.Y.

Horse Nails. *Makers of.*
National Horse Nail Co., Vergennes, Vt.

Horse Shoe Cushions.
Hale, B. S. & Son, Malden, Mass.

Horse Shoes. *Makers of.*
Bryden Horse Shoe Co., Phila., Pa.
Phœnix Horse Shoe Co., Poughkeepsie, N. Y.
Rhode Island Horse Shoe Co., Providence.
The Burden Iron Co., Troy, N. Y.

Hose.
Clay, John H., Phila., Pa.

Hot-Blast Stoves.
Witherow, James P., Pittsburgh, Pa.

Hydrants, &c.
McLean, John, 296 & 298 Monroe, N. Y.

Hydraulic Jacks.
Dudgeon, Richard, 24 Columbia, N. Y.
McCoy & Sanders, 26 Warren St., N.Y.
Watson & Stillman, 204 E. 43d, N. Y.

Ice-Cream Freezers.
Shepard Hdw. Co., Buffalo, N. Y.
White Mountain Freezer Co., Nashua, N. H.

Ice Creepers.
Penn Lock Works, Philadelphia, Pa.
Sayre, L. A., Newark, N. J.
Waller, Geo. A., Seneca Falls, N. Y.

Injectors.
Jenkins Bros., New York.

Insurance, Boiler.
Hartford Steam Boiler Inspection & Insurance Co.

Iron, *Manufacturers' Agents.*
Cox, Justice, Jr., & Co., Philadelphia.
Hoffman, J. W. & Co., Philadelphia.
Levis, Henry & Co., Philadelphia.
White & McLure, Pittsburgh, Pa.

Iron, *Manufacturers of.*
Ætna Iron & Steel Co., Bridgeport, O.
Alan Wood Co., Philadelphia.
Burden Iron Co., Troy, N. Y.
Mahoning Valley Iron Co., Youngstown, Ohio.
Montour Iron & Steel Co., Danville.
Moorehead-McCleane Co., Pittsburgh,
Passaic Rolling Mill Co., Paterson.
Phœnix Iron Co., 410 Walnut, Phila.
Slatington Rolling Mill Co., Slatington, Pa.

Wilmot & Hobbs Mfg. Co., Bridgeport, Conn.

Steel, *Manufacturers' Agents.*
Gautier, D. G. & Co., 114 John, N. Y.
Hicks & Dickey, Philadelphia, Pa.
Read, Irwin & Read, Pittsburgh, Pa.

Steel Nails.
Bellaire Nail Works, Bellaire, Ohio.

Steel, Sheet.
Ætna Iron & Steel Co., Bridgeport, O.
Cambridge Iron & Steel Co., Cambridge,
Chess, Cook & Co., Pittsburgh, Pa.
Ohio.
Pope, C. E. & Bro., Pittsburgh, Pa.
Standard Iron Co., Bridgeport, Ohio.

Steel Spiral Springs, *Manufacturers*
Cary & Moen, 234 W. 29th, N. Y.
Chatillon, John & Sons, N. Y.
Roland, Wm. & Harvey, Frankford.

Steel Tires.
Latrobe Steel Works, Latrobe, Pa.

Steel, Tool.
Frankford Steel Co., Philadelphia.
Jessop, Wm. & Sons, Sheffield, England, 91 John, N. Y.
Leng, John S., 4 Fletcher, N. Y.
Smith Bros. & Co., Pittsburgh, Pa.

Stocks and Dies.
Armstrong Mfg. Co., Bridgeport, Conn.
Besly, C. H. & Co., Chicago, Ill.
Billings & Spencer Co., Hartford, Conn.
Butterfield & Co., Derby Line, Vt.
Hart Mfg. Co., Cleveland, O.
Saunder's Sons, D., Yonkers, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co!, Greenfield, Mass.

Stove Linings.
Ostrander, Jas. & Son, Troy, N. Y.

Stove Trimmings.
Troy Nickel Works, Troy, N. Y.

Stoves, Oil, Vapor and Gasoline.
Central Oil Stove Co., Boston, Mass.

Strops.
Electric Cutlery Co., 91 Chambers, N.Y.
J. R. Torrey & Co., Worcester, Mass.

Sulphuric Acid.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Swaging Machines.
Excelsior Needle Co., Torrington.

Tack and Nail Machinery.
Sweetser, W. A., Brockton Mass.

Tack Pullers.
Hagen & Reid, W. Troy, N. Y.

Tacks, Brads, Staples, &c.
A. Field & Sons, Taunton, Mass.
American Tack Co., 116 Chambers, N.Y.
Disosway & Henderson, 165 Greenwich, N. Y.
Dunbar, Hobart & Co., 39 Warren, N Y.
Florence Tack Co., Florence, Mass.
National Screw & Tack Co., Cleveland, Ohio.
Phillips, E. & Sons, South Hanover.
Plymouth Mills, Plymouth, Mass.
Trufant, W. E., Whitman, Mass.

Taps and Dies.
Butterfield & Co., Derby Line, Vt.
Manning, Maxwell & Moore, 111 Liberty, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Testing Machines.
Riehle Bros., Philadelphia,

Thill Springs.
Frost Thill Spring Co., Boston, Mass.

Toe Calks, Steel.
Burke, P. F., Boston, Mass.

Tools.
Am. Bit Brace Co., Buffalo, N. Y.
Atkins, E. C. & Co., Indianapolis, Ind.
Britton, Horace E., Stoughton, Mass.
Brown, R. H. & Co., New Haven, Conn.
Humphrey Tool Co., Warren, Mass.
Standard Tool Co., Athol, Mass.
Stanley Rule & Level Co., 29 Chambers, N. Y.
Starrett, L. S., Athol, Mass.

Tool Chests.
Am. Tool Co., 200 W. Houston, N.Y.

Tools and Machines (Tinners').
Niagara Stamping and Tool Co., Buffalo, N. Y.

Tools, Blacksmith and Wheelwrights.
Illinois Iron & Bolt Co., Carpenterville, Ill.
Silver Mfg. Co., Cleveland, O.

Tools, Steam and Gas Fitters'.
Enterprise Co., Sandwich, Ill.
Saunders' Sons, D., Yonkers, N. Y.

Torches, Gasolene.
Dangler Stove & Mfg. Co., Cleveland, O.
Schneider & Trenkamp, Cleveland, O.

Transom Lifters.
Wollensak, J. F., Chicago, Ill.

Tripoli.
Am. Tripoli Co., Carthage, Mo.

Trucks, *Manufacturers of.*
Boston & Lockport Block Co., Boston, Mass., and Lockport, N. Y.
Lansing Wheelbarrow Co. Lansing, Mich.

Tube Scrapers.
Chalmers-Spence Co., 419 8th, N. Y.

Tubes, Seamless Drawn Copper.
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Bridgeport Brass Co., 19 Mur'y, N. Y.
Randolph & Clowes, Waterbury, Conn.

Tubes, Steel.
Leng, John S., 4 Fletcher, N. Y.
Spiral Weld Tube Co., 5 & 7 Beekman St., New York.

Tumbling Barrels.
Henderson Bros., Waterbury, Conn.

Turnbuckles.
Anthony & McElroy, Philadelphia, Pa.
Carnegie, Phipps & Co., Ld., Pittsburgh, Pa.
Cleveland City Forge and Iron Co., Cleveland, O.
Merrill Bros., Brooklyn, E. D.

Typewriters.
Smith-Premier Typewriter Co., Syracuse, N. Y.

Twist Drills, *Makers of.*
Cleveland Twist Drill Co., Cleveland.
Morse Twist Drill & Machine Co., New Bedford, Mass.
Standard Tool Co., Cleveland.

Valves, Gas, Water and Steam.
Chapman Valve Mfg. Co., Boston.
Jenkins Bros., 71 John, N. Y.
Leng, John S., 4 Fletcher, N. Y.
Ludlow Valve Mfg. Co., Troy, N. Y.
Lunkenheimer Brass Mfg. Co., Cincinnati, Ohio.
McNab & Harlin Mfg. Co., 56 John N. Y
Mason Regulator Co., Boston, Mass.

Ventilator Appliances.
Howard & Morse, 45 Fulton, N. Y.

Vises.
Howard Iron Works, Buffalo, N. Y
Prentiss Vise Co., 23 Dey, N. Y.

Wagon Jacks.
Boston & Lockport Block Co., Boston Mass., and Lockport, N. Y.
Higganum Mfg. Corp., Higganum, Conn

Washers.
Milton Mfg. Co., Milton, Pa.

Welding Machines.
Thomson Electric Welding Co., Boston

Well Machinery.
American Well Works, Peoria, Ill.

Wheelbarrows.
Lansing Wheelbarrow Co., Lansing, Mich.
McNeil, G. C., Akron, Ohio.

Wheels.
Quincy Metal Wheel Co., Quincy, Ill.

White Lead.
Atlantic White Lead and Linseed Oil Co., 287 Pearl, N. Y.
Lewis, John T. & Bros. Co., Phila.
Southern White Lead Co., St. Louis, Mo.

Window Cord, *Makers of.*
Samson Cordage Works, Boston, Mass.

Wire, *Manufacturers of.*
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Cary & Moen, 234 W. 29th, N. Y.
Emmons, F. R. & Bro., 21 Warren, N. Y.
Fuller Bros. & Co., 139 Greenwich, N. Y.
Gautier Steel Department of Cambria Iron Co., Johnstown, Pa.
Salem Wire Nail Co., Salem, O.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg. Co., Worcester
Wetherell Bros., 93 Liberty St., N. Y.
Wolff, R. H. & Co., Ltd., 118th St. and Harlem River, N. Y.
Worcester Wire Co., Worcester, Mass.

Wire Cloth.
Barnum, E. T., Detroit, Mich.
Clinton Wire Cloth Co., Clinton, Mass.
Darby, Edward & Sons, Philadelphia.
Estey, W. S., 71 Fulton, N. Y.
Gilbert & Bennett Mfg. Co., 42 Cliff N. Y.
Howard & Morse, 45 Fulton, N. Y.
Wickwire Bros., Cortland, N. Y.
W. S. Tyler Wire Works Co., Clev'd.
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Cutters.
Higganum Mfg. Corp., Higganum, Conn
King, J. M. & Co., Watertown, N. Y.

Wire Door Mats.
Hartman Mfg. Co., Beaver Falls, Pa.
The Wire Goods Co., Worcester, Mass.

Wire Fences.
Gilbert & Bennett Mfg. Co., 42 Cliff
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Goods, *Manufacturers of.*
Darby, Edward & Sons, Phila.
Gilbert & Bennett Mfg. Co., N. Y.
Hollow Cable Mfg. Co., Hornellsville.
E. Jenckes Mfg. Co., Pawtucket, R. I.
Ludlow-Saylor Wire Co., St. Louis.
Whitman & Barnes Mfg. Co., Syracuse, N. Y.
Wire Goods Co., Worcester.
Wickwire Bros, Cortland, N. Y.

Wire Machinery.
Adt, John & Son, New Haven, Conn.
Manville, E. J. Mch. Co., Waterbury, Ct

Wire Nail and Tack Machines.
Eckstein, Chas. G. & Co., 32 Liberty,
Sweetser, W. A. Brockton, Mass.

Wire Nails.
American Tack Co., Fairhaven.
Braddock Wire Co., Pittsburgh, Pa.
Dunbar, Hobart & Co., 39 Warren, N. Y.
Field, A. & Sons, Taunton, Mass.
Phillips, E. & Sons, South Hanover.
Phillips, Townsend & Co., Phil., Pa.
Plymouth Mills, Plymouth, Mass.
Salem Wire Nail Co., Salem, O.

Thompson, Richard Co., Ltd., 105 Chambers, N. Y.
Trufant, W. E., Whitman, Mass.
Whitney, A. R. & Co., New York City.
Wire Goods Co., Worcester.

Wire Rods, Steel.
Illinois Steel Co., Chicago, Ill.
New Castle Steel Co., New Castle, Pa.
Whitney, A. R. & Co., 17 B'way, N. Y.

Wire Rope, Iron and Steel *Makers.*
Broderick & Bascom, St. Louis, Mo.
California Wire Works, San Francisco
Hazard Mfg. Co., Wilkesbarre, Pa.
A. Leschen & Sons Rope Co., St. Louis
Washburn & Moen Mfg. Co., Worcester Mass.
Williamsport Wire Rope Co., Williamsport, Pa.

Wire, Spool.
Tate & Co., Malden, Mass.

Woodenware.
Tucker & Dorsey Mfg. Co., Indianapolis, Ind.
Udell Woodenware Wks, Indianapolis, Ind.

Wood-Working Machinery.
Egan Co., Cincinnati, O.
Seneca Falls Mfg. Co., Seneca Falls N. Y.

Wrenches, *Manufacturers of.*
Bemis & Call Hardware & Tool Co. Springfield, Mass.
Billings, Spencer & Co., Hartford, Conn.
Capitol Mfg. Co., Chicago, Ills.
Coes Wrench Co., Worcester, Mass.
Graham, Bailey & Co., Buffalo, N. Y.
Trimont Mfg. Co., Roxbury, Mass.
Williams, J. H., Brooklyn, N. Y.

Wringers.
Foos, G. S. Company, Springfield, O.

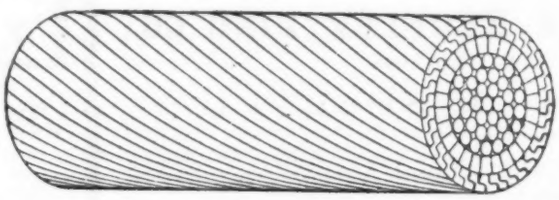
THE TRENTON IRON CO., Trenton, N. J. COOPER, HEWITT & CO., New York.



—MANUFACTURERS OF—

IRON AND STEEL WIRE

of every description, plain, galvanized, tinned and lead-coated; spiral ribbon fence wire; steel wire ties for baling hay, straw, rags, excelsior, &c., &c., &c.

IRON AND STEEL WIRE ROPE

for all purposes, including cables of the best quality and of any desired length for street cable roads. The attention of all users of wire rope is specially called to the Trenton Iron Co.'s

Patent Locked Wire Ropes

which are far superior to any other in tensile strength and durability; from the fact that the wires in these ropes are interlocked, "unstranding" or projection of broken wires is impossible, and consequently a smooth surface only is constantly presented to the sheave or drum, causing these latter to last indefinitely. One of these locked wire ropes working under ordinary conditions will outwear two or three ropes of the ordinary style. The Trenton Iron Co. also call attention to their

Patent Wire Rope Tramways (Bleichert system)

also their hoisting and conveying plants for quarries, open cut mines, docks and contractor's work. Haulage and transmission of power by wire ropes a specialty. Surveys made and plans furnished at moderate rates by competent engineers.

JUST PUBLISHED.

The Metallurgy of Steel.

BY

HENRY M. HOWE.

Price, - - - - *$10.00*

This work is the most notable contribution to the literature of iron and steel metallurgy ever published. This series of papers on the subject have, during the past two years, attracted world-wide attention and have received the heartiest commendation from all quarters. The volume now published presents this material in much more convenient shape, with considerable additional matter, giving the results of the most recent research, experiment and practice. Also presenting a complete review of all important conclusions reached by earlier investigators. Every statement and citation has been carefully weighed and verified, and the references to the literature of the subject are given minutely, the book thus furnishing in itself a key to the whole range of steel metallurgy. It also furnishes the results of much new and original investigation, specially undertaken for the present work. Every metallurgist, every manufacturer of steel in any form, and all who are interested in the iron or steel industries, and all engineers who use iron or steel should have this standard work and cannot afford to be without it.

TABLE OF CONTENTS:

Chapter I.—Classification and Constitution of Steel.
Chapter II.—Carbon and Iron, Hardening, Tempering and Annealing.
Chapter III.—Iron and Silicon.
Chapter IV.—Iron and Manganese.
Chapter V.—Iron and Sulphur.
Chapter VI.—Iron and Phosphorus.
Chapter VII.—Chromium, Tungsten, Copper.
Chapter VIII.—The metals occurring but sparingly in iron.
Chapter IX.—Iron and Oxygen.
Chapter X.—Nitrogen, Hydrogen, Carbonic Oxide.
Chapter XI.—The Absorption and Escape of Gas from Iron.
Chapter XII.—The Prevention of Blowholes and Pipes.
Chapter XIII.—Structure and related subjects.
Chapter XIV.—Cold Working, Hot Working, Welding.
Chapter XV.—Direct Processes.
Chapter XVI.—Charcoal-Hearth Processes.
Chapter XVII.—The Crucible Steel Process.
Chapter XVIII.—Apparatus for the Bessemer Process.
Appendix I.—Special Steels.
Appendix II.—Anti-Rust Coatings.
Appendix III.—Lead Quenching.

EXPANDED METAL

Is the "Trade" name for Plates of Soft Steel cut and opened out into webs of diamond or other shaped mesh.

SUBSTANTIAL, LIGHT AND CHEAP.

FENCING.

Is used extensively for **Rail Road, Cemetery, Farm, Village and Lawn Fences, Gates, Skylight, Window and Elevator Guards, Office Railings and Partitions, Chicken Yards, Tree Guards, Grape Arbors, Lattice and Ornamental Lawn Work. More durable than wire.**

Our Steel Lath commends itself to Architects and Builders as the best metallic lath in use.

It requires no stretching or furring; its form makes it rigid, and yet it can be readily molded to any required curve or angle. Gives a perfect "key" throughout.

Specify our Lath to reduce the fire risk on your buildings.

SOFT STEEL PLATES.

We are making a specialty of soft steel plates for Blanking and Stamping, with clean, smooth surface, rolled carefully as to gauges, ranging from No. 9 to 16 inclusive, in widths up to 15½ inches, and to any multiples of length desired.

We can also furnish plates freed from scale and so treated as not to rust readily before using.

By the use of these, instead of raw plates in Stamping, the great saving of wear on costly dies and increased production of better work will more than cover the increase of cost over that of raw plates. Trial orders solicited in small or large quantities.

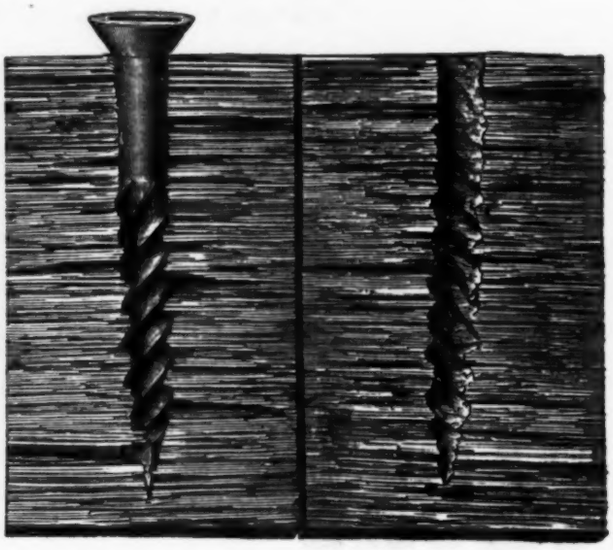
AMERICAN SCREW COMPANY



PROVIDENCE, R. I.

Chicago Store, No. 19 Lake St. EUROPEAN AGENTS, THOMAS & STIRLING, Liverpool.

"ROGERS' DRIVE SCREWS."

Patented May 10, 1887; July 19, 1887; July 10, 1888. Other patents pending.

A common cut thread screw as ordinarily inserted—*i.e.*, driven two-thirds of its length with a hammer and the balance with a screw driver. Fibres of the wood are necessarily broken, and holding power of screw much impaired.

The "ROGERS' DRIVE SCREW" driven with a hammer its entire length. It revolves as it goes in and does not break the fibres of the wood, but makes its own nut of the cavity it forms.

The foregoing illustrations speak for themselves, but we call attention to a few advantages of the "ROGERS' DRIVE SCREWS."

1. Stiffness, adapted for driving with a hammer.
2. Rapidity of insertion.
3. Increased holding surface.
4. Ability to be driven with hammer and withdrawn with Screw Driver numerous times from same hole.
5. Superior Head, which will withstand blows of a hammer and not impair the slot.
6. Improved Slot, admitting the use of a heavier Screw Driver.
7. A "ROGERS' DRIVE SCREW" of small diameter will hold as much as a common screw of larger diameter.

List prices, same as common iron wood screws. Discount for Flat Heads, 66⅔%.

Samples Sent on Application.

HARROW TOOTH STEEL,

tough, strong and hard. Wears well in the ground. In multiple bars or sheared to lengths.

The Iron-Masters' LABORATORY.

Exclusively for the

Analysis of Ores of Iron, Pig and Manufactured Iron, Steels, Limestone, Clays, Slags and Coal for Practical Metallurgical Purposes.

339 Walnut St., Philadelphia.

With Branch at Warrenton, Virginia.

J. BLODGET BRITTON.

This laboratory was established in 1866, at the instance of a number of practical Iron Masters, expressly to afford prompt and reliable information upon the chemical composition of the substances above mentioned, for smelting and refining purposes, the object being to make it at once a convenient, practically useful, and comparatively inexpensive adjunct to the Furnace, Forge and Rolling Mill.

The Midgley Patent Wire Belts.

ENDLESS WIRE BELT, about ⅛ size.

Black Diamond Steel Works,
Lake Superior Copper Mills.
PARK, BROTHER & Co., Limited.
Pittsburgh, Sept. 2d, 1890.

MIDGLEY WIRE BELT CO, Beaver Falls, Pa.

Dear Sirs:—In reply to your inquiry, we would say we have had one of your 3-ply wire belts in constant use, running day and night, for the past three months. It is 22 inches wide by 96 feet long, weighing more than 1200 pounds. It has distributed all the power from a 200-horse automatic engine direct to a train of rolls rolling steel. We had formerly used a 3-ply leather belt. The belt is still in use and can be seen at our works.

Yours truly,
PARK, BROTHER & CO., Limited.

Oct. 26, 1890.—The belt referred to by Messrs. Park, Bro. & Co., has one side covered with rubber and runs on iron faced pulleys, and took the place of a 3-ply leather belt, and to this date has been in constant use for about six months. The Messrs. Park are the largest manufacturers of Cast Steel in America if not in the world.

To THE MIDGLEY WIRE BELT CO., Beaver Falls, Pa. Beaver Falls, Pa., September 1st, 1890.

Gentlemen: We are pleased to inform you that we have been running our entire factory for nearly two years with a 30-inch Double Tempered Wire Belt which took the place of a 24 inch double leather belt. Our power is a 15 x 30 Buckeye Engine. We covered our pulleys that the belt runs on with leather, and since we put it into use it has distributed the speed perfectly regular, which we never were able to do with leather on account of slippage. We have also an 8-inch Double Wire Belt 8 in. x 68 ft. long that drives our grinding machine for circular saw. It took the place of a 6-ply rubber belt made especially for us in Boston. It has now been in constant use more than a year, and has only been taken up twice in that time The rubber belt lost over 12 feet of stretch in less than one year's use.

We really consider this the severest use a belt can be put to. In our emery grinding room we have had a 2½ operating a very high speed emery grinder and running at 9000 feet per minute over a 3¼ inch pulley. We have various others in various departments, and every belt a perfect success. In fact, as fast as our leather and rubber belts give out, we put on in its place your Wire Belt, and all are entirely successful.

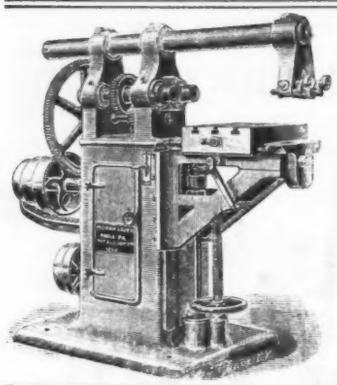
EMERSON, SMITH & CO., Limited, Saw Manufacturers.

☞**AGENTS WANTED** in all large localities and cities in the United States where any considerable quantities of Belting are used. To persons who will write to us, giving suitable references for their responsibility, and with a good practical knowledge of how to use Belts and operate them, we can offer a profitable inducement to handle our New Patent Wire Belting. For full particulars and descriptive circulars fully illustrated, address with full name and post office plainly written,

THE MIDGLEY WIRE BELT CO., Beaver Falls, Pa.

LABOR SAVING TOOLS AND MACHINERY

New Improved Patent Quick Adjustable and Self-Opening Slip Roll Formers, all sizes required. A revolution as to quickness and ease of operations. The mere outward swing of the top roll hinge housing will elevate top roll to remove the formed metal. Same is perfectly balanced and is thus opened and closed in one operation, as will more clearly be seen by another cut, this space in another issue. Other Improved Quick Adjustments of merit not mentioned. All sizes, 2-in. to 14-in. Rolls, also Crimping or Corrugating Rolls.



Improved patent general purpose Punch and Stock Shear for bar iron and slitting sheets, &c. Two levers, (7) sizes, for light or heavy work. Also Lever Stock Shears and Punches made separate, and Power Punches.

Improved Combined Squaring and Slitting Shears, with 12 in., 15 in. or 18 in. throat, to slit wide sheets as may be desired, and of any length. Complete for tin or iron up to No. 16 or 14 gauge with the Patent Lever Attachment for additional power. Provided with drop leaf tables and trimming gauge. Eight different styles up to 10 ft. in length. Also light and heavy Power Shears.

BERTSCH & CO.,
Cambridge City, Ind.

THOMSON ELECTRIC WELDING CO.

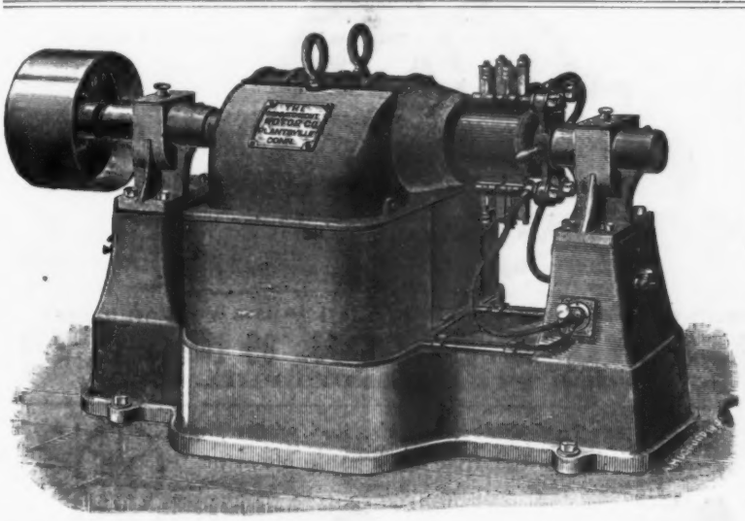
SPECIAL ANNOUNCEMENT.

We have now perfected and are ready to place upon the Market an

IMPROVED ELECTRIC WELDER

Adapted to miscellaneous work. The following sizes are now being built:

Type 20.—Capacity from $\frac{1}{8}$ up to $1\frac{1}{4}$ square inches of Iron or Steel.
Type 40.—Capacity from $\frac{1}{4}$ up to 3 square inches of Iron or Steel.
Type 60.—Capacity from $\frac{1}{2}$ up to 5 square inches of Iron or Steel.



These machines are fitted with interchangeable clamps and so adapted to a large variety of work. They can be operated by any machinist.

Their simplicity of construction and adaptability to the general wants of metal workers make them invaluable to those who cannot advantageously use our larger welding plants.

FOR FURTHER PARTICULARS, ADDRESS

OUR ADVERTISEMENT WILL FOLLOW IN THIS SPACE.

The Star Water Tool Grinder

Is the BEST, SIMPLEST and CHEAPEST

Water Grinder made; they have no pumps or valves to wear out and to be replaced, no piping to supply them with water, the water is applied underneath of the wheel, automatically, in a spray, the same as putting it on with a sprinkling can, and which can be regulated as desired; this overcomes flooding the wheel, a trouble so well known in other Water Grinders, where the water is put on in a body or by pumps and running all over the hands of the operators, tool or article to be ground

ARE YOU IN WANT

Of a handsome paint for your roofs that will not require repainting for 10 to 15 years?

DIXON'S GRAPHITE PAINT is now on roofs that were painted 10 to 15 years ago and the owners recommend it in the highest terms.

It is economy to use it.

It is equally useful for tin or shingle roofs, bridges, stand-pipes and all iron work.

We shall be glad to send you a convincing circular.

JOS. DIXON CRUCIBLE CO.,

JERSEY CITY, N. J.

Fluor-Spar.

MULLINS'

Fluor-Spar and Lead Mining Co.,

220 First National Bank Building

CHICAGO, ILL.

This Company owns, at Mineral City, on the Ohio River, the largest Mines of Fluor-Spar ever discovered.

We are working a large force of miners; our new mills and tram railway are running, and we are now prepared to furnish the purest Fluor-Spar in any quantities to Iron and Steel Manufacturers, to Smelters of Gold, Silver and Copper, and to Paint, Paper and Glass Makers.

Fluor-Spar is pronounced the most powerful of fluxes; it facilitates the reduction of the most refractory materials. For Alkalies, Clays, and all Metallic Oxides it has a remarkable solvent power; it reduces the melting point, and saves fuel; it diminishes the loss of metal, saves labor, and keeps the cupola clean; reacts strongly upon scaffolds and cloggings.

One part of Fluor-Spar is more effective than ten parts of Limestone. Limestone is an enemy to iron; Fluor-Spar is a friend.

Directions for the proper use of Fluor-Spar given our patrons.

We ship Lump, Gravel, Crushed and Ground, in bulk or barrel.

SPECIAL NOTICE

TO CONSUMERS OF CHARCOAL IRON.

Wyebrooke Charcoal Pig Iron, strictly cold blast.
Has splendid chilling qualities and great strength.

R. facilities. For plans &c., apply to
W. G. HOWELL,
3343 North 17th, St., Philadelphia.

Iron Bridge M'f'r's.

The demand in the South for Iron Bridges and buildings is now very large and growing. A Bridge and Structural Iron Works in the South would have an abundance of orders and pay large dividends from the start, if it was located accessible to coal, on competing lines of R. R., and where material of good quality could be readily secured. Buchanan, Va., presents all of these advantages. It is on two trunk lines of R. R., with two more located; it is in the midst of the great iron and coal fields of the Virginias, and the Central Land Co., of Buchanan not only offers free sites but financial aid from its large cash development fund ($400,000). This is a rare opportunity to a pushing, energetic Bridge Builder. Buchanan also seeks associate industries on similar terms. Address CENTRAL LAND CO. of Buchanan, Buchanan, Va.

For Sale or Lease.

A Rolling Mill in the city of Chicago, well equipped and located for city trade. Capacity of about 100 tons of bar iron per day. It has one 10 in. and one 18 in. train, also one 18 in. muck train. Owners will take all or part of pay in bar iron. For particulars address
"ROLLING MILL,"
office of *The Iron Age*, 59 Dearborn St., Chicago.

WE HAVE FOR RENT one of the most extensive manufacturing properities on the Hudson, within 13 miles of Grand Central Depot, unsurpassed for its railroad and dock facilities; with engine, boiler and other machinery; manufacturers looking for such a property will do well to give this consideration; send for diagram and description.
WILLIAM H. HOYT & CO.,
5 Vanderbilt Ave., opposite Grand Central Depot, New York.

FIBRE HEAD MALLETS

PATENTED JANUARY 18, 1887.

Wood Body and Handle, thoroughly Kiln-dried. Malleable Bands. Heads easily replaced.

The heads of our Mallets and Chisel Handles are tipped with a layer of Vulcanized Fibre This is a Vegetable Compound, which by means of chemical processes and being subjected to a pressure of 200 tons is changed to a solid. It is tough, elastic and practically indestructible.

We claim that a mallet or handle reinforced with this material will outwear ten ordinary ones.

Sent, postpaid, on receipt of price, by

David Williams, 66 and 68 Duane St., N. Y.

Flat crucible steel backs, polished. Beech handle, polished edges, three brass screws.

Price of the Handles without Blades:

Inches,	14	16	18	20	22	24
Per dozen..	$8.00.	$9.00.	$10.00.	$11.00.	$12.00.	$13.00.

STAR BUTCHER ★ SAW BLADES.

Length.	Width.	Gauge.	Teeth to inch.	Per doz.
14 and 16 inches.	½ inch.	24	9½	$1.08
18 " 20 "	½ "	24	9½	1.20
22 " 24 "	¾ "	24	9½	1.32

A Common Butcher's Saw Blade costs 50 cents; it is usually filed about 150 times, and at a cost of 10 cents a time, $15.00. Two dozen Star Butcher Saw Blades will do the same amount of work, they cost $1.32 per dozen and are never to be filed. If the dealer makes 25 per cent.

In selling 24 Star Blades for $2.64 he gets	66c.
" " 1 Common " " .50 " "	12½c.
A clear gain of	53½c.
The Butcher pays for 1 common blade and filing,	$15.50
" " " " 24 Star " no "	2.64
A clear gain of	$12 86

As the Star Saw is never to be filed, it is tempered six times as hard as the common saw, and will last six times as long without filing. A great change is taking place in this Butcher Saw business.

CRANE COMPANY, - - Kansas City, Mo.

BUCKET PUMP AND PURIFIER

For Wells and Cisterns of any Depth.

Warranted to Purify a Foul Well or Cistern in Ten Days' Use or Money Refunded.

It will draw ten gallons of water per minute.
Never has to be packed, primed or thawed out.
A ten-year old boy can draw water with ease from a 40-ft. well.
No iron tubing to rust or burst. No suckers or valves to wear out.
It has no wooden tubing to wear out, decay or pollute the water.
It will not rust or corrode, as the chain is made of galvanized iron.
It is the simplest and most durable structure made for raising water.
It can be set up in 15 minutes, as there is nothing to fasten below the platform.
It will not freeze, having stood the test of a Dakota winter, 38 degrees below zero, as the buckets discharge themselves.
Has no leather, rubber or wood in contact with the water to contaminate it.
You do not have to pump out a pailful of water to get a fresh, cool drink for every bucket goes down full of air to the bottom and fills with cold water as the air escapes.

BUCKET PUMP CO.,

(Sole owners of patents for the U. S. and Canada)

441 and 443 Plum St., CINCINNATI, O.

EXCLUSIVE AGENCIES GIVEN.

Beware of infringers. No perfect working Pump can be made on this principle without infringing on our patents.

ENTERPRISE SPECIALTIES

New Champion Force Pump.

With vacuum and air chambers, brass cylinders and brass valve seats—continuous discharge—working parts readily accessible.

Reversible Float Valve For high or low pressure. Positive in action.

Pipe Vise—For bench or wagon. A low-priced, serviceable tool, capacity 5-8 in. rod to 2 in. pipe.

Ratchet Die Stock—For plumbers, pump men, gas fitters; threads pipe in corner, in ditches, in wells, or other difficult places.

ENTERPRISE CO., Sandwich, Ill.

It has no equal for hard service. The reinforced piece stiffens the back and braces the ends.

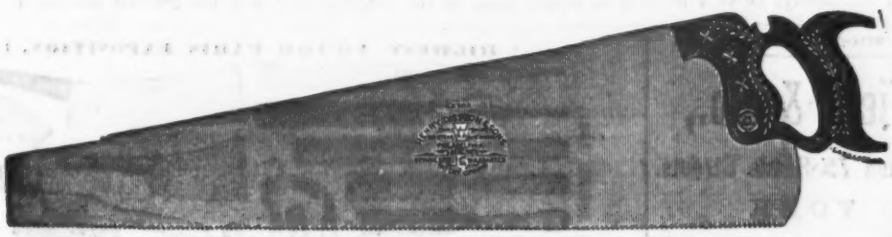
"If you want a Saw it is best to get one with a name on it which has a reputation.
A man who has made a reputation for his goods knows its value as well as its cost and will maintain it."—HENRY DISSTON.

THE SAWS THAT LEAD THEM ALL

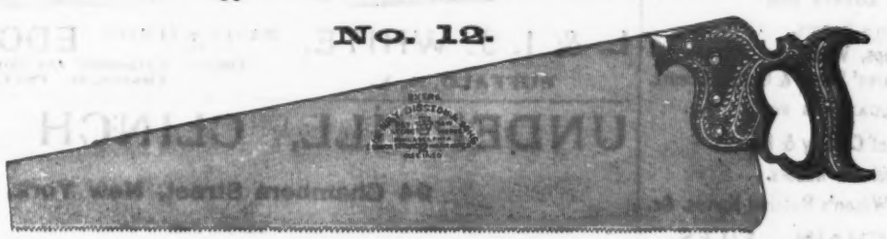
"THE SAW;" HOW TO CHOOSE IT, AND HOW TO KEEP IN ORDER, Sent Free on Receipt of Name and Post Office Address.



DISSTON & SONS' PATENT D-8 HAND SAW.

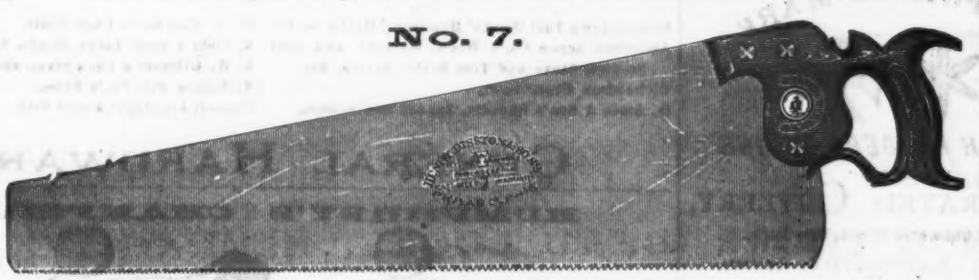
This Saw combines all the valuable improvements in Hand-saws that have been made by us of late. The first and most important is the hollow or skew-back, the success of which can best be attested by the number sold. The peculiar shape of the butt or heel, coupled with the new method of fastening to the handle, give a full stroke of the blade without fear of catching or hooking in the work; and as the handle is put further on the blade you have a full stop on the proper point and a greater command over your Saw, by reason of being two inches nearer the point, which must give more power.

The Saw being let into the handle on a circle, has a perfect bearing, which, with the new screws, makes it stronger and almost impossible to work loose, and avoids the unsightly gap that is seen on the back of the old style handle. All the above features are patented.



Our New No. 16 Premium Saw.

AN EXTRA FINE SAW IN EVERY RESPECT.



Having the Latest Close up Handle, Spring Steel Blade, Extra Thin Back, Finely Grained, with an Apple Handle and Four Brass Centennial Screws.

No. 12.

ORDER A SAMPLE DOZEN.

AN ELEGANT HOLIDAY PRESENT.

The above illustrates one set of **PLATED KNIVES** and **FORKS**, ½ Doz. each, **PACKED IN FANCY CARVED HARDWOOD BOX. NO EXTRA CHARGE FOR BOX.**

These knives are made in one piece from finest crucible steel, well forged and evenly tempered by the latest improved process, and specially ground and polished for silver plating. Twelve (12 DWT.) pennyweight of pure silver is used in plating each dozen, and every part of each knife is hand burnished by experienced workmen, rendering plating hard and durable. Our sales of these Silver Plated Knives and Forks during the past year, and the growing demand for them, are assurances that their worth is known; a TRIAL will convince you that we have not overrated them.

Take advantage of our low prices and send us your orders early, on account of the

STEADILY INCREASING COST OF SILVER.

We also manufacture a large assortment of other goods, consisting of a full line of TABLE CUTLERY, BUTCHER KNIVES, CARVERS, BREAD KNIVES, KITCHEN KNIVES, SHOE KNIVES, BONNING KNIVES, HUNTING KNIVES, PUTTY and CIGAR KNIVES, STICKING and SKINNING KNIVES, BUTTER AND CHEESE KNIVES and BUTCHERS' STEELS.

Our line of extra fine Table Cutlery with Fancy Handles of PEARL, IVORY, EBONY, WALRUS, COCOBOLA, RUBBER, CELLULOID and BONE, are unexcelled. They are finished in the latest patterns, best workmanship and guaranteed extra quality steel.

AND EVERY THING FOR

SHARPENING

EDGE-TOOLS.

If you **want the best Scythe-stones** buy the following celebrated brands:—The **"Indian Pond Red Ends,"** which have been made for about 70 years, and the sale of them extends to-day all over the world, and the demand for this stone exceeds all others. They are quick cutting, strong and do not glaze. The **"Lamoille Scythe-stone"** is also well-known, and has the reputation of being the best stone in the world to give a keen, smooth edge. The **"Black Diamond Scythe-stone"** is of the same grit, but superior finish, and is the handsomest scythe-stone in the market. The **"Ragg," "Willoughby Lake." "Green Mountain," "Diamond Grit," "White Mountain," "Farmer's Choice,"** and **"Extra Quinnebaug"** are all choice stone, coming from the best quarries which have been discovered in long years of effort and experience. These stones are carefully selected and handsomely packed and are sure to sell with satisfaction and profit.

THIS is our Patent Spool Box and is indispensable to the retailer. It contains eight sizes of wire picture cord, of any kind desired, on spools of 100 yds. each. The Leonard Patent Portable Storm Houses.

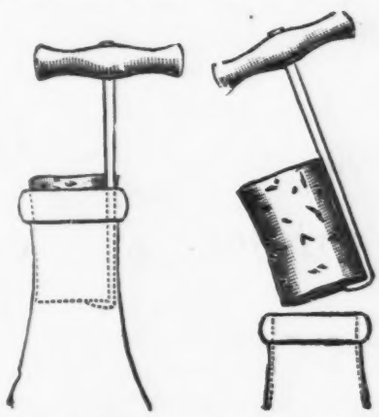
A long-felt Want Supplied. Comfort and Economy Assured.



The sides and roof are constructed of Corrugated Iron set in a frame of Michigan Pine. The front is a good five panel sash door set in a frame of 2 x 4 pine. The upper panel is set with glass. The whole is neatly painted—two coats and two colors. Has a good latch with porcelain knob, and door spring. It is **Ornamental, Light, Strong, Cheap and Durable.** Anybody can set it up or take it down. Not necessary to have a carpenter. Storm Doors can be taken away in case of removal. The sides of the house are hinged to the front and fold inwards. The gables are hinged to the roof and fold inwards. The whole structure is only six inches thick when folded. To set it up, hook the edges to the door frame and adjust the roof to the top of the door frame. A notch may be sawed in the bottom rail for a projecting step or threshold if necessary. They save their cost in fuel every year, besides the comfort they give. Exclusive agencies given.

ADDRESS

The Iron Cottage Co., Grand Rapids, Mich.

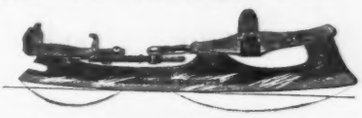
ARCTIC ICE DOGS.

These Ice Dogs or Creepers, designed to secure safe footing on slippery pavements, are the simplest and best ever invented. They consist of a very light, malleable casting of the best quality of iron, fitted for the sole of the shoe and fastened to the foot by means of a toe-strap and an endless elastic band drawn high over the heel, thus holding the dog to its place, and being easy of adjustment, is very quickly put on or taken off.

There are two sizes, for ladies and gentlemen respectively, and the peculiar adjustment attaches them equally well to boots, shoes or rubbers, without difficulty or delay.



Retail at 50c. per pair. Liberal discount to dealers.

FOREHAND & WADSWORTH'S

New Hammerless Revolver

AUTOMATIC SHELL EXTRACTING,

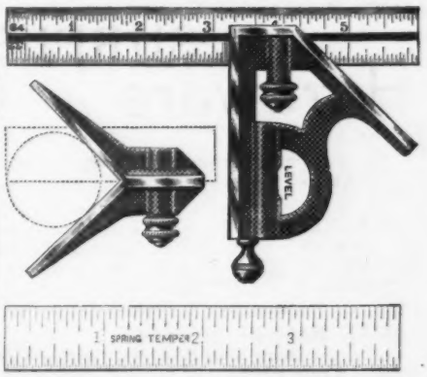
32 and 38 Centre Fire S. & W. Cartridge.

An Absolutely Safe Arm.

It has the strongest and safest barrel catch put upon any pistol, and it is impossible to unlock or tip the barrel when the discharge takes place, for in cocking the arm the barrel catch is positively locked by a safety block. It also has a safety catch to lock the hammer when it is desired to prevent accidental discharge. *Rebounding Lock.* Weight 16 ounces.

FOREHAND & WADSWORTH, Worcester, Mass., U S. A.

Sold by all dealers in arms generally throughout the United States.



Protection Against Fire!

The most simple and durable in the market. Warranted non-explosive. Always ready for use. Instantaneous in operation. Can be recharged for 10 cents in less than 5 minutes. Will extinguish over 2000 cubic feet of flame. No bottle to break, no screws to unscrew. Think of the great advantages over all other extinguishers. Write for new Catalogue.

NOTICE OF REMOVAL.

Finding our late quarters too small for our rapidly increasing business, we are pleased to inform our patrons that we have removed to the large building on Cherry, between 6th and 7th Sts. We occupy this entire building, which affords exceptional facilities for manufacturing, and trust that with an increase both of room and service to be in a position to better meet the constantly growing demand for Metal Edge Boxes and Machinery.

Thanking you for past favors, we remain,

Respectfully,

National Metal Edge Box Co.,

621-623 Cherry St., Philadelphia, Pa. Mills, Readsboro, Vt.

WASHING CLOTHES

As a rule is disagreeable, something that all sorts of devices for overcoming have been offered the public, nearly all falling far short of the ideal, however. The trade appreciating an apparatus that actually performs what its makers claim has enabled us to send out from our factory thousands of "The Anthony Wayne Washer," without a single complaint, either from the dealer or user. We are still making this machine at Ft. Wayne, Ind.

Wrought Steel Hollow Ware.

"Empire" Cold Handle Steel Spiders.

PATENTED.

The "Empire" Cold Handle Spiders are made from cold rolled wrought steel of the highest grade and finish, and are stamped from a SINGLE PIECE, and polished perfectly smooth and bright. The thickness of the steel of which the Empire Spiders are made (No. 14 Standard gauge) is a **guarantee** that they cannot **break, bend or warp.** An important feature also is that they are made **without rivets,** and **cannot leak** or the handles become loose.

The handle is reinforced in an attractive manner with a cover made of heavy tin, making a hollow ventilated handle which keeps always cool and comfortable to the hand.

The Empire SPIDERS will be found on inspection the most perfect ever made and cannot fail to give satisfaction. Our 1890 Catalogue of Patented Specialties, Acme Fry Pans, and Edgars' Patent Stove Shovels, mailed on application.

"RIVAL"
PATENT
Lawn Sprinkler.
Cheapest and Best in Use.

The Spray from it covers *upwards of* 1000 *sq. feet of lawn.* It is the only patented adjustable Sprinkler which is adaptable to any water pressure. Being made of brass, and having no revolving parts to wear out, or small opening to clog up, it can be operated with sandy or muddy water as well as clear, and will last for years. To operate, screw Sprinkler on end of hose, stick the rod in to the ground in a vertical position, adjust the acorn to suit pressure and spray wanted and it is ready for use. It may be so regulated as to throw a spray *as coarse as rain or as fine as mist*, and will make one of the most beautiful fountains imaginable. It is unequaled in merit, requires no attention and is sold at a less price than any sprinkler in the market. Remember, the RIVAL is the only Sprinkler made by which the coarseness of the spray and the area to be wet can be regulated. They are packed 1 doz. in a box, and finished either plain or nickel plated.

FULL SIZE.

¾ inch Regular Hydrant Thread, $7.60

LADD'S

DISCOUNT BOOK.

COMPRISING

Nearly 200 pages of carefully prepared and positively accurate Tables.

THESE pages contain about one hundred and twenty thousand computations, giving at a glance the net of any sum whatever, at all discounts from 1 per cent. to 95, together with a great range of combinations.

The purpose of the book is to save computing percentage in its various forms and to give results that can be depended upon without proving, thereby avoiding much brain work and the mental strain attending hastily worked computations, which have to be proved, and saving time, money and patience. The book is nicely printed and handsomely bound, and is meant for every-day use.

It covers the whole range of discounts, both simple and complex, and is therefore almost indispensable, not only to the Hardware Trade, but to

EVERY BUSINESS IN WHICH PERCENTAGE IS USED.

It will be found complete and prove its value for finding the net costs of goods, making list prices, making discounts, comparing prices, adding profit, &c.—there is no limit to its application. A few days' use by Buyer, Price Clerk, Manufacturer, or any one who has to make prices or figure discounts, will verify the claim that the book is accurate, rapid, convenient and practical.

PRICE, $3.00; DOUBLE INDEXED EDITION, $4.00.

Sent, postpaid, to any address upon receipt of price, by

David Williams, Bookseller and Publisher,

THE "SPRING" CURRY COMB.

PATENTED IN U. S, JULY 16, 1889

Foreign Patents in

Germany, France, Belgium, Great Britain and Canada, Austria, Italy, India, Australia.

A Comb that combines the strength of metal with the elasticity of a brush.

The flexibility of the loops makes this comb a wonderful device.

A FEW POINTS

"**It is as soft as a brush,**" because the loops *give* and enable the combing surface to get down into the hollows and slip over the elevations, to the great comfort of the animal and the great convenience of the hostler.

"**It is a perfect self-cleaner,**" and "**The best shedder known,**" because it is a spring, and the vibration of the coils readily frees them from all dirt and hair.

"**It cleans a horse quicker and better than other combs,**" because it has three hundred and twenty teeth which do not *track*, and because it "does not grate harshly over the surface," but accommodates itself to any and all parts of a horse, from his ears to his heels.

"**It is a very strong and well made comb,**" since the coil is made of very tough spring steel, and the shank is cast malleable and *all parts are riveted together.*

"**Its teeth do not bend out of shape**" from rough usage, because of its circular form, and because it is elastic.

"**The back is an excellent sweat scraper.**" The reasons are apparent.

The above Claims are endorsed by experts and the trade and guaranteed by the manufacturers.

PLATE WASHERS.

SUPERIOR QUALITY.

We operate our own Rolling Mills, and cut these Washers from new plate, rolled expressly for the purpose.

LOWEST PRICES.

We have Special Machinery designed and patented by S. J. Shimer & Sons, with Automatic Feed, cutting from four to six Washers at every stroke.

EVERY WASHER IS PERFECTLY FLAT WITH HOLE IN TRUE CENTRE.

All standard sizes kept in stock. Irregular or odd sizes made promptly to order.

ROWLETT'S "CHAMPION"

Two Seasonable Articles possessing the most Merit.

Do not purchase any other makes before asking your Jobber for full information and prices.

"The Lawn King"
Mitis Steel Web-Tooth.

Billings & Spencer Co., Hartford, Conn.
Butterfield & Co., Derby Line, Vt.
Hart Mfg. Co., Cleveland, O.
Saunder's Sons, D., Yonkers, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Stove Linings.
Ostrander, Jas. & Son, Troy, N. Y.

Stove Trimmings.
Troy Nickel Works, Troy, N. Y.

Stoves, Oil, Vapor and Gasoline.
Central Oil Stove Co., Boston, Mass.

Strops.
Electric Cutlery Co., 91 Chambers, N.Y.
J. R. Torrey & Co., Worcester, Mass.

Sulphuric Acid.
Matthiessen & Hegeler Zinc Co., La Salle, Ill.

Swaging Machines.
Excelsior Needle Co., Torrington.

Tack and Nail Machinery.
Sweetser, W. A., Brockton Mass.

Tack Pullers.
Hagen & Reid, W. Troy, N. Y.

Tacks, Brads, Staples, &c.
A. Field & Sons, Taunton, Mass.
American Tack Co., 116 Chambers, N.Y.
Disosway & Henderson, 165 Greenwich, N. Y.
Dunbar, Hobart & Co., 39 Warren, N Y.
Florence Tack Co., Florence, Mass.
National Screw & Tack Co., Cleveland, Ohio.
Phillips, E. & Sons, South Hanover.
Plymouth Mills, Plymouth, Mass.
Trufant, W. E., Whitman, Mass.

Taps and Dies.
Butterfield & Co., Derby Line, Vt.
Manning, Maxwell & Moore, 111 Liberty, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Testing Machines.
Riehle Bros., Philadelphia,

Thill Springs.
Frost Thill Spring Co., Boston, Mass.

Toe Calks, Steel.
Burke, P. F., Boston, Mass.

Tools.
Am. Bit Brace Co., Buffalo, N. Y.
Atkins, E. C. & Co., Indianapolis, Ind.
Britton, Horace E., Stoughton, Mass.
Cincinnati Tool Co., Cincinnati, Ohio.
Brown, R. H. & Co., New Haven, Conn.
Humphrey Tool Co., Warren, Mass.
Standard Tool Co., Athol, Mass.
Stanley Rule & Level Co., 29 Chambers, N. Y.
Starrett, L. S., Athol, Mass.

Tool Chests.
Am. Tool Co., 200 W. Houston, N.Y.

Tools and Machines (Tinners').
Niagara Stamping and Tool Co., Buffalo, N. Y.

Tools, Blacksmith and Wheelwrights.
Illinois Iron & Bolt Co., Carpenterville, Ill.
Silver Mfg. Co., Cleveland, O.

Tools, Steam and Gas Fitters'.
Enterprise Co., Sandwich, Ill.
Saunders' Sons, D., Yonkers, N. Y.

Torches, Gasolene.
Dangler Stove & Mfg. Co., Cleveland, O.
Schneider & Trenkamp, Cleveland, O.
Standard Lighting Co., Cleveland, O.

Transom Lifters.
Wollensak, J. F., Chicago, Ill.

Tripoli.
Am. Tripoli Co., Carthage, Mo.

Trucks, *Manufacturers of.*
Boston & Lockport Block Co., Boston, Mass., and Lockport, N. Y.
Lansing Wheelbarrow Co. Lansing, Mich.

Tube Scrapers.
Chalmers-Spence Co., 419 8th, N. Y.
Sherwood Mfg. Co., Buffalo, N. Y.

Tubes, Seamless Drawn Copper.
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Bridgeport Brass Co., 19 Mur'y, N. Y.
Randolph & Clowes, Waterbury, Conn.

Tubes, Steel.
Leng, John S., 4 Fletcher, N. Y.
Spiral Weld Tube Co., 5 & 7 Beekman St., New York.

Tumbling Barrels.
Henderson Bros., Waterbury, Conn.

Turnbuckles.
Carnegie, Phipps & Co., Ld., Pittsburgh, Pa.
Cleveland City Forge and Iron Co., Cleveland, O.
Merrill Bros., Brooklyn, E. D.

Typewriters.
Smith-Premier Typewriter Co., Syracuse, N. Y.

Twist Drills, *Makers of.*
Cleveland Twist Drill Co., Cleveland.
Morse Twist Drill & Machine Co., New Bedford, Mass.
Standard Tool Co., Cleveland.

Valves, Gas, Water and Steam.
Chapman Valve Mfg. Co., Boston.
Jenkins Bros., 71 John, N. Y.
Leng, John S., 4 Fletcher, N. Y.
Ludlow Valve Mfg. Co., Troy, N. Y.
Lunkenheimer Brass Mfg. Co., Cincinnati, Ohio.
McNab & Harlin Mfg. Co., 86 John N. Y
Mason Regulator Co., Boston, Mass.

Ventilator Appliances.
Howard & Morse, 45 Fulton, N. Y.

Ventilators.
Colby Hdw. & Electric Co., Chicago, Ill

Vises.
Howard Iron Works, Buffalo, N. Y
Prentiss Vise Co., 23 Dey, N. Y.
Tower & Lyon, 95 Chambers, N. Y.

Wagon Jacks.
Boston & Lockport Block Co., Boston Mass., and Lockport, N. Y.
Covert, E. Mfg. Co., Farmer Village, N.Y.
Higganum Mfg. Corp., Higganum, Conn

Washers.
Milton Mfg. Co., Milton, Pa.

Washing Machines.
Wayne, Anthony Mfg. Co., Ft. Wayne, Ind.

Water Motors.
Belknap Motor Co., Portland, Me.

Welding Machines.
Thomson Electric Welding Co., Boston

Well Machinery.
American Well Works, Peoria, Ill.

Wheelbarrows.
Lansing Wheelbarrow Co., Lansing, Mich.
McNeil, G. C., Akron, Ohio.

Wheels.
Quincy Metal Wheel Co., Quincy, Ill.

White Lead.
Atlantic White Lead and Linseed Oil Co., 287 Pearl, N. Y.
Lewis, John T. & Bros. Co., Phila.
Southern White Lead Co., St. Louis, Mo.

Wire, *Manufacturers of.*
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Cary & Moen, 234 W. 29th, N. Y.
Emmons, F. R. & Bro., 21 Warren, N. Y.
Fuller Bros. & Co., 139 Greenwich, N. Y.
Gautier Steel Department of Cambria Iron Co., Johnstown, Pa.
Prentiss, Geo. W. & Co., Holyoke, Mass
Salem Wire Nail Co., Salem, O.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg. Co., Worcester
Wetherell Bros., 93 Liberty St., N. Y.
Wolff, R. H. & Co., Ltd., 118th St. and Harlem River, N. Y.
Worcester Wire Co., Worcester, Mass.

Wire Cloth.
Barnum, E. T., Detroit, Mich.
Clinton Wire Cloth Co., Clinton, Mass.
Darby, Edward & Sons, Philadelphia.
Estey, W. S., 71 Fulton, N. Y.
Gilbert & Bennett Mfg. Co., 42 Cliff N. Y.
Howard & Morse, 45 Fulton, N. Y.
Wickwire Bros., Cortland, N. Y.
W. S. Tyler Wire Works Co., Clev'd.
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Cutters.
Higganum Mfg. Corp., Higganum, Conn
King, J. M. & Co., Watertown, N. Y.

Wire Dies.
McFarland, Wm., Trenton, N. J.

Wire Door Mats.
Hartman Mfg. Co., Beaver Falls, Pa.
The Wire Goods Co., Worcester, Mass.

Wire Fences.
Gilbert & Bennett Mfg. Co., 42 Cliff
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Goods, *Manufacturers of.*
Darby, Edward & Sons, Phila.
Gilbert & Bennett Mfg. Co., N. Y.
Hollow Cable Mfg. Co., Hornellsville.
E. Jenckes Mfg. Co., Pawtucket, R. I.
Ludlow-Saylor Wire Co., St. Louis.
Whitman & Barnes Mfg. Co., Syracuse, N. Y.
Wire Goods Co., Worcester.
Wickwire Bros, Cortland, N. Y.

Wire Machinery.
Adt, John & Son, New Haven, Conn.
Collins-Goodin Mfg. Co., St. Louis, Mo.
Manville, E. J. Mch. Co., Waterbury, Ct

Wire Nail and Tack Machines.
Eckstein, Chas. G. & Co., 32 Liberty, Sweetser, W. A. Brockton, Mass.

Wire Nails.
American Tack Co., Fairhaven.
Braddock Wire Co., Pittsburgh, Pa.
Dunbar, Hobart & Co., 39 Warren, N. Y.
Field, A. & Sons, Taunton, Mass.
Phillips, E. & Sons, South Hanover.
Phillips, Townsend & Co., Phil., Pa.
Plymouth Mills, Plymouth, Mass.
Salem Wire Nail Co., Salem, O.
St. Louis Wire Mill Co., St. Louis, Mo.
Thompson, Richard Co., Ltd., 105 Chambers, N. Y.
Trufant, W. E., Whitman, Mass.
Whitney, A. R. & Co., New York City.
Wire Goods Co., Worcester.

Wire Rods, Steel.
Illinois Steel Co., Chicago, Ill.
New Castle Steel Co., New Castle, Pa.
Whitney, A. R. & Co., 17 B'way, N. Y.

Wire Rope, Iron and Steel
Makers.
Broderick & Bascom, St. Louis, Mo.
California Wire Works, San Francisco
Hazard Mfg. Co., Wilkesbarre, Pa.
A. Leschen & Sons Rope Co., St. Louis
Washburn & Moen Mfg. Co., Worcester Mass.
Williamsport Wire Rope Co., Williamsport, Pa.

Wire, Spool.
Tate & Co., Malden, Mass.

Woodenware.
Tucker & Dorsey Mfg. Co., Indianapolis, Ind.
Udell Woodenware Wks, Indianapolis Ind.

Wood-Working Machinery.
Egan Co., Cincinnati, O.
Seneca Falls Mfg. Co., Seneca Falls N. Y.

Wrenches, *Manufacturers of.*
Bemis & Call Hardware & Tool Co. Springfield, Mass.
Billings, Spencer & Co., Hartford, Conn
Capitol Mfg. Co., Chicago, Ills.
Coes Wrench Co., Worcester, Mass
Graham, Bailey & Co., Buffalo, N. Y.
Trimont Mfg. Co., Roxbury, Mass.
Williams, J. H., Brooklyn, N. Y

Wringers.
Foos, G. S. Company, Springfield, O.
Stone Mfg. Co., Columbus, Ohio.

FIRE! FIRE!! FIRE!!

On November 6th the manufacturing part of our works was almost totally destroyed by fire. The unprecedentedly heavy trade for the entire season found us short on stock and long on orders. Fortunately we had already purchased a site commensurate with the demands for **NUBIAN,** at Cragin, a Chicago suburb, to which we anticipated moving in a few months. Our fire will simply expedite this removal. We have a full force at work, and expect by November 15th to 20th to commence filling orders. In the meantime we beg our customers to have a little patience. We will divide up what stock we have so as to give everybody a little. Thanking you for past favors and assuring you we will endeavor to merit a continuance, we are, very truly,

—MANUFACTURERS OF—

IRON AND STEEL WIRE

of every description, plain, galvanized, tinned and lead-coated; spiral ribbon fence wire; steel wire ties for baling hay, straw, rags, excelsior, &c., &c., &c.

IRON AND STEEL WIRE ROPE

for all purposes, including cables of the best quality and of any desired length for street cable roads. The attention of all users of wire rope is specially called to the Trenton Iron Co.'s

Patent Locked Wire Ropes

which are far superior to any other in tensile strength and durability; from the fact that the wires in these ropes are interlocked, "unstranding" or projection of broken wires is impossible, and consequently a smooth surface only is constantly presented to the sheave or drum, causing these latter to last indefinitely. One of these locked wire ropes working under ordinary conditions will outwear two or three ropes of the ordinary style. The Trenton Iron Co. also call attention to their

Patent Wire Rope Tramways (Bleichert system)

also their hoisting and conveying plants for quarries, open cut mines, docks and contractor's work. Haulage and transmission of power by wire ropes a specialty. Surveys made and plans furnished at moderate rates by competent engineers.

The Metallurgy of Steel.

BY

HENRY M. HOWE.

Price, - - - - *$10.00*

This work is the most notable contribution to the literature of iron and steel metallurgy ever published. This series of papers on the subject have, during the past two years, attracted world-wide attention and have received the heartiest commendation from all quarters. The volume now published presents this material in much more convenient shape, with considerable additional matter, giving the results of the most recent research, experiment and practice. Also presenting a complete review of all important conclusions reached by earlier investigators. Every statement and citation has been carefully weighed and verified, and the references to the literature of the subject are given minutely, the book thus furnishing in itself a key to the whole range of steel metallurgy. It also furnishes the results of much new and original investigation, specially undertaken for the present work. Every metallurgist, every manufacturer of steel in any form, and all who are interested in the iron or steel industries, and all engineers who use iron or steel should have this standard work and cannot afford to be without it.

TABLE OF CONTENTS:

Chapter I.—Classification and Constitution of Steel.
Chapter II.—Carbon and Iron. Hardening, Tempering and Annealing.
Chapter III.—Iron and Silicon.
Chapter IV.—Iron and Manganese.
Chapter V.—Iron and Sulphur.
Chapter VI.—Iron and Phosphorus.
Chapter VII.—Chromium, Tungsten, Copper.
Chapter VIII.—The metals occurring but sparingly in iron.
Chapter IX.—Iron and Oxygen.
Chapter X.—Nitrogen, Hydrogen, Carbonic Oxide.
Chapter XI.—The Absorption and Escape of Gas from Iron.
Chapter XII.—The Prevention of Blowholes and Pipes.
Chapter XIII.—Structure and related subjects.
Chapter XIV.—Cold Working, Hot Working, Welding.
Chapter XV.—Direct Processes.
Chapter XVI.—Charcoal-Hearth Processes.
Chapter XVII.—The Crucible Steel Process.
Chapter XVIII.—Apparatus for the Bessemer Process.
Appendix I.—Special Steels.
Appendix II.—Anti-Rust Coatings.
Appendix III.—Lead Quenching.
